## Produzione e Innovazione Rigorosamente **Made in Italy**

La C.E.I. nasce nel lontano 1969 come costruttrice di ingranaggi per cambio e differenziale. In oltre 40 anni di storia abbiamo cercato di innovarci ed innovare i nostri prodotti mettendo sempre a frutto l'esperienza che deriva da anni spesi a studiare le problematiche costruttive di organi meccanici complessi.

I nostri stabilimenti produttivi ogni giorno lavorano tonnellate di materiale grezzo, modellandolo e trasformandolo sotto lo sguardo attento dei nostri tecnici, impegnati oggi come allora nella ricerca di una qualità paragonabile al ricambio originale ed in alcuni casi riuscendo perfino a migliorarla.

Il nostro impegno in tutti questi anni ci ha portato ad essere un'azienda leader nel settore ricambistico esportando i nostri prodotti in oltre 65 paesi toccando 5 continenti. Guardiamo ottimisti al futuro non dimenticando mai il nostro passato, pronti oggi più di ieri a raccogliere la sfida produttiva del nuovo millennio che siamo sicuri ci vedrà ancora protagonisti.

## Production and Innovation Strictly **Made in Italy**

C.E.I. was set up back in 1969 as a manufacturer of gearboxes and differential gears. In the 40 years and more of our existence we have tried to be innovative and to make our products innovative, making the most of our experience gained from years of studying the manufacturing problems of complex mechanisms.

Each day, our production facilities take tonnes of raw materials, shaping and transforming them under the watchful eyes of our technicians, committed now as in previous years to achieving a quality comparable to that of the original part and in some cases even managing to improve on it.

Throughout these years, our commitment has led us to be a leader in the spare parts sector and we export our products to over 65 countries across 5 continents. We look optimistically to the future, never forgetting our past, more ready than ever to take up the production challenge of the new millennium which we are sure will see us still with a part to play.

## Production et Innovation Rigoureusement **Made in Italy**

La Société C.E.I. a vu le jour en 1969 en tant que fabricant d'engrenages pour boîtes de vitesses et différentiels. En plus de 40 ans d'histoire, nous avons essayé de nous innover et d'innover nos produits en mettant toujours à profit l'expérience provenant d'années passées à étudier les problèmes liés à la construction d'organes mécaniques complexes.

Chaque jour, nos unités de production usinent des tonnes de matériau brut, le modelant et le transformant sous le regard attentif de nos techniciens, engagés aujourd'hui comme toujours dans la recherche d'une qualité comparable à la pièce de rechange d'origine et réussissant même dans certains cas à l'améliorer. Notre engagement tout au long de ces années nous a hissés à une position de leader sur le marché des pièces de rechange, grâce à l'exportation de nos produits dans plus de 65 pays des 5 continents. Nous regardons l'avenir avec optimisme sans jamais oublier notre passé, prêts aujourd'hui plus qu'hier à relever le défi du nouveau millénaire en matière de production, certains d'en être encore les protagonistes.

## Producción e innovación e **Made in Italy**

La empresa C.E.I. nació allá por el año 1969 como fábrica de engranajes para cajas de cambio y diferenciales. Llevamos más de 40 años procurando que la innovación caracterice a nuestra empresa y nuestros productos y aprovechando la experiencia adquirida durante los numerosos años que hemos dedicado al estudio de los problemas relacionados con la fabricación de componentes mecánicos complejos.

Nuestras fábricas elaboran diariamente toneladas de material bruto, moldeándolo y transformándolo bajo la mirada atenta de nuestros técnicos que, ahora como antaño, se dedican a asegurar un nivel de calidad comparable con el recambio original y que, en algunos casos, incluso la mejora.

Nuestra dedicación todo este tiempo nos ha convertido en una empresa líder en el sector de los recambios: exportamos nuestros productos a más de 65 países en 5 continentes. Miramos con optimismo hacia el futuro sin olvidar jamás el pasado y estamos cada vez más preparados para aceptar el reto productivo del nuevo milenio, en el que estamos seguros de que seguiremos siendo protagonistas.
