

Scania

Alternative and interchangeable
spare parts

cosibo

For Scania A totally reliable range of alternative and interchangeable spare parts

Cosibo guarantee the high quality of their products.

A staff of mechanical engineers, studies, analyses and "re-designs" original spare parts. It is a very delicate stage, because in order to guarantee to **Cosibo** products the same characteristics of original spare parts, it is necessary to have great mastery of the employed technologies and a perfect knowledge of the characteristics of the materials to be used. After this stage, another fundamental step is related to the identification of the many companies and contractors to which **Cosibo** commissions the realisation of its large range of products.

Cosibo strength and quality are witnessed by the several partnership co-operations in force between the Company and some of the most qualified producers in different sectors: mechanic, electronic, plastic materials moulding, oil hydraulic, electric and all the others specialised in the production of spare parts.

According to the company philosophy, **Cosibo** has with all these companies well established and clear co-operations with the consequence that they can offer not only high quality products but also short lead-times while respecting the agreed delivery dates. The aim is to offer reliable and efficient answers to any single customer all over the world.

This catalogue shows the whole range of spare parts for **Scania** trucks.

A very rich range to guarantee the availability of the spare parts for the various components of the vehicle:

Engine · Clutch · Speed gear · Propeller shaft · Front axle · Differential gear · Rear axle · Hubs and wheels

Braking system · Suspension · Steering · Engine bonnet · Electric unit · Cab · Lights · Mirrors · Body parts

NOTES

IMPORTANT

- All the components listed in our catalogue are not original, though perfectly interchangeable.
- Reference numbers, either original or of a different nature, are for information purposes only. When placing an order, please, always use Cosibo reference numbers and do not mention the original reference of the truck manufactures in the invoice to vehicle owners or to anybody else.
- If the customer does not apply with what above he takes all his own responsibilities.

LEGEND

- All the spare parts in this catalogue are divided into **Groups** on the basis of the part of the truck they are destined to.
- Each **Group** is identified by a letter from the alphabet as it follows:

A	ENGINE
B	CLUTCH
C	SPEED GEAR
D	PROPELLER SHAFT
E	FRONT AXLE
F	REAR AXLE
G	HUBS AND WHEELS
H	BRAKING SYSTEM
I	MIRRORS BODY PARTS AND ELECTRIC MATERIAL
J	CAB
L	SUSPENSION
M	STEERING
N	LIGHTS AND ELECTRIC UNIT
O	ACCELERATOR PEDAL

- Each product in the catalogue is identified by specific **Codes**:

Code (Cosibo code)

Re. OEM (original code)

Re. ex OEM (ex original code)

- With reference to each product, truck **Models** and **Applications** it is destined to are shown:

● **Model** (marked by a dot)

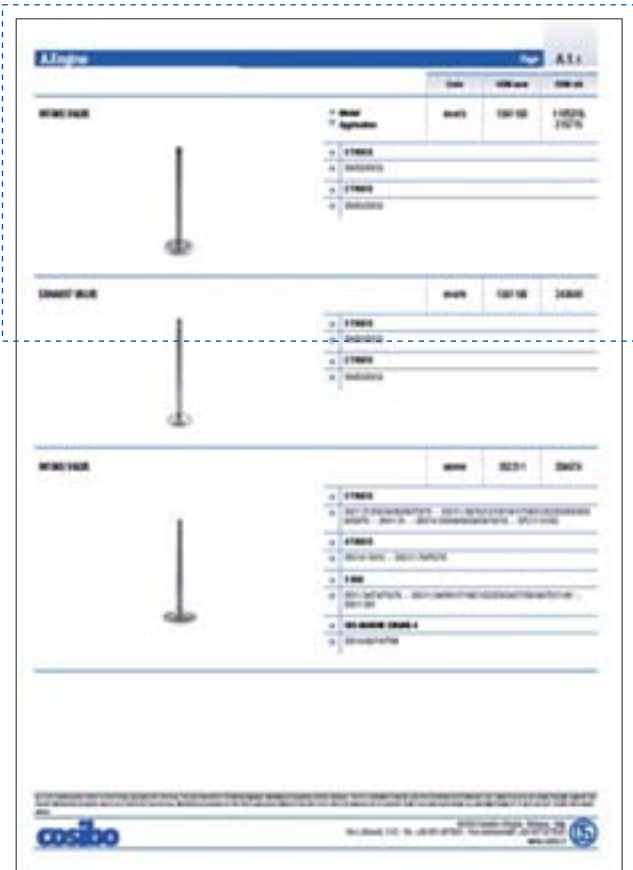

★ **Application** (marked by a star)

- Page numbering is determined by the **Letter** indicating the Group + a progressive **number** (in bold) to indicate the sub-group + a progressive **number** to indicate the order of appearance in the catalogue:

A.1.25

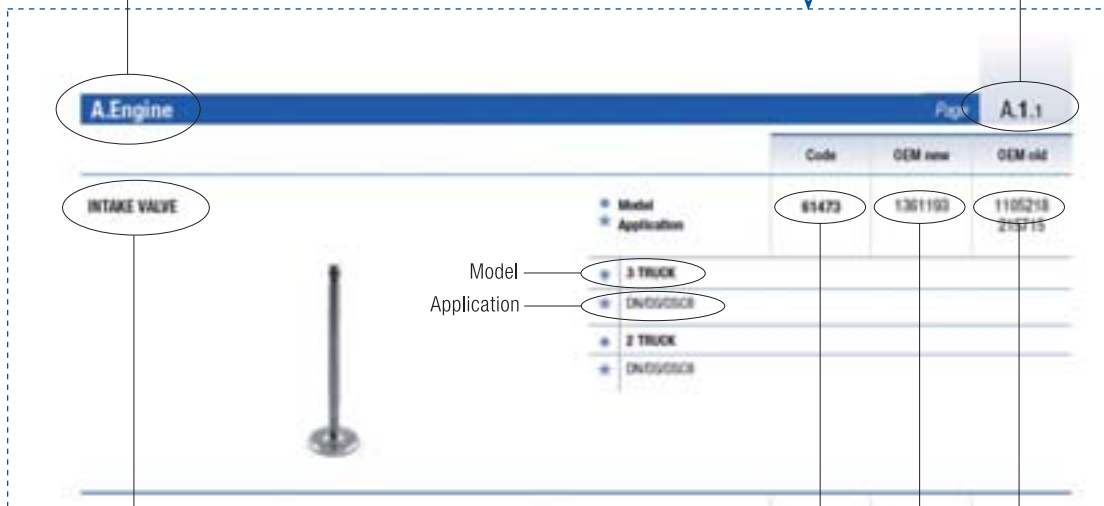

- Two **General Indexes** are at the end of the catalogue. The first one is on the basis of the **Cosibo codes** and the second one is on the basis of the **OEM codes** (original codes).

All the components listed in our catalogue are not original, though perfectly interchangeable. Reference numbers, either original or of a different nature, are for information purposes only. When placing an order, please, always use cosibo reference numbers and do not mention the original reference numbers of the truck manufacturers in the invoice to vehicle owners or to anybody else. The customer takes his own responsibility if he does not comply with what above.

GOODS TO BE RETURNED AND COMPLAINTS

When the goods are delivered, the customer has to check that the number of boxes corresponds to what it is shown in the delivery note and that packaging is intact.

If not, when accepting the goods, he will have to clearly mention "subject to inspection" in the delivery note and he will inform immediately or, anyway, within 8 days from the delivery date Cosibo SpA.

In case the goods are made of body parts, lighting and mirrors, the delivery note and/or the CMR will have to be signed **always** by mentioning "subject to inspection" even if the delivered boxes are intact.

It has to be taken into account that only when showing the above mentioned document there will be the chance to have the goods promptly replaced.

And this is valid when carriage is paid both by the sender (Cosibo SpA) and by the customer who receives the goods.

Customer is made aware that no dispute concerning these cases will be accepted by Cosibo SpA unless it has been formalised in the delivery note at the moment of the delivery of the goods.

CHARACTERISTICS OF THE COMPLAINT:

LACK: customer reckons not to have received in full or partially what it is mentioned in a delivery note;

SURPLUS: customer reckons to have received a bigger quantity than what it is mentioned in a delivery note;

INVERSION: customer reckons to have received a different product from what it is mentioned in a delivery note;

QUALITY: customer reckons that the purchased goods do not meet technical characteristics as per what it is mentioned in the catalogue;

BREAKS: customer reckons to have received damaged goods.

In all these cases the customer has to inform Cosibo SpA in writing within 8 days from the delivery date of the goods.

This is valid as well when the customer reckons some prices and/or discounts that have been applied are different from what it was agreed.

Any dispute not formalised according to these procedures and timing will be rejected by Cosibo SpA.

PROCEDURE

GOODS TO BE RETURNED: for any request to return some goods the customer will have to fill in the "authorisation to return the good" form in a proper and detailed way and will send it to Cosibo SpA together with a picture of the piece claimed to be defective; after that, he will wait for the authorisation to return the piece.

Without such an authorisation by Cosibo SpA any returned good will be rejected. Should Cosibo SpA urge the customer to send the pictures if these are not sent within ten days from the solicitation warranty on the product will be considered no more in force. Any good authorised to be returned will have to be shipped to Cosibo SpA possibly in its original packaging together with the "authorisation to return the good" form and a copy of the delivery note signed by both the customer and the freight agent; moreover, it will have to be a good under standard production to be recognised by the computer system as an active code.

Cosibo SpA reserve the right to check the returned good; should the piece turn out to have been tempered or not to be defective the customer will be charged with freight costs and the greater damage as well.

ORDER MISTAKES: if the mistake can be attributed to the customer Cosibo SpA reserve the right to authorise the return. Anyway, the customer will be charged with any freight costs.

RETURNED GOODS NOT PRODUCED BY COSIBO SPA: Cosibo SpA will send back the goods and will charge the customer of the sum of € 50,00 + V.A.T. as administration costs. The same applies when the returned goods were delivered years before. Both cases the customer within three days from the rejection of the returned goods by Cosibo SpA will have to send the authorisation to scrap the goods. On the contrary, Cosibo SpA will send back the goods according to what above.

COMPLAINTS INTERRUPTION: each year all the complaint sent during the month of August and from December 15th to January 15th will be put on hold.

All these complaints will be taken into account starting from 15 days after the above mentioned periods.

TERMS AND CONDITIONS: Cosibo SpA will not recognise any warranty right if no communication is sent within eight days from the moment the defect has arisen and anyway after more than year from the delivery.

Since 1988, strength, agility and accuracy

Cosibo is specialised in the production and marketing of spare parts for heavy vehicles which are alternative and interchangeable with the original ones. In over twenty years of activity the Company has developed a business strength and a productive experience which today make it one of the most qualified reference points for the whole sector. A perfect knowledge of products, the total mastery of the technological processes, the great ability and agility in the management of commercial processes, make **Cosibo** one of the most reliable and competitive companies in its sector both in terms of products quality and promptness of action. In an industry, such as the one of heavy vehicles, where the evolution of the models, the technological innovation and the reliability of the products are the key for the success of the great manufacturers, the ability to innovate and update the range of available spare parts is an absolute and unavoidable value which has always been at the core of **Cosibo's** activity. Another competitive advantage has always been the managerial accuracy, the transparency of relationships and the understanding of the dynamics which rule the sector in the different markets. This advantage, over the years, has generated and consolidated the appreciation and diffusion of the **Cosibo** brand in each Country where the Company has decided to launch its activity. Supported by the verified effectiveness of its business strategy and of the choices made until today, **Cosibo** is currently offering a range of over 3,000 items for the vehicles of the main brands present on the market. **Cosibo** guarantees the absolute quality of the spare parts for vehicles of the following brands:

SCANIA • VOLVO • DAF • MERCEDES • IVECO • MAN • RENAULT
