Products for Superior Performance And Longer Service Intervals

Air Filtration

- Donaldson air filters contain filter media specially formulated to trap contaminants such as dirt, dust and soot before they reach your engine.
- PowerCore® air filters are designed to allow high air flow in minimal space.
- RadialSeal™ design provides the most consistent and reliable seal and the best protection for your engine.

Lube Filtration

- Donaldson lube filters protect your engine by capturing wear metals, soot and other contaminants in your engine oil.
- Donaldson Endurance™ lube filters with Synteq™ filter media help extend service intervals.

Fuel Filtration

- Donaldson fuel filters help prevent premature injector and pump wear by delivering clean fuel to your engine.
- The Twist&Drain™ fuel filter water separator takes the mess out of draining water from your filter.

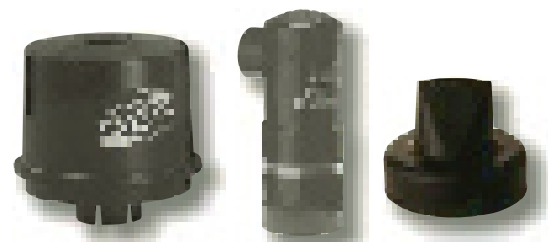

Hydraulic Filtration

- A full line of hydraulic and transmission filters protect expensive hydraulic components.
- Duramax® filters have become the industry standard for operating pressures up to 350 psi (24 bar).

Mufflers & Exhaust Accessories

- Donaldson offers replacement mufflers, clamps and accessories for complete exhaust system maintenance.
- Donaldson exhaust ejectors are available in 3-styles.

Filtration Accessories

- Donaldson TopSpin™ self-ejecting pre-cleaners extend air filter and equipment life.
- Filter service indicators reduce air filter maintenance costs and eliminate over-servicing.
- Vacuator valves, standard on many air cleaners, are vital to the functionality of the air cleaner during pre-cleaning.

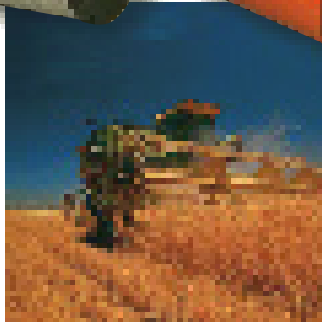

Demand Donaldson for Your Agriculture Equipment!

Your equipment operates in all kinds of environments. Donaldson products provide peak engine and equipment performance, no matter where you need them.

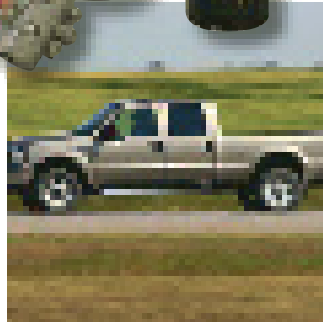

Donaldson delivers a complete product line for both on- and off-road vehicles and equipment.

A History of Filtration Innovation

It started with the invention of an air cleaner for a dust-choked tractor.

The first successful engine air cleaner was invented in 1915 by founder Frank Donaldson to keep a farm tractor operating in dusty field conditions. Since then, Donaldson Company has continued to innovate and advance filtration technology that helps customers achieve maximum productivity from their engines, vehicles and equipment.

Donaldson Engine AfterMarket Warranty for Filtration and Exhaust Products

Donaldson warrants its Aftermarket products against failure due to defects in materials and workmanship for the period specified under Terms and Conditions for the particular product.

Donaldson's obligation under this warranty covers replacing the failed product, including transportation charges, only. If the Donaldson product failure is the sole and direct cause of damage to the equipment on which the product was properly installed, Donaldson will reimburse reasonable costs to restore the equipment to the condition it was in immediately before the failure.

This warranty does not cover failure due to misapplication, misuse, abuse, neglect, rust through and corrosion (mufflers), improper service practices or non-Donaldson approved modifications. Engine and equipment manufacturers' warranties remain in effect when Donaldson products are used.

Donaldson must be notified in writing of any claims covered by this warranty within one year of the date of failure. Donaldson, at its discretion, will either physically visit the site where the alleged failure has been found or, request that all parts, Donaldson and other relevant parts, be shipped prepaid to its General Office, in care of the Product Lab or as otherwise specified.

Terms and Conditions

Warranty coverage begins at the date of installation to the original end-user, and expires after the indicated period or kilometres, whichever occurs first.

More detailed information can be found in the Donaldson Europe Operating Guide or can be received upon request.

Save Shelf Space!

Complete coverage with fewer part numbers!

Donaldson's fuel product line has expanded, but your inventory won't have to grow.

Buy one Donaldson replacement filter to fit multiple agriculture applications.

17 partnumbers available to cover over 500 vehicle applications.

In with the New!

Out with the Old

Features, Functions & Benefits

- Fully compatible with OEM accessories, such as water collection bowls, drain valves and water-in-fuel (WIF) sensors
- Save shelf space – consolidate part numbers stocked with complete application coverage
- Single part number fits up to 20 different applications, including both the current and previous fuel system designs
- 17 part numbers available to cover over 500 vehicle applications

Simplified Design

- Versatile – no keys necessary for installation; universal interface allows one part to fit multiple applications
- Domed can provides reliable strength
- Only one threaded port in the housing
- Integrated hose barb – allows attaching a hose to drain water to a container

Replacement Filters for Racor® Fuel Systems

Racor® is a registered trademark of Parker Hannifin Corporation

Complete Coverage for Agriculture Vehicles !

Donaldson's fuel product line has expanded.
Equivalent performance. Product you want. Flexibility you need.

Simplified Design

- Only one threaded port in the housing accommodates either a Twist&Drain™ valve or a clear drain bowl
- Domed can provides reliable strength

Improved Twist&Drain™ Valve

- Easy turn – drain valve knob with wide profile provides a better grip
- Easy to use – fewer turns required to water drain to function versus typical three turns
- Self-venting design – allows water to evacuate in a quick, steady stream instead of a slow drip (no need to open a secondary vent)
- Keeps you dry – integrated hose barb, allows attaching a hose to drain water to a container

Options & Accessories

- Clear drain bowl add-on option
- Flexible – Twist&Drain valve can attach to either the spin-on or clear drain bowl
- Twist&Drain valve available with or without the ½"-20 threaded sensor port

Donaldson Agriculture Catalogue Disclaimer

The Donaldson European Agriculture catalogue contains the most recent application data available. All major European Agriculture manufacturers are listed. Each section gives you the manufacturers model number, the engine fitted, the filter type and the Donaldson equivalent. At the end of this catalogue, a quick cross-reference section has been added.

The original partnumbers are given for comparison only. They are not meant to indicate the origin of parts. The information provided in this catalogue is compiled to the best of our knowledge. However, Donaldson makes no guarantee, either expressed or implied as to the accuracy of the data shown and can not be held responsible for any misapplication.

Donaldson operates a policy of continuously developing and improving its product offering and expanding its product line.

Please contact your nearest Donaldson distributor or dealer for applications not listed in this catalogue. This catalogue replaces and makes obsolete the previous Agriculture catalogue.
