### Disclaimer

Namen, Beschreibungen, Nummern von Motoren, Fahrzeugen, Produkten, Herstellern etc. sind nur zu Vergleichszwecken aufgeführt.  
Die im Katalog enthaltenen Teile sind Ersatzteile in garantierter KS Qualität für die aufgeführten Motoren und Fahrzeuge.

Names, descriptions and numbers of engines, vehicles, products, manufacturers, etc. are mentioned solely for the purpose of comparison.  
The parts contained in the catalogue are spare parts in guaranteed KS quality for the engines and vehicles listed.

Les noms, les descriptions, les numéros de moteurs, les véhicules, les produits, les constructeurs, etc., ne sont donnés qu'à des fins de comparaison.  
Les articles mentionnés dans le catalogue sont des pièces de rechange de qualité KS garantie, destinées aux moteurs et aux véhicules stipulés.

Los nombres, las designaciones y los números de motores, vehículos, productos o de fabricantes, etc. se indican sólo a modo de comparación.  
Las piezas incluidas en el catálogo son repuestos con calidad KS garantizada para los motores y vehículos indicados.

Названия, описания и номера двигателей, транспортных средств, продуктов, изготовителей и т. п. приводятся только для сравнения.  
Содержащиеся в каталоге части представляют собой запасные части отличного качества фирмы KS для приведенных двигателей и транспортных средств.

### إخلاء المسؤولية

أسماء وشروح وأرقام المحركات والسيارات والمنتجات والشركات المنتجة غيرها مذكورة فقط بهدف المقارنة.  
والأجزاء المذكورة في الكatalog عبارة عن قطع غير تتمتع بجودة KS المضمونة للمحركات والسيارات المذكورة.

## Wichtige Hinweise

Die Angaben in diesem Katalog sind sorgfältig bearbeitet, aber unverbindlich. Für die Richtigkeit dieser Angaben übernehmen wir keine Gewähr. Insbesondere können Änderungen der Ausrüstung durch die Fahrzeug- oder Motorenhersteller bzw. Änderungen der Bezeichnungen nicht ausgeschlossen werden. Informationen über eventuelle Fehler im Katalog sind uns stets willkommen und werden in den zukünftigen Ausgaben korrigiert.

Namen, Beschreibungen und Nummernangaben von Fahrzeugen oder Herstellern u. ä. sind nur zu Vergleichszwecken aufgeführt. Die im Katalog aufgeführten Teile sind Ersatzteile in KS Qualität. Wir behalten uns vor, Produktspezifikationen, Werkstoffe und Aussehen unserer Produkte jederzeit zu ändern.

## Qualitätsmanagement

Zum Zeichen, dass unser Qualitätsmanagement die Anforderungen der einschlägigen internationalen Normen erfüllt sind wir nach ISO 9001 zertifiziert. Viele unserer Kunden, insbesondere die weltweit bekannten Fahrzeughersteller stellen weitergehende Forderungen an unser Haus. Für das Qualitätsmanagement sind diese Forderungen in dem Internationalen Standard ISO/TS 16949 zusammengefasst. Um den Kundenwünschen gerecht zu werden und um zu zeigen, dass wir auch diese, weit über die Anforderungen der ISO 9001 hinausgehenden Verpflichtungen erfüllen, haben wir unser Qualitätsmanagement auch nach dieser ISO/TS 16 949 zertifizieren lassen.

Sollte trotz der laufend durchgeführten Kontrollen während des Produktionsprozesses und der gründlichen Endkontrolle ein Material- oder Fertigungsfehler

Die Funktion und der im Katalog angegebene Verwendungszweck bleiben davon unberührt. Abbildungen, Schemazeichnungen und andere Angaben dienen der Erläuterung und Darstellung und können nicht als Grundlage für Einbau, Lieferumfang und Konstruktion verwendet werden. Angaben über Original-Ersatzteilnummern der Fahrzeug- und Motorenhersteller dienen nur zu Vergleichszwecken. Sie sind keine Herkunftsbezeichnungen und dürfen gegenüber Dritten nicht verwendet werden. Für die Anwendung der Vergleichslisten können wir insbesondere wegen möglicher Änderungen und/oder Maßdifferenzen der einzelnen Hersteller keine Haftung übernehmen.

Es wird keine Haftung übernommen für die Richtigkeit der Daten und dass das Produkt für den beabsichtigten Verwendungszweck geeignet ist. Um dies sicherzustellen, ist in

aufzutreten, übernehmen wir selbstverständlich innerhalb der Verjährungsfrist entweder die Instandsetzung des Motors oder den Ersatz des beanstandeten Erzeugnisses. Derartige Beanstandungen müssen uns binnen einer Frist von 30 Tagen nach Auftreten des Schadens schriftlich mitgeteilt werden.

Die Verjährungsfrist für Mängelansprüche beträgt 24 Monate, gerechnet ab Ablieferung der Sache.

Mängelansprüche erlöschen, wenn der Liefergegenstand von fremder Seite oder durch Einbau von Teilen fremder Herkunft verändert wird, es sei denn, dass der Mangel nicht in ursächlichem Zusammenhang mit der Veränderung steht. Sie erlöschen weiter, wenn Handhabung und Einbau nach geltender Vorschrift nicht befolgt wurde. Normaler Verschleiß und Beschädigung durch unsachgemäße Behandlung sind von der Gewährleistung ausgeschlossen.

jedem Fall vor Einbau der fachkundige Rat des Herstellers oder dessen autorisierter Vertragswerkstatt einzuholen.

Die im Katalog angebotenen Teile sind nicht für den Einsatz in Luftfahrzeugen bestimmt. Bei der Verwendung in Marine-Motoren und Stationär-Motoren ist darauf zu achten, dass bei gleicher Motorbezeichnung unterschiedliche Motorenteile (z. B. Kolben) zum Einsatz kommen können.

Nachdruck, Nachahmung und Vervielfältigung, auch auszugsweise, ist nur mit unserer schriftlichen Genehmigung und mit Quellenangabe gestattet. Mit Erscheinen dieses Kataloges verlieren frühere Ausgaben ihre Gültigkeit.

Änderungen und Irrtümer vorbehalten.

## Umweltmanagement

Verantwortungsvoller Umgang mit Ressourcen, der Schutz unserer Umwelt und die Einhaltung aller relevanten gesetzlichen Verpflichtungen ist für eine langfristige Zusammenarbeit mit allen unseren Partnern von großer Bedeutung. Dies waren die Gründe, die uns motivierten die Anforderungsnorm für Umweltmanagementsysteme ISO 14001 zu erfüllen und unsere Organisation zertifizieren zu lassen.

# KSPG

## Automotive

**KSPG (Kolbenschmidt Pierburg).**  
**Renommierter Zulieferer der**  
**internationalen Automobilindustrie.**

Als langjährige Partner der Automobilhersteller entwickeln die Unternehmen der KSPG Gruppe innovative Komponenten und Systemlösungen mit anerkannter Kompetenz in Luftversorgung und Schadstoffreduzierung, bei Öl-, Wasser- und Vakuumpumpen, bei Kolben, Motorblöcken und Gleitlagern. Die Produkte erfüllen die hohen Anforderungen und Qualitätsstandards der Automobilindustrie. Niedrige Schadstoffemission, günstiger Kraftstoffverbrauch, Zuverlässigkeit, Qualität und Sicherheit sind die maßgeblichen Antriebsfaktoren von KSPG.

**Motor Service Gruppe.**  
**Qualität und Service aus einer Hand.**

Die Motor Service Gruppe ist die Vertriebsorganisation für die weltweiten Aftermarket-Aktivitäten von KSPG. Sie ist ein führender Anbieter von Motorkomponenten für den freien Ersatzteilmarkt mit den Premium-Marken KOLBENSCHMIDT, PIERBURG und TRW Engine Components. Ein breites und tiefes Sortiment ermöglicht den Kunden, Motorenteile aus einer Hand zu beziehen. Als Problemlöser für Handel und Werkstatt bietet sie darüber hinaus ein umfangreiches Leistungspaket und die technische Kompetenz als Tochtergesellschaft eines großen Automobilzulieferers.

## 2

 Erläuterungen zu den  
KS Artikelnummern

Bei den Filtern arbeitet KOLBENSCHMIDT mit zwei Nummernkreisen: neben der standardisierten achtstelligen KS Nummer existiert auch eine entsprechende Kurznummer. Die Kurznummer besteht aus drei oder vier Ziffern und zwei oder drei Buchstaben: die Ziffern identifizieren den Filter und die Buchstaben erläutern den Filtertyp (siehe 3.).

Die achtstellige KS Nummer erscheint auf allen Papieren, wie z. B. auf Lieferscheinen und Rechnungen. Die ersten 5 Stellen lauten immer „50 013“ oder „50 014“; die letzten drei bzw. vier Ziffern identifizieren den Filter und entsprechen den Ziffern der Kurznummer.

**Beispiel:**

Öl-Filtereinsatz

095-OC = 50 013 095

Innenraumfilter mit Aktivkohle

4027-ACC = 50 014 027

**Produktinformationen**

Motorenfilter haben die Aufgabe, Verunreinigungen des Öls, der Luft und des Kraftstoffs vom Motorinneren fernzuhalten. Luft und Kraftstoff benötigt der Motor für die Verbrennung. Das Öl hingegen dient

zum einen der Motorenkühlung und zum anderen zur Reduzierung der Reibung, die dort entsteht, wo sich bewegte Teile berühren oder ineinandergreifen.

## 3 Filtertypen

### 3.1 Luftfilter

Durch einen optimierten Staubabscheidungsgrad des Luftfilters wird der Verschleiß von Kolben, Kolbenringen und Zylinderlaufbahnen minimiert. Der Motorcharakteristik und dem Einbauraum angepasste Luftfilter unterdrücken effektiv Körperschall und Ansaugeräusche.

AP Luftfilter, Panel

AR Luftfilter, rund

AR Luftfilter, rund für LKW

### 3.2 Kraftstofffilter

Schon kleinste Verunreinigungen im Kraftstoff können zu Störungen im System führen. Davon betroffen sind hauptsächlich die Kraftstoffpumpe, der Vergaser, die Einspritzpumpe und die Einspritzdüsen. Besonders moderne Kraftstoff-Einspritz-Anlagen erfordern eine extrem saubere, pulsationsfreie und homogene Kraftstoffzufuhr. Daher muss der Kraftstoff für die einwandfreie Funktion des Motors durch Kraftstofffilter konstant und sorgfältig gereinigt werden.

FS Kraftstoff-Anschraubfilter

FP Kraftstoff-LeitungsfILTER

FC/FX Kraftstoff-Filtereinsatz

### 3.3

#### Harnstofffilter

Harnstofffilter haben die Aufgabe in modernen Abgasnachbehandlungssystemen die Systemkomponenten vor Verschleiß zu schützen. Speziell im Nutzfahrzeugebereich kommen vermehrt SCR-Katalysatoren zum Einsatz (Selective Catalytic Reduction), die den Anteil an Stickoxiden um bis zu 90% reduzieren können. Das SCR-Verfahren nutzt hierfür eine umweltschonende 32,5-prozentige Harnstoff-Wasser-Lösung, die in einem separaten Tank im Fahrzeug mitgeführt wird (Handelsname AdBlue). Diese Harnstofflösung wird mittels Pumpe oder Injektor dosiert in den Abgasstrom eingespritzt und sorgt im Katalysator für eine chemische Reaktion. Der Harnstoff wandelt sich in Ammoniak um, worauf die im Abgas enthaltenen Stickoxide in Stickstoff und Wasser umgesetzt werden.

Um eine erhöhte Lebensdauer der Dosiereinheit zu gewährleisten, werden Harnstofffilter zur Filtration der Harnstoff-Lösung eingesetzt. Feinheit und Standzeit dieser Filterart entsprechen denen eines Dieselmotorkraftstofffilters.

### 3.4

#### Ölfilter

Das Öl baut einen gleitenden Film zwischen den bewegten Motorteilen auf und muss deshalb frei von Fremdkörpern gehalten werden. Fremdkörper, die über den Kraftstoff oder die Ansaugluft in den Motor gelangen sowie metallischer Abrieb, der im Motor entsteht, werden durch den Ölfilter aus dem Ölkreislauf gefiltert. Besonders betroffene Stellen sind hierbei Kolben und Kolbenringe, Zylinderlaufbahnen und Gleitlager. Der Ölfilter verhindert darüberhinaus eine vorzeitige Alterung des Motorenöls.

OS Öl-Anschraubfilter

OC/OH Öl-Filtereinsatz

OX Öl-Filtereinsatz, metallfrei

## 3.5

### Getriebeölfilter für Automatikgetriebe

(→ siehe Seite... Getriebekennbuchstaben)

Der Getriebeölfilter für Automatikgetriebe hat die Aufgabe, das Getriebe vor Fremdkörpern zu schützen. Speziell Öle für Automatikgetriebe haben gegenüber den Ölen für Schaltgetriebe weitere zusätzliche Anforderungen zu erfüllen. Neben dem Schmieren von Zahnflächen, Planetenrädern und Lageraufläichen wird das Öl für das Betätigen von Bremsbändern und Kupplungen benutzt. Auch die Drehmomentübertragung von Pumpe zu Turbinenrad ist Aufgabe des Getriebeöls. Durch eine optimale Filtration verschleiß-

fördernder Stoffe wie z. B. metallischer Abrieb, wird durch den Getriebefilter die Lebensdauer des Getriebes verlängert und die Leistung verbessert.

## 3.6

### Innenraumfilter

Der Innenraumfilter ist im Luftansaugkanal des Gebläses verbaut und filtert Fremdpartikel wie Staub, Pollen, Ruß, etc. aus der Luft. Er wird seit einigen Jahren serienmäßig eingebaut und sorgt für saubere Frischluft im Fahrzeuginnenen. Innenraumfilter gibt es je nach Fahrzeug in sehr unterschiedlichen Formen und Ausführungen: Die Palette reicht von rechteckig über trapezförmig bis hin zum runden Innenraumfilter; mit und ohne Plastikgehäuse oder Schaumstoffabdichtung.

#### Innenraumfilter, Standard (AC)

Der Standardfilter absorbiert hauptsächlich Festpartikel wie Pollen, Sporen, Ruß, Staubkörner und Reifenabrieb, etc. aus der Außenluft. Dies geschieht mittels eines speziell entwickelten Filtermediums.

#### Innenraumfilter, mit Aktivkohle (ACC)

Der Aktivkohlefilter filtert zusätzlich zu den Festpartikeln auch schädliche Gase wie

Stickoxide, Schwefeldioxid, Ozon sowie Kohlenwasserstoffe und hält diese zu 95% vom Innenraum fern: kleinste Partikel werden von der eingebetteten Aktivkohleschicht herausgefiltert und aufgenommen. Ebenso werden unangenehme Gerüche gebunden, so dass Geruchsbelastungen zum Beispiel bei Tunnelfahrten oder Staus auf ein Minimum reduziert werden.

#### Hinweis:

Um den Ein- und Ausbau zu erleichtern, liegt jedem KS Innenraumfilter für PKW eine typenspezifische Einbauanleitung bei. Diese finden Sie auch unter der jeweiligen Artikel-Nr. auf der Product Disc und im OnlineShop. Zum Öffnen der PDF-Dateien benötigen Sie den kostenlosen Adobe Reader.

AC Innenraumfilter, Standard

ACC Innenraumfilter, mit Aktivkohle

AC Innenraumfilter, Einschub

## 3.7

### Lufttrockner

Eine besondere Art der Filtrierung stellt der Lufttrockner dar. Er findet seine Anwendung vor allem in der Druckluftversorgungsanlage mittlerer und schwerer Nutzfahrzeuge. Da in modernen Fahrzeugen die Druckluft für viele Steuer- und Regelprozesse als Energieträger verwendet wird, muss dafür gesorgt werden, dass die in der Luft enthaltene Feuchtigkeit weder Korrosionsschäden in Leitungen und Behältern verursacht, noch bei Minustemperaturen durch Gefrieren das gesamte System lahmlegt. Der Lufttrockner zählt somit zu den Sicherheitsteilen am Fahrzeug.

Die zum Bremsen benötigte Druckluft wird mit dem vom Motor angetriebenen Kompressor erzeugt. Die Druckluft strömt anschließend vom Verdichter zum Einkammer-Lufttrockner mit Druckregler.

*Speziell entwickeltes Granulat, das der Luft die Feuchtigkeit entzieht*

Hier wird die Druckluft durch ein speziell entwickeltes Granulat getrocknet und der Druck im Bremssystem durch einen integrierten Druckregler auf einen eingestellten Wert begrenzt. Anschließend gelangt die Druckluft in einen Druckluftbehälter, der zur Überwachung der Lufttrocknung mit einem Kondenswassersensor und einem Sicherheitsventil versehen ist.

## 3.8

### Kühlmittelfilter

Kühlmittelfilter schützen den Motor, indem sie Verunreinigungen filtern und die im Filter enthaltenen Zusätze dosiert an das Kühlsystem abgeben. Diese Zusätze, auch als Inhibitoren bekannt, werden aber mit der Zeit verbraucht.

Aus diesem Grund ist es sehr wichtig, die regelmäßigen Wartungsintervalle nach Vorgabe des Fahrzeugherstellers einzuhalten.

## 3.9 Spezialfilter

Kontinuierliche Weiterentwicklung der Produktionsprozesse und langjährige Erfahrungen im Filterbereich ermöglichen uns, Filter nach individuellen Kundenwünschen zu entwickeln und zu produzieren. KS Spezialfilter können für alle Filtergruppen und Anwendungsgebiete entwickelt werden.

## 3.10 Öl-Zentrifugalfilter

Diese Filter werden als Nebenstromfilter in Kombination mit Hauptstromfiltern eingesetzt. Damit wird eine besonders wirkungsvolle Filtrierung erreicht: Feinste Partikel, die der Hauptstromfilter durchlässt, werden vom Nebenstromfilter herausgefiltert. Der Nebenstromfilter steht für eine sehr intensive Reinigung mit einem hohen Abscheidegrad.

Als Nebenstromfilter kommt bei den NKW und Baumaschinen vor allem die Freistrahlf zentrifuge (Ölschleuderfilter) zum Einsatz. Das vom Hauptstromkanal in einen Nebenstromkanal umgeleitete Öl fließt durch die Hohlwelle des Läufers über entsprechend angeordnete Bohrungen in den Innenraum des Filters.

Durch speziell ausgerichtete Austrittsdüsen am Boden tritt das Öl wieder aus der Zentrifuge aus. Bei diesem Vorgang werden Rückstoßkräfte frei, die den Läufer in Drehung versetzen. Hierbei können je nach Druck und Temperatur Drehzahlen im Bereich von 4000 bis 8000 1/min erreicht werden.

Durch diese bei der Drehung entstehenden Zentrifugalkräfte, werden die Schmutzpartikel, die sich im Öl befinden, an die Läuferinnenwand geschleudert. Dort bleiben sie haften, bis die Zentrifuge beim nächsten vorgeschriebenen Wartungsintervall gewechselt wird.

## Important information

The information in this catalogue has been put together with care, but is not binding. We cannot accept liability for the accuracy of the information. In particular, the possibility of modifications to equipment by vehicle or engine manufacturers, or changes to designations, cannot be excluded. We always welcome feedback about any errors in the catalogue, and will correct them in future editions.

Names, descriptions and numbers of vehicles, manufacturers, etc. are mentioned solely for the purpose of comparison. The parts contained in the catalogue are spare parts in KS quality. We reserve the right to change the product specifications, materials and appearance of our products at any time.

## Quality management

As a sign that our Quality Management satisfies the requirements of the relevant international standards, we are certified to ISO 9001.

Many of our customers, particularly automotive manufacturers that are household names around the world, come to our company with even more stringent requirements. For Quality Management, these requirements are summarised in the International Standard ISO/TS 16949. In order to satisfy our customers' wishes and to show that we can also fulfil these obligations, which go far beyond the requirements of ISO 9001, our Quality Management is now also certified to ISO/TS 16 949.

In the event of material or production faults despite continuous checks during the

This will not affect the function or intended purpose stated in the catalogue. Diagrams, schematic drawings and other data are provided for the purpose of explanation and illustration, and cannot be taken as the basis for installation, design or the scope of delivery. Original spare part numbers of vehicle and engine manufacturers are provided for comparison only. They are not designations of origin and must not be used in relation to third parties. We cannot accept liability for the use of cross reference lists, because of possible changes and/or differences in dimensions among individual manufacturers, in particular. We do not accept liability for the accuracy of the data or the suitability of the product for the intended purpose. To ensure the above, the expert advice of the manufacturer or its authorised repair shop must be

production process and the comprehensive final inspection, we will of course undertake to repair the engine or replace the faulty product within the limitation period. We must be advised in writing of complaints of this nature within 30 days of the occurrence of the fault.

The limitation period for claims for defects is 24 months, commencing from the delivery of the item.

Claims for damages shall be void if the delivered item has been modified by a third party or parts from other manufacturers have been installed, unless the defect is not related to such modifications.

Furthermore, they shall be void if the item was not handled or installed in accordance with the applicable regulations. Normal wear and tear and damage resulting from improper handling are excepted from the warranty.

obtained in all cases before installation. The parts offered in the catalogue are not intended for use in aircraft. If using in marine or stationary engines, please note that different engine parts (e.g. pistons) may be used, even if the engine designation is the same.

Reprinting, imitation and reproduction of this catalogue in whole or in part is permitted only with our written consent and with reference to the source.

On publication of this catalogue, all previous versions become invalid.

Subject to change without notice.

## Environmental management

Handling resources responsibly, protecting our environment and compliance with all the relevant legal obligations is extremely important for our long-term co-operation with all our partners. This is what motivated us to satisfy the requirement standard for environmental management systems ISO 14001, and to get our organisation certified accordingly.

You can find further technical information on our homepage

The contents of the OnlineShop are also available as an electronic catalogue on the "Motor Service Product Disc". To obtain this, please get in touch with your personal point of contact.

# KSPG

## Automotive

### KSPG (Kolbenschmidt Pierburg).

**Renowned supplier to the international automotive industry.**

As long-standing partners to the automotive industry, the companies in the KSPG Group develop innovative components and system solutions with acknowledged competence for air supply and emission control, for oil and water pumps, for pistons, engine blocks and engine bearings. The products comply with the high demands and quality standards of the automotive industry. Low emissions, reduced fuel consumption, reliability, quality and safety – these are the forces that drive innovation at Kolbenschmidt Pierburg

### Motor Service Group.

**Quality and Service from a single source.**

The Motor Service Group is the sales organisation for the worldwide aftermarket activities of Kolbenschmidt Pierburg. It is one of the leading suppliers of engine components for the independent aftermarket including the premium brands KOLBENSCHMIDT, PIERBURG and TRW Engine Components.

Our comprehensive product range allows our customers to procure engine components from a single source. As a problem solver for dealers and repair shops, Motor Service offers extensive services and the technical expertise that you would expect from the subsidiary of one of the largest automotive suppliers.

## Explanation of KS part numbers

KOLBENSCHMIDT uses two sets of numbers for filters: in addition to the standard eight-digit KS number, there is also a code number. This consists of three or four digits plus two or three letters. The digits identify the filter, the letters explain the filter type (see 3.).

The eight-digit KS number appears in all documents, such as delivery notes and invoices, for example. The first 5 digits are always “50 013” or “50 014”; the last three or four identify the filter and are the same as the digits of the code number.

### Example:

Oil filter cartridge  
095-OC = 50 013 095

Cabin filter with activated carbon  
4027-ACC = 50 014 027

### Product information

The task of engine filters is to keep contamination in oil, air and fuel out of the engine interior. The engine needs air and fuel for

combustion. The oil, on the other hand, is used to cool the engine and also to reduce the friction that arises where moving parts touch or mesh with one another.

## 3 Filter types

### 3.1 Air filters

The optimised particulate separation efficiency of the air filter minimises the wear on pistons, piston rings and the running surface of cylinder liners. The air filters, adapted to the engine characteristics and installation space, effectively suppress structure-borne and intake noise.

**AP** Panel air filter

**AR** Round air filter

**AR** Round air filter for trucks

### 3.2 Fuel filters

Even minor impurities in the fuel system can lead to malfunctions in the system. Most sensitive to this problem are the fuel pump, carburettor, fuel injection pump and injector nozzles. Modern injection systems, in particular, require an extremely clean, pulsation-free and homogenous fuel supply. Therefore, to ensure perfect engine function, the fuel must be continuously and meticulously cleaned by fuel filters.

**FS** Spin-on fuel filter

**FP** In-line fuel filter

**FC/FX** Fuel filter cartridge

## 3.3

### Urea filters

In modern exhaust treatment systems, urea filters have the task of protecting the system components against wear. In the utility vehicle sector, in particular, SCR (selective catalytic reduction) converters are increasingly being used, which can reduce the proportion of nitrogen oxides by up to 90%. To do this, the SCR process uses an environmentally friendly 32.5% aqueous urea solution, which is stored in a separate tank in the vehicle (trade name AdBlue). This urea solution is injected into the exhaust gas flow by a pump or injector and generates a chemical reaction in the catalytic converter. The urea is converted into ammonia, which causes the nitrogen oxides contained in the exhaust gas to be converted into nitrogen and water.

To guarantee an increased feed unit service life, urea filters are used to filter the urea solution. The fineness and service life of this kind of filter correspond to those of a diesel fuel filter.

## 3.4

### Oil filters

The oil forms a sliding film between the moving engine parts, and must therefore be kept free from foreign bodies. Metal swarf from inside the engine and foreign bodies that get into the engine via the fuel or intake air are filtered out of the oil circuit by the oil filter. Components particularly in need of this protection are pistons and piston rings, the running surfaces of cylinder liners and engine bearings. In addition, the oil filter prevents premature ageing of the engine oil.

**OS Spin-on oil filter**

**OC/OH Oil filter cartridge**

**OX Oil filter cartridge, non-metallic**

## 3.5

### ATF filters

(→ see page... gearbox code letters).

The ATF filter is responsible for preventing foreign bodies from entering the automatic transmission unit. Automatic transmission fluid (ATF) must satisfy additional requirements to gear oil for manual transmissions. As well as lubricating tooth surfaces, planet gears and the sliding surfaces of bearings, the oil is also used for operating brake bands and clutches. The transmission of torque from the pump to the turbine impeller is also a task of the ATF. Through the optimum filtration of wear-inducing substances, such as metal swarf caused by

abrasion, the ATF filter extends the service life of the transmission and improves performance.

## 3.6

### Cabin filters

The cabin filter is installed in the air inlet port of the blower, and filters foreign particles such as dust, pollen, soot, etc. out of the air. It has been installed as standard for some years now, and ensures clean fresh air inside the vehicle.

Cabin filters are available in various shapes, sizes and versions, to suit different vehicles: rectangular, trapezoidal and round, with and without plastic housing or foam seal.

#### Standard cabin filter (AC)

The standard filter chiefly absorbs solid particles such as pollen, spores, soot, specks of dust, tyre wear particles, etc. from the outside air. It achieves this by means of a specially developed filter medium.

#### Cabin filter with activated carbon (ACC)

In addition to solid particles, the activated carbon filter also filters noxious gases such

as nitrous oxides, sulphur dioxide, ozone and hydrocarbons, and keeps 95% of these out of the passenger compartment. The activated carbon layer can filter out and absorb the smallest particulates. Unpleasant odours are also contained, so that smells when driving through tunnels or in traffic jams, for example, are kept to a minimum.

#### Note:

Each KS cabin filter for passenger cars comes with type-specific installation instructions to facilitate removal and installation. These are also available on the Product Disc and in the Online Shop under the respective item no. You will need the free Adobe Reader to open the PDF files.

AC Standard cabin filter

ACC Cabin filter with activated carbon

AC Slide-in cabin filter

## 3.7

### Air dryers

The air dryer provides a special kind of filtration. It is used, above all, in the compressed air supply system of medium and heavy utility vehicles. As modern vehicles use compressed air as a source of energy for many control and regulating processes, the moisture in the air must be prevented from causing corrosion damage to pipes and containers, or from paralysing the entire system by freezing at temperatures below zero. The air dryer is therefore a safety component in the vehicle.

The compressed air required for braking is generated by the compressor, which is driven by the engine. The compressed air then flows from the compressor to the single-chamber air dryer with pressure regulator. Here, the compressed air is dried by specially developed granulate,

*Specially developed granulate that removes moisture from the air*

and the integrated pressure regulator limits the pressure in the brake system to a set value. Next, the compressed air enters a compressed air tank, which is equipped with a condensate sensor and a safety valve for monitoring the air drying process.

## 3.8

### Coolant filters

Coolant filters protect the engine by filtering out impurities and releasing the additives in the filter into the cooling system at a controlled rate. These additives, also known as inhibitors, are used up over time, however.

For this reason, it is very important to adhere to the regular maintenance intervals as specified by the vehicle manufacturer.

## 3.9

### Special filters

Due to our many years of experience in the filter branch and the continuous improvement of our production processes, we are able to develop and produce customised filters. KS special filters can be developed for all filter types and applications.

## 3.10

### Oil centrifuge filters

These filters are used as bypass filters in combination with full flow filters. With this combination, highly effective filtration is obtained. The finest particulates, which were allowed through by the full flow filter, are filtered out by the bypass filter. The bypass filter ensures extremely thorough cleaning with a high level of separation. In utility vehicles and construction machinery, the open jet centrifuge (oil centrifuge filter) is primarily used as a bypass filter. The oil, which is diverted from the main duct into a bypass duct, flows through the hollow shaft of the impeller into the interior of the filter via suitably arranged holes.

Specially positioned exit nozzles in the floor allow the oil back out of the centrifuge. This process releases recoil forces that cause the impeller to rotate. Here, speeds of 4000 to 8000 rpm can be reached, depending on the pressure and temperature.

The centrifugal forces generated during this rotation fling the dirt particles in the oil onto the inside wall of the impeller. They remain stuck there until the centrifuge is replaced at the next specified maintenance interval.

### Remarques importantes

Les indications qui figurent dans ce catalogue ont fait l'objet d'un travail méticuleux, mais n'engagent pas notre responsabilité. Nous ne garantissons pas leur exactitude. Il n'est, en particulier, pas possible d'exclure des modifications apportées aux équipements par les constructeurs de véhicules ou de moteurs ou encore des modifications des désignations. Toutes informations relatives à d'éventuelles erreurs présentes dans le catalogue sont les bienvenues ; ces erreurs seront corrigées dans les futures éditions. Les noms, les descriptions et les numéros de véhicules ou de constructeurs, etc., ne sont donnés qu'à des fins de comparaison. Les articles présentés dans le catalogue sont des pièces de rechange de qualité KS. Nous nous réservons le droit de modifier à tout moment les spécifications,

### Gestion de la qualité

Nous sommes certifiés selon ISO 9001 afin de prouver que notre gestion de la qualité satisfait aux exigences des normes internationales en vigueur. Beaucoup de nos clients, en particulier les constructeurs automobiles de renommée mondiale, en demandent encore plus. Pour la gestion de la qualité, ces exigences sont rassemblées dans la norme internationale ISO/TS 16949. Afin de répondre aux attentes de clients et de prouver que nous satisfaisons à des obligations bien plus exigeantes que celles d'ISO 9001, nous avons également fait certifier notre gestion de la qualité selon ISO/TS 16 949.

Si, en dépit des contrôles effectués tout au long du processus de production et du rigoureux contrôle final, un défaut de matière ou de fabrication apparaît, nous prenons en charge, durant la période de

la composition et l'aspect de nos produits. Ceci n'affecte en rien la fonction et l'application stipulées dans le catalogue. Les illustrations, les dessins schématiques et autres indications sont destinés à expliquer et à illustrer nos produits et ne peuvent en aucun cas servir de base au montage des pièces, à la définition de l'ensemble de livraison et à la conception. Les numéros de pièces de rechange d'origine des constructeurs de véhicules et de moteurs servent uniquement à des fins de comparaison. Ils ne constituent pas des désignations de provenance et ne doivent pas être utilisés dans les rapports avec des tiers. Nous déclinons, en particulier, toute responsabilité pour l'application des listes de correspondances en raison des possibles modifications et/ou différences dimensionnelles des constructeurs. Nous déclinons toute responsabilité quant à l'exactitude des informations et à l'adé-

prescription, soit la remise en état du moteur, soit le remplacement du produit défectueux. Les réclamations doivent nous parvenir par écrit dans un délai de 30 jours à compter de la date de survenue du dommage.

Le délai de prescription concernant la responsabilité pour vices matériels est de 24 mois à compter de la livraison des marchandises.

La responsabilité pour vices matériels ne s'applique pas si le produit livré a fait l'objet de modifications de la part d'un tiers ou en cas d'ajout de pièces d'origine tierce, à moins que le vice ne soit pas en rapport causal avec la modification. Cette responsabilité ne s'applique pas non plus quand les prescriptions en vigueur n'ont pas été respectées pour le manquement et le montage. Notre garantie ne couvre pas l'usure normale et les endommagements dus à un manquement non conforme.

quation du produit pour l'usage envisagé. Pour s'en assurer, prendre toujours conseil, avant le montage, auprès du constructeur ou d'un concessionnaire agréé. Les pièces proposées dans le catalogue ne sont pas destinées aux aéronefs. Dans le cas de l'utilisation sur des moteurs de marine ou des moteurs stationnaires, tenir compte du fait que des pièces de moteur différentes (par ex. des pistons) peuvent être utilisées pour une même désignation du moteur.

Toute réimpression, reproduction et duplication, en totalité ou en partie, faite sans notre consentement et sans indication de source, est illicite.

La présente édition remplace et annule toutes les éditions précédentes du catalogue.

Sous réserve de modifications et d'erreurs.

### Gestion de l'environnement

Une gestion responsable des ressources, la protection de notre environnement et le respect de la législation en vigueur sont d'une importance capitale pour une collaboration à long terme avec tous nos partenaires. C'est pourquoi nous avons décidé de faire certifier notre organisation conformément à la norme pour systèmes de gestion de l'environnement, ISO 14001.

# KSPG

## Automotive

### KSPG (Kolbenschmidt Pierburg).

#### Équipementier renommé de l'industrie automobile internationale.

En tant que partenaires de longue date de l'industrie automobile, les entreprises du Groupe KSPG développent, avec une compétence reconnue, des composants et des systèmes novateurs dans le domaine de l'alimentation en air et de la réduction des émissions nocives, des pompes à huile, à eau et à vide, ainsi que des pistons, des blocs-moteurs et des coussinets.

Les produits remplissent les hautes exigences de qualité imposées par l'industrie automobile. Dans le cadre des innovations de Kolbenschmidt Pierburg, les objectifs de motivation primordiaux sont la réduction des émissions nocives et celle de la consommation de carburant, la fiabilité, la qualité et la sécurité.

### Groupe Motor Service.

#### Qualité et Service d'une seule source.

Le Groupe Motor Service est l'organisme de distribution responsable du marché de la rechange au niveau mondial de Kolbenschmidt Pierburg. Motor Service est l'un des premiers fournisseurs de composants de moteurs pour le marché libre de la rechange sous les grandes marques KOLBENSCHMIDT, PIERBURG et TRW Engine Components. Un assortiment vaste et complet permet aux clients d'acquérir leurs pièces de moteurs auprès d'une seule source. En tant que société spécialisée dans la résolution des problèmes des grossistes et des garagistes, Motor Service offre un vaste éventail de prestations de services ainsi que la compétence technique de la filiale d'un grand équipementier automobile.

## Explications sur la numérotation KS

Pour la désignation des filtres, KOLBENSCHMIDT utilise deux numérotations différentes : parallèlement au numéro KS standard à huit chiffres, il existe également une numérotation courte. Le numéro court se compose de trois ou quatre chiffres et de deux ou trois lettres : les chiffres identifient le filtre et les lettres désignent le type de filtre (voir 3.).

Le numéro KS à huit chiffres apparaît sur tous les documents comme par exemple les bordereaux de livraison ou les factures. Les cinq premiers chiffres sont toujours « 50 013 » ou « 50 014 » tandis que les trois ou quatre derniers chiffres identifient le filtre et correspondent aux chiffres du numéro court.

### Exemple :

Cartouche de filtre à huile  
095-OC = 50 013 095

Filtre d'habitacle à charbon actif  
4027-ACC = 50 014 027

### Informations sur les produits

Les filtres de moteur sont chargés d'empêcher la pénétration des impuretés contenues dans l'huile, l'air et le carburant à l'intérieur du moteur. Le moteur a besoin d'air et de carburant pour la combustion.

L'huile, par contre, sert d'une part au refroidissement du moteur et d'autre part à la réduction des frottements qui se produisent au niveau des pièces en mouvement ou qui s'emboîtent.

## 3

## Types de filtres

## 3.1

## Filtres à air

Le degré de séparation des poussières optimisé des filtres à air réduit l'usure des pistons, segments de pistons et zones de travail des cylindres. Adaptés aux caractéristiques des moteurs et aux emplacements de montage, les filtres à air suppriment efficacement les bruits transmis par voie solide et les bruits d'aspiration.

AP Filtre à air plat

AR Filtre à air rond

AR Filtre à air rond pour poids lourd

## 3.2

## Filtres à carburant

Des impuretés même infimes suffisent déjà pour occasionner des pannes majeures du système d'alimentation en carburant. La pompe à carburant, le carburateur, la pompe à injection et les injecteurs sont les plus touchés. Les dispositifs d'injection modernes, en particulier, exigent une alimentation en carburant extrêmement propre, exempte de pulsations et homogène. C'est pourquoi le carburant doit être correctement nettoyé dans le filtre à carburant pour garantir un parfait fonctionnement du moteur.

FS Filtre à carburant à visser

FP Filtre pour conduite de carburant

FC/FX Cartouche de filtre à carburant

## 3.3

### Filtres à urée

Les filtres à urée ont pour mission de protéger de l'usure les composants des systèmes modernes de traitement secondaire des gaz d'échappement. Les catalyseurs SCR (Selective Catalytic Reduction, réduction catalytique sélective) sont de plus en plus utilisés, en particulier dans le domaine des véhicules utilitaires, car ils peuvent réduire de jusqu'à 90% la proportion d'oxydes d'azote. La méthode SCR utilise à cet effet une solution antipollution composée à 32,5% d'urée diluée dans l'eau, contenue dans un réservoir distinct du véhicule (marque commerciale AdBlue). Cette solution d'urée est dosée et injectée dans le flux de gaz d'échappement au moyen d'une pompe ou d'un injecteur et assure une réaction chimique dans le catalyseur. L'urée se transforme en ammoniac, tandis

que les oxydes d'azote contenus dans les gaz d'échappement sont convertis en azote et en eau.

Pour garantir une plus grande longévité de l'unité de dosage, des filtres à urée sont installés pour filtrer la solution d'urée.

La finesse et la durée de vie de ce type de filtre sont similaires à celles d'un filtre à carburant diesel.

## 3.4

### Filtres à huile

L'huile forme un film lubrifiant entre les pièces mobiles du moteur et doit par conséquent demeurer exempte de corps étrangers. Les filtres à huile filtrent dans le circuit d'huile et retiennent les corps étrangers introduits dans le moteur par le carburant ou par l'air aspiré de même que les résidus d'abrasion métalliques produits dans le moteur. Les pistons, les segments de pistons, les zones de travail des cylindres et les coussinets sont les pièces les plus concernées. Par ailleurs, le filtre à huile prévient un vieillissement prématuré de l'huile moteur.

**OS** Filtre à huile à visser

**OC/OH** Cartouche de filtre à huile

**OX** Cartouche de filtre à huile sans métal

## 3.5

## Filtres à huile pour boîtes de vitesses automatiques

(→ voir page... Nomenclature de la boîte de vitesses)

Le filtre à huile pour boîte de vitesses automatique protège la boîte de vitesses des corps étrangers. Les huiles pour boîtes de vitesses automatiques doivent remplir, par rapport aux huiles pour boîtes manuelles, des exigences supplémentaires. Outre la lubrification des surfaces des dents, des pignons satellites et des surfaces de frottement des paliers, l'huile sert à actionner les bandes de freinage et les embrayages. L'huile pour boîte de vitesses est également chargée de transmettre le couple de la pompe à la roue de turbine. En assurant

une bonne filtration des substances favorisant l'usure, comme les résidus d'abrasion métalliques, le filtre pour boîte de vitesses accroît la durée de vie de la boîte et améliore les performances.

## 3.6

## Filtres d'habitacle

Le filtre d'habitacle est monté dans le conduit d'aspiration d'air du ventilateur et retient les particules étrangères comme les poussières, les pollens, la suie, contenues dans l'air. Il est installé en série depuis plusieurs années et assure la pureté de l'air frais qui entre dans l'habitacle. Il existe des formes et des versions très différentes des filtres d'habitacle, selon les véhicules : du filtre rectangulaire au filtre trapézoïdal, sans oublier les filtres ronds, avec ou sans boîtier plastique ou étanchéité en mousse.

**Filtre d'habitacle standard (AC)**

Le filtre standard absorbe surtout les particules de l'air extérieur, comme les pollens, les spores, la suie, les poussières, les particules de pneus, etc. Cette filtration est réalisée au moyen d'un agent filtrant développé spécialement à cet effet.

**Filtre d'habitacle à charbon actif (ACC)**

Le filtre à charbon actif retient non seulement les particules solides, mais

également les gaz nocifs comme les oxydes d'azote, le dioxyde de soufre, l'ozone et les hydrocarbures et en préserve l'habitacle à jusqu'à 95 % : la couche de charbon actif incorporée filtre et retient les plus infimes particules.

De même, les mauvaises odeurs sont neutralisées et fortement réduites, par exemple lors des traversées de tunnels ou dans les embouteillages.

**Remarque :**

Pour faciliter le montage et le démontage, chaque filtre d'habitacle KS est accompagné d'une notice spécifique. Les notices de montage figurent également, sous le n° d'article respectif, sur le Product Disc et dans la boutique en ligne.

L'ouverture des fichiers PDF nécessite le logiciel gratuit Adobe Reader.

AC Filtre d'habitacle standard

ACC Filtre d'habitacle à charbon actif

AC Filtre d'habitacle embrochable

## 3.7

### Dessiccateurs d'air

Le dessiccateur d'air représente un type de filtration particulier. Il est surtout utilisé dans le dispositif d'alimentation en air comprimé des véhicules utilitaires moyens et lourds. Etant donné que, sur les véhicules modernes, l'air comprimé est utilisé comme support d'énergie pour de nombreux processus de commande et de réglage, il faut faire en sorte que l'humidité contenue dans l'air ne corrode pas les conduites et les réservoirs et ne fige pas l'ensemble du système en gelant à des températures inférieures à 0°. Le dessiccateur d'air compte donc parmi les éléments de sécurité du véhicule.

L'air comprimé nécessaire au freinage est produit par un compresseur entraîné par le moteur. L'air comprimé est ensuite refoulé du compresseur au dessiccateur d'air à une chambre avec régulateur de pression.

*Granulés spéciaux qui extraient l'humidité de l'air*

L'air comprimé y est séché à l'aide de granulés spécifiques et la pression dans le système de freinage est limitée à une valeur réglée par un régulateur de pression intégré. L'air comprimé pénètre ensuite dans un réservoir à air comprimé doté d'un capteur d'eau de condensation pour le contrôle du séchage de l'air et d'une soupape de sécurité.

## 3.8

### Filtres à liquide de refroidissement

Les filtres à liquide de refroidissement protègent le moteur en filtrant les impuretés et en diffusant dans le système de refroidissement, en les dosant, les additifs qu'ils contiennent. Toutefois, ces additifs, également appelés inhibiteurs, s'usent avec le temps.

C'est pourquoi il est très important de respecter les intervalles d'entretien prescrits par le constructeur du véhicule.

## 3.9

## Filtres spéciaux

Le perfectionnement continu des procédés de production et notre longue expérience des filtres nous permettent de développer et de produire des filtres sur spécifications des clients. Les filtres spéciaux KS peuvent être développés pour tous les groupes de filtres et domaines d'application.

## 3.10

## Filtres à huile centrifuges

Ces filtres sont utilisés comme filtres de circuit auxiliaire, associés à des filtres de circuit principal. La filtration ainsi obtenue est extrêmement efficace : les très fines particules qui franchissent le filtre de circuit principal sont retenues par le filtre de circuit auxiliaire. Le filtre de circuit auxiliaire assure une épuration très poussée avec un degré de séparation élevé.

Sur les véhicules utilitaires et les engins de chantier, on utilise principalement la centrifugeuse à jet libre (filtre à huile centrifuge) comme filtre de circuit auxiliaire. L'huile dérivée du circuit principal dans un circuit auxiliaire traverse l'arbre creux du rotor et arrive à l'intérieur du filtre par des alésages disposés en conséquence.

L'huile ressort de la centrifugeuse par le bas au travers de gicleurs de sortie orientés à cet effet. Ce processus libère des forces de recul qui mettent le rotor en rotation. Selon la pression et la température, la vitesse de rotation peut atteindre 4000 à 8000 tours/minute.

Grâce aux forces centrifuges créées par cette rotation, les impuretés contenues dans l'huile sont projetées sur la paroi intérieure du rotor, où elles restent collées jusqu'au remplacement de la centrifugeuse au prochain intervalle de remplacement prescrit.

### Nota importante

Los datos contenidos en este catálogo se han redactado de forma meticulosa, aunque están sujetos a variaciones. No asumimos ninguna responsabilidad por la exactitud de los datos. En particular, no podemos descartar modificaciones de equipamiento por parte de los fabricantes de vehículos o de motores, al igual que modificaciones en las designaciones. Cualquier notificación sobre posibles errores en el catálogo será bienvenida, corrigiéndose éstos en ediciones posteriores. Los nombres, las designaciones y las indicaciones de números de vehículos o de fabricantes, entre otras cosas, se indican sólo a modo de comparación. Las piezas incluidas en el catálogo son repuestos con calidad KS. Queda reservado el derecho a modificar en cualquier momento las especificaciones, los materiales y la apariencia

### Gestión de calidad

Como prueba de que nuestra gestión de calidad cumple los requisitos de las normas internacionales pertinentes, estamos certificados según ISO 9001. Muchos de nuestros clientes, sobre todo los fabricantes de vehículos de renombre mundial, nos imponen requisitos adicionales que debemos cumplir. En el caso de la gestión de calidad, estos requisitos adicionales se resumen en el estándar internacional ISO/TS 16949. Para satisfacer los deseos de nuestros clientes y para demostrar que cumplimos también estos requisitos que sobrepasan notablemente las obligaciones impuestas por ISO 9001, estamos certificados además según ISO/TS 16 949. Si en algún caso, a pesar de los controles realizados constantemente durante el proceso de producción y del minucioso control final, se presentara un fallo de material

de nuestros productos. La función y el propósito indicados en el catálogo no se ven afectados. Las representaciones, dibujos esquemáticos y otros datos explican e ilustran nuestros productos y no se pueden tomar, en ningún caso, como base para la instalación de piezas ni para definir el volumen de suministro o el diseño. Los datos sobre números de pieza de repuesto original de los fabricantes de vehículos y motores serán sólo válidos a modo de comparación. No son designaciones originales y no se deben usar frente a terceros. No nos hacemos responsables por el uso de las listas comparativas, en especial, debido a posibles modificaciones y/o diferencias de dimensiones de los fabricantes individuales. No asumimos ninguna responsabilidad de la exactitud de los datos ni de la adecuación de los productos al uso previsto. Para poder asegurarse de ello, antes de realizar

o de fabricación, naturalmente nos haremos cargo de la reparación del motor o sustituiremos el producto defectuoso dentro del plazo límite estipulado. Este tipo de reclamaciones se nos deben comunicar por escrito en un plazo de 30 días tras presentarse el fallo. El plazo límite para las reclamaciones por defectos es de 24 meses, contados a partir de la fecha de envío del producto. El derecho de reclamaciones por defectos quedará sin vigencia si el producto suministrado es modificado por terceros o mediante el montaje de piezas de otros fabricantes, a menos que el defecto en cuestión no tenga ninguna relación causal con la modificación. El derecho a reclamación por defectos quedará, asimismo, sin vigencia si no se cumplen las prescripciones vigentes para el manejo y el montaje. El desgaste normal y los daños derivados de un manejo incorrecto están excluidos de la garantía.

el montaje aconsejamos solicitar asesoramiento especializado al fabricante o a un taller autorizado por éste. Las piezas ofrecidas en el catálogo no están destinadas para el uso en aviones. En caso del uso en motores marinos o motores estacionarios hay que tener en cuenta que con la misma denominación de motores quizá sean necesarias diferentes piezas motrices (p. ej. pistones).

La copia, el plagio, la reproducción total o parcial requiere nuestro consentimiento por escrito y la indicación de la fuente. La presente versión sustituye y anula todas las versiones anteriores.

Nos reservamos el derecho a efectuar modificaciones y no nos responsabilizamos de los errores.

### Para nosotros

es muy importante aprovechar los recursos naturales de forma responsable, proteger el medio ambiente y cumplir todas las obligaciones legales relevantes para establecer una colaboración a largo plazo con todos nuestros socios. Ésos son los motivos que nos llevaron a cumplir la norma para sistemas de gestión medioambiental ISO 14001 y a obtener el certificado correspondiente.

Los contenidos del OnlineShop también están disponibles en forma de catálogo electrónico en el "Motor Service Product Disc". Para ello, consulte a su persona de contacto.

# KSPG

Automotive

**KSPG (Kolbenschmidt Pierburg).**

**Un prestigioso proveedor de la industria internacional del automóvil.**

Las empresas del Grupo KSPG cooperan desde hace muchos años con los fabricantes de automóviles y desarrollan componentes innovadores y soluciones de sistema y gozan de una competencia reconocida en las áreas de alimentación de aire y reducción de contaminantes, bombas de aceite, de agua y de vacío, pistones, bloques de motor y cojinetes de fricción. Los productos cumplen los altos requerimientos y normas de calidad de la industria automotriz. Reducida emisión de contaminantes, consumo económico de combustible, fiabilidad, calidad y seguridad, estos son los factores decisivos que impulsan las innovaciones de Kolbenschmidt Pierburg.

**Grupo Motor Service.**

**Calidad y servicios de un solo proveedor.**

El Grupo Motor Service es la distribuidora responsable de las actividades de posventa de Kolbenschmidt Pierburg a escala mundial. Es uno de los principales proveedores de componentes para motores en el mercado libre de repuestos y comercializa las prestigiosas marcas KOLBENSCHMIDT, PIERBURG y TRW Engine Components.

El amplio y completo programa de Motor Service permite a sus clientes adquirir todo tipo de piezas para motores de un solo proveedor. Como empresa especializada en resolver los problemas del comercio y de los talleres, Motor Service ofrece además una extensa gama de servicios y la competencia técnica que posee como filial de un gran proveedor de la industria del automóvil.

## Aclaraciones sobre la numeración de artículos KS

KOLBENSCHMIDT trabaja con dos numeraciones diferentes para los filtros: además de la numeración estándar de ocho cifras de KS existe también una numeración corta correspondiente. La numeración corta está formada por tres o cuatro cifras y dos o tres letras: los números identifican a los filtros y las letras indican los tipos de filtro (véase punto 3).

La numeración de KS de ocho cifras aparece en todos los documentos, por ejemplo, en los albaranes de entrega y en las facturas. Los cinco primeros dígitos son siempre “50 013” o “50 014”; las últimas tres o cuatro cifras sirven para identificar los filtros y corresponden a la numeración corta.

### Ejemplo:

Cartucho de filtro de aceite  
095-OC = 50 013 095

Filtro de habitáculo con carbón activo  
4027-ACC = 50 014 027

ESPAÑOL

### Informaciones de producto

Los filtros de motores tienen la función de prevenir la contaminación del interior de los motores mediante la entrada de impurezas en el aceite, el aire o el combustible. El motor necesita aire y combustible

para la combustión. El aceite, en cambio, sirve por un lado para refrigerar el motor y, por otro, para reducir la fricción que se produce por el roce y el enlace de las piezas móviles.

3

Tipos de filtro

3.1

Filtros de aire

Mediante un grado óptimo de captación de polvo del filtro del aire, se minimiza el desgaste de pistones, de segmentos y de superficies de rodadura del cilindro. Los filtros de aire adaptados a las características del motor y al espacio de montaje suprimen eficazmente el sonido corpóreo y los ruidos de aspiración.

AP Filtro de aire, plano

AR Filtro de aire, redondo

AR Filtro de aire redondo, para camiones

3.2

Filtros de combustible

Incluso las impurezas más mínimas del combustible pueden producir fallos en el sistema. Los componentes más susceptibles a sufrir este fenómeno son principalmente las bombas de combustible, las bombas de inyección y las toberas de inyección. Sobre todo los sistemas modernos de inyección de combustible exigen un suministro de combustible extremadamente limpio, libre de pulsaciones y homogéneo. Por ello, para garantizar el correcto funcionamiento del motor, se deberá limpiar el combustible de forma constante y con cuidado mediante el filtro de combustible.

FS Filtro enroscable de combustible

FP Filtro para tubería de combustible

FC/FX Cartucho de filtro de combustible

### 3.3

#### Filtros de urea

La función de los filtros de urea en los sistemas de tratamiento posterior de gases de escape modernos es proteger los componentes contra el desgaste. Sobre todo en el segmento de los vehículos industriales se utilizan cada vez más catalizadores SCR (Selective Catalytic Reduction), que reducen el porcentaje de óxidos de nitrógeno en hasta un 90%. En el procedimiento SCR se utiliza para ello una solución de urea y agua al 32,5 por ciento respetuosa con el medio ambiente, que se lleva en un depósito separado del vehículo (nombre comercial AdBlue). Esta solución de urea se inyecta dosificada mediante bomba o inyector en el flujo de gases de escape y produce una reacción química en el catalizador. La urea se convierte en amoníaco y como resultado

los óxidos de nitrógeno contenidos en el gas de escape se transforman en nitrógeno y agua. Para garantizar una mayor vida útil de la unidad de dosificación, se utilizan filtros de urea para filtrar la solución de urea.

La finura y la vida útil de este tipo de filtros equivalen a los de un filtro de diésel.

### 3.4

#### Filtros de aceite

El aceite forma una película deslizante entre las piezas móviles del motor, por lo que deberá mantenerse libre de cuerpos extraños. Los cuerpos extraños, que penetran en el motor a través del combustible o del aire de aspiración y la carbonilla metálica que se genera en el motor, se filtran por medio del filtro de aceite impidiendo su entrada en el circuito de aceite. Las áreas más afectadas en este caso son los pistones y los segmentos de pistones, las superficies de rodadura de los cilindros y los cojinetes de deslizamiento. Además, el filtro de aceite evita el envejecimiento prematuro del aceite de motor.

**OS** Filtro enroscable de aceite

**OC/OH** Cartucho de filtro de aceite

**OX** Cartucho de filtro de aceite sin metal

## 3.5

## Filtros de aceite para cajas de cambio en transmisiones automáticas

(→ véase página... Indicativos para cajas de transmisiones)

El filtro de aceite para la caja de cambios en transmisiones automáticas tiene la función de proteger el cambio de partículas extrañas. Los aceites especiales para las transmisiones automáticas, al contrario que los aceites para las cajas de cambios, tienen que cumplir otros requisitos adicionales. Además de para lubricar las superficies dentadas, los engranajes planetarios y las superficies de las rodaduras, el aceite sirve para accionar las bandas del freno y los embragues. El aceite de la transmisión se

encarga también de transmitir el par de giro de la bomba a la rueda de la turbina. El filtro de transmisión alarga la vida útil de la caja de transmisión y mejora su

rendimiento gracias a una filtración óptima de partículas desgastantes como por ejemplo la carbonilla metálica.

## 3.6

## Filtros de habitáculo

El filtro de habitáculo está colocado en el canal de aspiración del ventilador y filtra las partículas extrañas del aire como polvo, polen, hollín, etc. Desde hace algunos años se instala de serie y garantiza un aire fresco más limpio en el interior de los vehículos. Existen filtros de habitáculo de formas y versiones muy diferentes según el vehículo: En el surtido podemos encontrar desde filtros de habitáculo rectangulares, trapezoidales hasta cilíndricos; con o sin carcasa de plástico o aislamiento de espuma.

### Filtro de habitáculo estándar (AC)

El filtro estándar absorbe principalmente partículas sólidas del aire exterior como polen, esporas, hollín, motas de polvo y del desgaste de los neumáticos. Esto se produce mediante un producto filtrante especialmente desarrollado para ello.

### Filtro de habitáculo con carbón activo (ACC)

El filtro de habitáculo con carbón activo, además de las partículas sólidas, previene

la entrada en el habitáculo de gases nocivos como óxido de nitrógeno, dióxido de azufre, ozono, así como de hidrocarburos hasta en un 95%. Las partículas más mínimas se filtran con la capa de carbón activo donde quedan recogidas.

También se absorben los olores desagradables por lo que se reducen al mínimo las molestias por malos olores como por ejemplo al atravesar un túnel o durante atascos.

### Nota:

Para poder montar y desmontarlos fácilmente, todos los filtros de habitáculo de KS para vehículos incluyen instrucciones de montaje específicas para cada tipo. Podrá encontrarlas también bajo el número de artículo correspondiente en el Product Disc y en el OnlineShop.

Para poder abrir los archivos PDF necesitará la versión gratuita del Adobe Reader.

AC Filtro de habitáculo, estándar

ACC Filtro de habitáculo con carbón activo

AC Filtro de habitáculo, intercambiable

## 3.7

### Desecadores de aire

Un tipo especial de filtrado lo representa el desecador de aire. Se utiliza sobre todo en el sistema de alimentación de aire comprimido de vehículos utilitarios medios y pesados. Como en los vehículos modernos se utiliza aire comprimido para muchos procesos de mando y regulación, se debe garantizar que la humedad del aire no provoque daños por corrosión en las tuberías y recipientes ni paralice todo el sistema por congelación a temperaturas bajo cero. El desecador de aire es, por lo tanto, un elemento de seguridad del vehículo.

El aire comprimido necesario para el frenado es generado por el compresor que se acciona por medio del motor del vehículo. Del compresor, el aire entra en el desecador de aire de una cámara, provisto de un regulador de presión.

*Granulado especial desarrollado para deshidratar el aire*

Aquí el aire se seca mediante un granulado especialmente desarrollado y la presión en el sistema de frenos a un se limita valor predefinido. A continuación, el aire comprimido pasa a un depósito de aire comprimido, equipado para vigilar la eficacia de secado con una sonda de agua condensada y una válvula de seguridad.

## 3.8

### Filtros de agente refrigerante

Los filtros de agente refrigerante protegen el motor, filtrando la suciedad y suministrando al sistema refrigerante los aditivos contenidos en el filtro de forma dosificada. Estos aditivos, también llamados inhibidores, se consumen con el tiempo.

Por ese motivo es muy importante cumplir los intervalos de mantenimiento según las especificaciones del fabricante.

## 3.9

## Filtros especiales

El continuo perfeccionamiento de los procesos de producción y los muchos años de experiencia en materia de filtros nos permiten desarrollar y producir filtros según los deseos individuales de los clientes. Los filtros especiales de KS se pueden desarrollar para todos los grupos de filtros y áreas de aplicación.

## 3.10

## Filtros de aceite centrífugos

Estos filtros se utilizan como filtros de flujo secundario en combinación con filtros de paso total. De esta forma se consigue un filtrado particularmente eficaz: Las partículas más finas que pasan por el filtro de paso total de aceite, son filtradas por el filtro de flujo secundario. El filtro de flujo secundario limpia de forma muy intensiva con un elevado grado de separación.

El filtro de flujo secundario utilizado sobre todo en vehículos utilitarios y en maquinaria de construcción es el filtro centrífugo de chorro libre. El aceite desviado del canal de flujo de paso total al secundario pasa a través del eje hueco del rotor mediante los agujeros correspondientes colocados en el habitáculo del filtro.

El aceite sale del filtro centrífugo a través de toberas de salida especialmente colocadas en el fondo. En este proceso se liberan fuerzas de retroceso que imprimen un movimiento de rotación al rotor. Dependiendo de la presión y la temperatura se pueden alcanzar entre las 4000 y las 8000 rpm.

Mediante las fuerzas centrífugas generadas con la rotación se arrojan las partículas de suciedad presentes en el aceite a la pared interior del rotor.

Allí quedarán adheridas hasta que se cambie el filtro centrífugo durante el siguiente intervalo de mantenimiento determinado.

### Важные указания

Приведенные в этом каталоге данные тщательно отобраны, однако не являются обязательными. Мы не несем ответственности за правильность этих данных. В частности, не исключаются возможные изменения в оснащении, внесенные изготовителями транспортных средств или двигателей, а также изменения обозначений. Мы всегда рады поступлению информации о возможных допущенных в каталоге ошибках, которые мы исправляем в следующих выпусках. Названия, описания и номера транспортных средств, изготовителей и т. п. приводятся только для сравнения. Приведенные в каталоге части представляют собой запасные части отличного качества фирмы KS. Мы оставляем за собой право в любое время изменять спецификации, материалы и внешний вид наших продуктов. Это положение не относится к функции

### Менеджмент качества

В знак того, что наша система обеспечения качества соответствует требованиям специальных международных норм, мы провели сертификацию ISO 9001. Многие из наших заказчиков, в частности, известные во всем мире изготовители транспортных средств, предъявляют дальнейшие требования к нашей фирме. Для системы менеджмента качества эти требования обобщены в Международном стандарте ISO/TS 16949. Для того, чтобы удовлетворить желания заказчиков и показать, что мы выполняем также и эти, далеко выходящие за пределы требований ISO 9001 обязательства, мы сертифицировали нашу систему обеспечения качества также по ISO/TS 16 949.

Если же, несмотря на непрерывно проводимый контроль во время производственного процесса и основательный заключительный контроль, все-таки возникнет дефект

и указанному в каталоге назначению. Рисунки, схематические чертежи и прочие данные служат для пояснения и отображения; они не могут использоваться в качестве основания для монтажа, комплекта поставки и конструкции. Информация о номерах фирменных запасных частей изготовителей транспортных средств и двигателей служит только для сравнения. Она не охватывает данные о происхождении и не может использоваться по отношению к третьим лицам. Мы не можем взять на себя ответственность за пользование списками сравнения, особенно по причине возможных изменений и/или разностей размеров, вносимых отдельными изготовителями.

Мы не несем ответственности за правильность данных и за то, что продукт подходит для намеченной цели применения. Для обеспечения этого в любом случае перед монтажом необходимо обратиться за

материала или изготовления, то мы, само собой разумеется, берем на себя либо ремонт двигателя, либо замену рекламируемого изделия в течение срока давности. Рекламации подобного рода необходимо направлять нам письменно в течение 30 дней после обнаружения повреждения. Срок давности в отношении рекламаций по качеству составляет 24 месяца, считая с момента поставки товара.

Рекламации по качеству теряют силу, если поставленный продукт был изменен третьей стороной или были вмонтированы части иного происхождения, за исключением случаев, когда дефект не имеет причинной связи с такими изменениями. Кроме того, они теряют силу, если обращение с частями или их монтаж осуществлялись не в соответствии с действующими предписаниями.

Гарантия не распространяется на естественный износ и повреждение в результате неправильного обращения.

компетентной консультацией к изготовителю или в его авторизованную мастерскую гарантийного ремонта.

Предлагаемые в каталоге части не предназначены для использования в воздушных транспортных средствах. В случае применения в двигателях для судов и стационарных двигателях необходимо учитывать, что при одинаковом обозначении двигателя могут использоваться различные части двигателя (например, поршни).

Перепечатка, копирование и размножение, также в частичной форме, разрешены только с нашего письменного согласия и при условии указания источника. С момента выпуска данного каталога предыдущие издания теряют свою силу.

Сохраняется право на внесение изменений и ошибки.

### Экологический менеджмент

Ответственное использование природных ресурсов, защита окружающей среды и выполнение всех установленных законом важных обязательств составляют прочную основу для долгосрочного сотрудничества со всеми нашими партнерами. Это и стало причиной, мотивирующей нас выполнить требования систем экологического менеджмента ISO 14001 и сертифицировать нашу организацию.

## Automotive

**KSPG (Kolbenschmidt Pierburg).**  
**Пользующийся хорошей репутацией поставщик международной автомобильной промышленности.**

В качестве многолетних партнёров производителей транспортных средств предприятия группы KSPG с признанной компетентностью разрабатывают новаторские компоненты и системные решения в области снабжения воздухом и снижения содержания вредных веществ, масляных, водяных и вакуумных насосов, поршней, блоков цилиндров двигателей и подшипников скольжения. Изделия удовлетворяют высоким требованиям и стандартам качества автомобильной промышленности. Низкий уровень выброса вредных веществ, экономное потребление топлива, надёжность, качество и безопасность являются определяющими стимулами новаторских решений Kolbenschmidt Pierburg.

**Группа Motor Service.**

**Качество и сервис из одних рук.**

Группа Motor Service – это организация по сбыту продукции концерна Kolbenschmidt Pierburg, активно действующая на мировом рынке обслуживания автомобилей. Она является ведущей фирмой, предлагающей компоненты двигателей для свободного рынка запасных частей высококачественных марок KOLBENSCHMIDT, PIERBURG и TRW Engine Components. Широкий и всеобъемлющий ассортимент позволяет заказчикам приобретать детали двигателей из одних рук. Для решения задач торговых предприятий и мастерских она, являясь дочерней фирмой крупного поставщика автомобильной промышленности, предлагает также обширный набор услуг и техническую компетенцию.

## Пояснения к товарным номерам KS

В отношении фильтров фирма KOLBENSCHMIDT работает с двумя сериями номеров: наряду со стандартизированным восьмизначным KS номером существует также соответствующий сокращённый номер. Сокращённый номер состоит из трёх или четырёх цифр и двух или трёх букв: цифры идентифицируют фильтр, а буквы поясняют тип фильтра (см. 3.).

Восьмизначный KS номер появляется на всех документах, например, на накладных и счетах. Первые 5 знаков всегда будут «50 013» или «50 014»; последние три или четыре цифры идентифицируют фильтр и соответствуют цифрам сокращённого номера.

### Пример:

Масляный сменный фильтрующий элемент 095-OC = 50 013 095

Фильтр для салона с активированным углем 4027-ACC = 50 014 027

### Информация о продукте

Задача фильтров – препятствовать попаданию внутрь двигателя загрязнённого масла, воздуха и топлива. Воздух и топливо нужны двигателю для сгорания. Масло же, наоборот, служит с одной стороны для

охлаждения двигателя, а с другой стороны для уменьшения трения, которое возникает там, где подвижные части касаются друг друга или зацепляются одна за другую.

3

Типы фильтров

3.1

Воздушные фильтры

Благодаря оптимальной степени пылеулавливания воздушного фильтра сводится к минимуму износ поршней, поршневых колец и рабочих поверхностей цилиндров. Воздушные фильтры, соответствующие характеристикам двигателя и монтажному пространству, эффективно подавляют корпусный шум и шумы впуска.

AP Воздушный фильтр, панель

AR Воздушный фильтр, круглый

AR Воздушный фильтр, круглый, для грузовых автомобилей

3.2

Топливные фильтры

Даже мельчайшие загрязнения топлива могут привести к нарушениям в системе. В основном это касается топливного насоса, карбюратора, топливного насоса высокого давления и впрыскивающих форсунок. Особенно для современных систем впрыскивания важна подача предельно чистого и однородного топлива без пульсаций. Поэтому для безупречной работы двигателя топливный фильтр должен постоянно тщательно очищать топливо.

FS Навинчиваемый топливный фильтр 46

FP Прямоточный топливный фильтр

FC/FX Вставка топливного фильтра

### 3.3

#### Фильтры мочевины

Фильтры мочевины в современных системах обработки ОГ должны защищать от износа системные компоненты. Особенно в области использования грузовых автомобилей находят применение катализаторы селективного восстановления (SCR = Selective Catalytic Reduction), которые могут сократить содержание оксидов азота до 90%. При методе SCR используется для этого безопасный для окружающей среды 32,5-процентный раствор воды и мочевины, находящийся в отдельном баке транспортного средства (торговое наименование AdBlue).

Этот раствор мочевины впрыскивается дозированно с помощью насоса или инжектора в поток ОГ и приводит к химической реакции в катализаторе. Мочевина превращается в аммиак, после чего содержащиеся в выхлопном газе оксиды азота преобразуются в азот и воду. Чтобы гарантировать

более продолжительный срок службы дозатора, фильтры мочевины используются для фильтрации раствора мочевины. Тонкость очистки и срок службы этого вида фильтра соответствуют параметрам фильтров для дизельного топлива.

### 3.4

#### Масляные фильтры

Масло образует скользкую пленку между подвижными частями двигателя, и поэтому не должно содержать примесей. Инородные тела, поступающие в двигатель через топливо или впускаемый воздух, и металлическая пыль, возникающая в двигателе, отфильтровываются и улавливаются масляным фильтром в системе циркуляции масла. Особенно это касается поршней и поршневых колец, рабочих поверхностей цилиндров и подшипников скольжения. Кроме того, масляный фильтр препятствует преждевременному старению моторного масла.

**05** Приворачиваемый масляный фильтр

**0С/ОН** Вставка масляного фильтра

**0Х** Вставка масляного фильтра, неметаллическая

### 3.5

## Фильтр трансмиссионного масла для автоматической коробки передач

(→ см. стр. ... «Буквенные обозначения коробки передач»)

Фильтр трансмиссионного масла для автоматической коробки передач служит для защиты коробки передач от инородных тел. Особенно трансмиссионные масла, предназначенные для автоматических коробок передач, в отличие от трансмиссионных масел, предназначенных для механических коробок передач, должны удовлетворять дополнительным требованиям. Наряду со смазкой поверхностей зубцов, планетарных колес и опорных поверхностей подшипников это масло используется для приведения в действие тормозных лент и сцеплений.

Также передача крутящего момента от насоса к турбинному колесу является задачей трансмиссионного масла. Благодаря оптимальной фильтрации веществ, ускоряющих износ деталей, таких как, например,

металлической стружки, и благодаря фильтру трансмиссионного масла увеличивается срок службы коробки передач и улучшается её работа.

### 3.6

## Фильтры для салона

Фильтр для салона установлен в воздухозаборном канале вентилятора и отфильтровывает посторонние частицы пыли, пыльцы, сажи и т. п. из воздуха. В течение нескольких лет он устанавливается уже серийно и обеспечивает поступление чистого свежего воздуха в салон автомобиля. Фильтры для салона автомобиля имеют различную форму и исполнения в зависимости от модели автомобиля: разнообразие простирается от прямоугольной и трапециевидной до круглой формы; с пластиковым корпусом или без него, или с уплотнением из пеноматериала.

### Фильтр для салона, стандартный (АС)

Стандартный фильтр абсорбирует из наружного воздуха главным образом твердые частицы пыльцы, спор, сажи, пыли, продуктов износа шин и т. п. Это осуществляется посредством специально разработанной фильтрующей среды.

### Фильтр для салона, с активированным углем (АСС)

Фильтр с активированным углем задерживает не только твердые частицы, но и фильтрует также вредные газы, такие как, например, оксиды азота, диоксид серы, озон, а также углеводороды, и защищает салон от них на 95%: интегрированный слой активированного угля отфильтровывает и удерживает мельчайшие частицы. Поглощаются также неприятные запахи, так что воздействие загазованности, например, при движении в туннеле или в дорожном заторе, сводится к минимуму.

### Указание:

Для облегчения установки и демонтажа к каждому фильтру KS для салона легкового автомобиля прилагается руководство по монтажу с учетом модели автомобиля. Их Вы также найдёте под соответствующим товарным номером на диске с продуктами (Product Disc) и в нашем виртуальном магазине. Для просмотра файлов в формате PDF Вам понадобится бесплатная программа Adobe Reader.

АС Фильтр для салона, стандартный

АСС Фильтр для салона, с активированным углем

АС Фильтр для салона, подвижной

## 3.7

### Воздухоосушители

Особый вид фильтрации осуществляет воздухоосушитель. Он применяется прежде всего в агрегатах подачи сжатого воздуха средних и тяжелых автомобилей для перевозки грузов и пассажиров и для нетранспортных работ. Поскольку в современных транспортных средствах сжатый воздух используется для многих процессов управления и регулирования как энергоноситель, то надо следить за тем, чтобы содержащаяся в воздухе жидкость не вызвала ни коррозии в трубопроводах и резервуарах, ни парализовывала всю систему при минусовых температурах из-за замораживания. Воздухоосушитель считается таким образом элементом безопасности транспортного средства.

Необходимый для торможения сжатый воздух производится компрессором, приводимым в действие двигателем. Сжатый воздух затем поступает от компрессора в однокамерный воздухоосушитель с

*Специальный гранулят, удаляющий влагу из воздуха*

регулятором давления. Здесь производится сушка сжатого воздуха специальным гранулятом, и давление в тормозной системе ограничивается посредством встроенного регулятора давления до установленного значения. Затем сжатый воздух попадает в ресивер, который для контроля сушки воздуха оборудован датчиком конденсата и предохранительным клапаном.

## 3.8

### Фильтры охлаждающего средства

Фильтры охлаждающего средства защищают двигатель, отфильтровывая загрязнения и подавая в определенных дозах в систему охлаждения содержащиеся в них добавки. Эти добавки, которые известны также как ингибиторы, со временем расходуются.

По этой причине очень важно соблюдать регулярность технического обслуживания, предписанную изготовителем транспортного средства.

3.9

Специальные фильтры

Благодаря постоянному усовершенствованию производственных процессов и многолетнему опыту работы в области фильтров мы можем разрабатывать и изготавливать фильтры, отвечающие индивидуальным требованиям заказчиков. Специальные фильтры фирмы KS разрабатываются для любых групп фильтров и областей применения.

3.10

Масляные центробежные фильтры

Эти фильтры используются в качестве фильтров тонкой очистки вместе с фильтрами грубой очистки. Таким образом обеспечивается наиболее эффективное фильтрование. Мельчайшие частицы, проходящие через фильтр грубой очистки, отфильтровываются фильтрами тонкой очистки. Фильтр тонкой очистки установлен для очень интенсивной очистки с высокой степенью сепарации.

В качестве фильтра тонкой очистки у грузовых автомобилей и строительных машин применяется прежде всего центрифуга с реактивным приводом (фильтр центробежной очистки масла). Масло, отводимое от канала основного потока в параллельный канал, течет через полый вал ротора по соответственно расположенным отверстиям во внутреннее пространство фильтра.

Через специально центрированные выходные сопла на днище масло опять выходит из центрифуги. При этом процессе высвобождаются реактивные силы, которые приводят ротор в движение. В зависимости от давления и температуры частота вращения может достичь от 4000 до 8000 об/мин.

За счет возникающих из-за этого вращения центробежных сил, частицы грязи, находящиеся в масле, притягиваются к внутренней стенке ротора. Там они остаются, пока при следующем предусмотренном интервале техобслуживания центрифуга не будет заменена.

### 3.9

#### فلتر خاص

التطوير المستمر لعمليات الإنتاج والخبرة الممتدة لسنوات طويلة في مجال تصنيع الفلاتر تتيح لنا تطوير وإنتاج الفلاتر حسب الرغبات الخاصة للعملاء. ويمكن تطوير فلاتر KS الخاصة لمجموعات الفلاتر ومجالات الاستخدام.

### 3.10

#### فلتر الطرد المركزي للزيت

يتم استخدام هذه الفلاتر كفلاتر فرعية بالارتباط مع الفلاتر الرئيسية. وبذلك يتم الوصول إلى فلتر فعالة للغاية: الجزيئات الدقيقة التي تنفذ من فلاتر التدفق الأساسية يتم فلترتها بواسطة فلتر التدفق الفرعي. ويعمل فلتر التدفق الفرعي على زيادة مستوى النقاوة من خلال ارتفاع درجة الفصل. في سيارات الركاب وسيارات النقل في مواقع البناء يتم بشكل خاص استخدام خاصية الطرد المركزي (فلتر فصل الزيت) كفلتر تدفق فرعي. الزيت المتحول من قناة التدفق الرئيسية في قناة التدفق الفرعية يتدفق عبر عمود أجوف لعنصر الحركة عبر التجاويف المرتبة بشكل خاص إلى الحيز الداخلي للفلتر.

من خلال فوهات التدفق المضبوطة بشكل خاص على الأرضية يخرج الزيت مرة أخرى من عنصر الطرد المركزي. في هذه العملية تتحرر قوى ارتدادية تعمل على تدوير عنصر الحركة. وأثناء ذلك يمكن حسب الضغط ودرجة الحرارة أن تنتج أعداد لفات من 4000 إلى 8000 لفة في الدقيقة.

من خلال قوى الطرد المركزي التي تنشأ أثناء الدوران يتم طرد جزيئات الاتساخات التي تتواجد بالزيت ودفعها نحو الجدار الداخلي لعنصر الحركة. وتظل ملتصقة به إلى أن يتم تغيير عنصر الطرد المركزي في الموعد التالي المقرر للصيانة.

الحبيبات المطورة خصيصاً  
لامتصاص الرطوبة من الهواء

### 3.7

#### مجفف الهواء

مجفف الهواء يمثل نمطاً استثنائياً للفلتر. وهو يُستخدم على نطاق واسع في أنظمة الإمداد بالهواء المضغوط للمركبات التجارية والخدمية المتوسطة والثقيلة. ونظراً لاستخدام الهواء المضغوط في السيارات الحديثة كناقل للطاقة للكثير من عمليات التحكم والضبط، فيجب العمل على ألا تتسبب رطوبة الهواء في أضرار التآكل في الأنابيب والخزانات وألا تتسبب في تأثيرات سلبية من خلال تجمد النظام بالكامل في حالة انخفاض درجات الحرارة عن الصفر. وبذلك فإن مجفف الهواء يعتبر من ضمن عناصر الأمان في السيارة.

الهواء المضغوط اللازم للكبح يتم توليده من الكمبريسور المشغل بواسطة المحرك. يتدفق الهواء المضغوط بعد ذلك عبر الضاغط إلى مجفف الهواء أحادي الحجيرة المزود بمنظم للضغط. وهنا تعمل الحبيبات المطورة بشكل خاص على تجفيف الهواء المضغوط وتحديد الضغط في نظام الكبح على القيمة المضبوطة من خلال منظم الضغط. بعد ذلك يصل الهواء المضغوط إلى خزان للهواء المضغوط مزود بمستشعر للماء المتكثف وصمام أمان لمراقبة درجة تجفيف الهواء.

### 3.8

#### فلتر مادة التبريد

فلتر مادة التبريد يحمي المحرك من خلال فترة الشوائب وإمداد نظام التبريد بالمواد الإضافية في الفلتر بشكل محسوب. ويتم استهلاك هذه المواد الإضافية - والتي تسمى أيضاً مثبطات - بمرور الوقت. لهذا السبب فمن المهم للغاية الالتزام بمواعيد الصيانة الدورية حسب تعليمات الشركة الصانعة للسيارة.

## 3.5

### فلتر زيت التروس لناقل الحركة الأوتوماتيكي

(← انظر صفحة... الحروف المميزة لناقل الحركة)

فلتر زيت التروس لناقل الحركة الأوتوماتيكي يعمل على حماية ناقل الحركة من الأجسام الغريبة. زيوت ناقل الحركة الأوتوماتيكي بشكل خاص يجب أن تفي بمتطلبات إضافية مقارنةً بزيوت ناقل الحركة اليدوي وإلى جانب تزليق أسطح أسنان التروس والتروس الكوكبية وأسطح المحامل يتم استخدام الزيت لتشغيل أشرطة الاحتكاك والقارنات. كما يقوم زيت التروس أيضاً بنقل عزم الدوران من المضخة إلى الترس التوربيني. ومن خلال الفلتر المثالية للمواد المحفزة للتآكل، مثل بري المعادن، يقوم فلتر ناقل الحركة بإطالة العمر الافتراضي لناقل الحركة وزيادة القدرة.

## 3.6

### فلتر المقصورة الداخلية

فلتر مقصورة السيارة يتم تركيبه في قناة شفط هواء المروحة ويقوم بفلتر الأجسام الغريبة مثل الغبار وحبوب اللقاح والسخام من الهواء. ويتم تركيبه بشكل قياسي منذ سنوات عديدة ويضمن نظافة الهواء في المقصورة الداخلية للسيارة. يوجد فلتر مقصورة السيارة بأشكال وتصميمات مختلفة حسب السيارة: وتتنوع تشكيلة هذا الفلتر ابتداءً من الفلاتر المستطيلة مروراً بالفلاتر التي على شكل معين وحتى فلاتر مقصورة السيارة المستديرة مع أو بدون جسم بلاستيكي أو جوان إسفنجي.

#### فلتر المقصورة الداخلية، القياسي (AC)

يقوم الفلتر القياسي بصفة أساسية بامتصاص الجزيئات الصلبة مثل حبوب اللقاح والسخام والغبار وبري المكابح وغيرها من الهواء الخارجي. ويتم ذلك عن طريق وسيط الفلتر بشكل خاص.

#### فلتر المقصورة الداخلية مع الكربون النشط (ACC)

يقوم فلتر الكربون النشط بصفة أساسية بفلتر الجزيئات الصلبة أيضاً والغازات الضارة مثل أكاسيد النيتروجين وأكاسيد الكبريت والأوزون والمواد الهيدروكربونية. ويمكن دخولها إلى مقصورة السيارة بنسبة 95%:

#### ملحوظة:

لتسهيل عملية الفك والتركيب، يتم إرفاق دليل تركيب خاص بنوع كل فلتر من فلاتر KS لمقصورات سيارات الركاب. ويمكنك أن تجد هذا الدليل أيضاً على أسطوانة المنتج Product Disc وفي المتجر الإلكتروني من خلال البحث برقم المنتج المعني. لفتح ملفات PDF يجب أن يكون لديك برنامج Adobe Reader المجاني.

أما الجزيئات متناهية الصغر فيتم فلترتها وامتصاصها بواسطة طبقة الكربون النشط الموجودة بالفلتر. بالإضافة إلى ذلك يتم احتجاز الروائح غير المستحبة بحيث يتم خفض نسبة الروائح غير المستحبة مثلاً في الأنفاق أو الغيار إلى أدنى حد ممكن.

فلتر المقصورة الداخلية AC، وحدة إدخال

فلتر المقصورة الداخلية ACC، مع الكربون النشط

فلتر المقصورة الداخلية AC، قياسي

## 3.3

## فلتر اليوريا

في الأنظمة الحديثة لمعالجة العوادم تتمثل مهمة فلتر اليوريا في حماية مكونات النظام من التآكل. وتستخدم أجهزة تنقية العادم (Selective Catalytic Reduction) SCR بشكل متزايد في المركبات التجارية والخدمية بشكل خاص، حيث يمكن أن تعمل هذه الفلاتر على خفض نسبة أكاسيد النيتروجين بمعدل 90٪. لذلك فإن نظام فلتر SCR يعمل بمحلول ماء ونيتروجين يحافظ على البيئة بنسبة 32.5٪، حيث يوضع هذا المحلول في خزان منفصل بالسيارة (الاسم التجاري له هو مادة AdBlue). يتم حقن محلول اليوريا هذا في مسار العادم عن طريق مضخة أو حاقن وهو يتكفل بعملية الاختزال الكيميائي في جهاز تنقية العادم. وتتحول مادة اليوريا إلى أمونيا، في حين تتحول أكاسيد النيتروجين الموجودة في الوقود إلى نيتروجين وماء. لضمان إطالة العمر الافتراضي لوحدة المعالجة يتم استخدام فلتر اليوريا لفلتر محلول اليوريا. نقاوة هذا النوع من الفلاتر وعمرها الافتراضي تماثل نقاوة فلتر وقود الديزل وعمره الافتراضي.

## 3.4

## فلتر الزيت

يقوم الزيت بعمل طبقة انزلاقية بين الأجزاء المتحركة للمحرك، ولذلك يجب أن يكون خالياً من الشوائب والأجسام الغريبة. يقوم فلتر الزيت بتنقية دورة الزيت من الأجسام الغريبة التي يمكن أن تصل إلى المحرك عن طريق الوقود أو هواء الشفط وكذلك بري المعادن الذي يحدث داخل المحرك. الأجسام الغريبة التي ينطبق عليها هذا الأمر هي المكابس وحلقات المكابس ومسارات حركة الأسطوانات والمحامل الانزلاقية. بالإضافة إلى ذلك، فإن فلتر الزيت يمنع تقادم زيت المحرك قبل الأوان.

خرطوشة فلتر الزيت، الخالية من المعادن OX

خرطوشة فلتر الزيت OC/OH

الفلتر اللولبي للزيت OS

#### 3.1

#### فلتر الهواء

من خلال الدرجة المثالية لفصل الغبار بفلتر الهواء يتم تقليل تآكل المكابس وحلقات المكابس ومسارات حركة الأسطوانات. فلاتر الهواء المتوائمة مع خصائص المحرك وحيز التركيب تعمل على خفض ضوضاء الاهتزاز وأصوات الشفط بدرجة فعالة.

فلتر الهواء AR، المستدير لسيارات النقل

فلتر الهواء AR، المستدير

فلتر الهواء AP، المسطح

#### 3.2

#### فلتر الوقود

أبسط الشوائب في الوقود يمكن أن تؤدي إلى اختلافات بالنظام. وهذه الاختلافات تظهر بصفة أساسية في مضخة الوقود والمكربن ومضخة الحقن وفوهات الحقن. الأنظمة الحديثة لحقن الوقود على وجه الخصوص تتطلب وقوداً متجانساً وفائق النقا. لذلك يجب تنقية الوقود باستمرار وبعباية من خلال فلتر الوقود لضمان أداء المحرك لوظيفته بدون مشاكل.

خرطوشة فلتر الوقود FC/FX

فلتر أنابيب الوقود FP

الفلتر اللولبي للوقود FS

## شروح أرقام أجزاء KS

مثال:

خرطوشة فلتر الزيت

50 013 095 = 095-OC

فلتر المقصورة الداخلية بالكربون النشط

027 014 50 = 4027-ACC

مع الفلاتر تعمل شركة KOLBENSCHMIDT بمجموعتين من الأرقام: إلى جانب رقم KS المكون من ثمانية أرقام يوجد أيضاً رقم قصير خاص. الرقم القصير يتكون من ثلاثة أو أربعة أرقام وحرفين أو ثلاثة حروف. الأرقام تميز الفلتر والحروف توضح نوع الفلتر (انظر 3).

رقم KS المكون من ثمانية أرقام يظهر على جميع الأوراق، مثل وثائق التوريد والفواتير. دائماً ما تكون أول 5 أرقام هي "50 013" أو "50 014"، أما الثلاثة الأربعة أرقام الأخيرة فتميز الفلتر وتمثل الأعداد المكون منها الرقم المختصر.

## معلومات المنتج

تقوم فلاتر المحركات باحتجاز شوائب الزيت والهواء والوقود لمنعها من الوصول إلى داخل المحرك. ويحتاج المحرك إلى كل من الهواء والوقود من أجل عملية الاحتراق. أما الزيت فيستخدم في تبريد المحرك ولتقليل الاحتكاك في المواضع التي تتلامس فيها الأجزاء المتحركة مع بعضها.

# KSPG

## Automotive

شركة KSPG.  
مورد مرموق لماركات صناعة السيارات العالمية.

باعتبارها شريك دائم منذ سنوات عديدة لمُصنعي السيارات، فإن مجموعة شركات KSPG تعمل على تطوير المكونات الذكية وحلول الأنظمة المبتكرة ذات الكفاءة المعترف بها في إمداد الهواء وتقليل انبعاثات المواد الضارة، وذلك فيما يتعلق بمضخات الزيت والماء ومضخات الفراغ والمكابس وأجسام المحركات والمحامل الانزلاقية. وتتميز المنتجات بأنها تلبى الاشتراطات الصعبة ومعايير الجودة العالية لصناعات السيارات. فتقليل انبعاثات المواد الضارة والاستهلاك المنخفض للوقود والاعتمادية والجودة والأمان هي المعايير الأساسية للابتكار لدى شركة KSPG.

مجموعة Motor Service Gruppe.  
الجودة والخدمة من مصدر واحد.

مجموعة خدمة المحرك هي مؤسسة التوزيع لأنشطة ما بعد التسويق عالمياً لشركة KSPG. وهي إحدى الشركات الرائدة في توفير مكونات المحركات في السوق الحرة لقطع الغيار للماركات الشهيرة KOLBENSCHMIDT و PIERBURG و TRW Engine Components. وهناك تشكيلة كبيرة ومتنوعة تتيح للعملاء الحصول على أجزاء المحركات من مصدر واحد. ونظراً لقدرتها على حل المشاكل المتعلقة بالأنشطة التجارية والورش فإن الشركة إلى جانب ذلك توفر حزمة متنوعة وشاملة لمعدلات القدرات والكفاءة التقنية باعتبارها شركة تابعة لمجموعة مغذية لصناعة السيارات.

## إرشادات مهمة

أخرى. لاستخدام قوائم المقارنة لا يمكننا تحمل أية مسؤولية وعلى وجه الخصوص فيما يتعلق بالتغييرات المحتملة و/أو فروق المقاسات الخاصة بالشركات الصانعة المختلفة. لا تتحمل أية مسؤولية عن صحة البيانات وتناسب المنتج مع غرض الاستخدام المقرر. وللتحقق من ذلك يجب في جميع الأحوال طلب المشورة الفنية من الشركة الصانعة وورشتها المعتمدة المتعاقدة معها. الأجزاء المقدمة في الكتالوج غير مخصصة للاستخدام في الطائرات. عند الاستخدام في المحركات البحرية والمحركات الثابتة يجب مراعاة أنه حتى في حالة تشابه مسمى المحرك فهناك أجزاء أخرى مختلفة من المحرك (المكابس مثلاً).

لا يسمح بإعادة طبع أو نسخ المطبوعة أو الاقتباس منها ولو بشكل جزئي دون الحصول على تصريح كتابي مسبق. ظهور هذا الكتالوج يُفقد الإصدارات السابقة صلاحيتها.

نحتفظ بحق إدخال التعديلات، كما أن الخطأ وارد.

المهلة الزمنية المحددة لمطالبات إصلاح العيوب تبلغ 24 شهراً ابتداءً من تاريخ توريد المنتج. وتسقط مطالبات إصلاح العيوب في حالة قيام جهة أخرى بتركيب المنتج أو في حالة إدخال تعديلات عليه بفعل أجزاء أخرى من مصادر خارجية، إلا إذا كان العيب غير ناتج عن هذا التغيير. كما أنها تسقط أيضاً إذا لم يتم تركيب المنتج أو التعامل معه حسب التعليمات السارية. يُستبعد من الضمان التآكل الطبيعي والتضرر الناتج عن الاستخدام المخالف للتعليمات.

## إدارة البيئة

التعامل المسؤول مع المواد وحماية بيئتنا والالتزام بجميع الالتزامات المعنية كلها عوامل في غاية الأهمية للتعاون مع شركائنا على المدى الطويل. وقد كانت هذه هي الأسباب التي دفعتنا إلى استيفاء متطلبات أنظمة إدارة البيئة ISO 14001 وحصول مؤسستنا على شهادة منها بذلك.

تجد المزيد من المعلومات التقنية في موقعنا على شبكة الإنترنت

[www.ms-motor-service.com](http://www.ms-motor-service.com)

محتويات المتجر الإلكتروني متاحة أيضاً على شكل كتالوج إلكتروني على أسطوانة "Motor Service Product Disc" (أسطوانة منتجات خدمة المحركات). اتصل بمسؤول الاتصال لدينا إذا كنت ترغب في الحصول عليها.

تم إعداد بيانات هذا الكتالوج بعناية فائقة، إلا أنها غير ملزمة. ونحن لا نتحمل أية مسؤولية عن صحة هذه البيانات. حيث لا يستبعد أن تطرأ تغييرات على التجهيزات من قبل الشركات الصانعة للسيارات والمحركات أو قد تطرأ تغييرات على المسميات. ويسعدنا دائماً تلقي إخطاراتكم بخصوص أية أخطاء قد ترد في الكتالوج على أن نصحها في الطباعات القادمة. أسماء وشروح وأرقام المحركات والسيارات والمنتجات والشركات الصانعة وغيرها مذكورة فقط بهدف المقارنة. والأجزاء المذكورة في الكتالوج عبارة عن قطع غيار تتمتع بجودة KS. نحتفظ لأنفسنا بالحق في إدخال أية تعديلات على مواصفات المنتجات والخامات وأشكال منتجاتنا في أي وقت.

الوظيفة وغرض الاستخدام المذكور في الكتالوج لا تتأثر بذلك الصور والرسوم التوضيحية وغيرها من البيانات الأخرى تستخدم للشرح والإيضاح ولا يمكن استخدامها كأساس للتركيب ولا لمعرفة التجهيزات الموردة ولا البنية الهيكلية. البيانات بخصوص أرقام قطع الغيار الأصلية للشركة الصانعة للسيارات والمحركات تُستخدم لغرض المقارنة فقط. وهي ليست رسوم أساسية ولا يجوز استخدامها ضد أطراف

## إدارة الجودة

نحن حاصلون على شهادة الأيزو ISO 9001 كعلامة على أن نظام إدارة الجودة لدينا يفي باشتراطات المواصفات العالمية المعنية. والكثير من عملائنا - خصوصاً شركات صناعة السيارات المعروفة عالمياً - تتطلب استيفاء مصنعنا للمزيد من الاشتراطات والمتطلبات. هذه الاشتراطات والمتطلبات مذكورة في المواصفة العالمية ISO/TS 16949 لإدارة الجودة. وحتى نلبي رغبات العملاء وللدلالة على أننا نفي بهذه المتطلبات ونفوق التزامات مواصفة الأيزو ISO 9001 فقد حصل نظامنا لإدارة الجودة أيضاً على شهادة الأيزو ISO/TS 16 949.

إذا حدث رغم إجراءات المراقبة والمتابعة التي نقوم بها أثناء عملية الإنتاج والمراقبة النهائية الدقيقة أن ظهر عيب في الخامات أو في التصنيع، فإننا نلتزم خلال المهلة الزمنية المحددة بأن نقوم بإصلاح المحرك أو استبدال المنتجات المعيبة. يجب إبلاغنا بمثل هذه العيوب خلال فترة 30 يوماً بشكل كتابي بعد ظهور الضرر.

# Verkaufs- und Lieferbedingungen

- 1. Auftragserteilung, abweichende Bedingungen**
  - 1.1 Lieferungen und Leistungen erbringen wir ausschließlich zu den nachfolgenden Bedingungen und etwigen, dem Besteller bekanntgegebenen Sonderbedingungen.
  - 1.2 Allgemeine Geschäftsbedingungen des Bestellers gelten nur bei ausdrücklicher schriftlicher Bestätigung. Weder unterlassener Widerspruch noch Ausführung von Lieferung oder Leistung stellen eine Anerkennung fremder Geschäftsbedingungen dar.
- 2. Angebot, Angebotsunterlagen**
  - 2.1 Unser Angebot ist freibleibend, sofern sich aus der Auftragsbestätigung nichts anderes ergibt.
  - 2.2 An Abbildungen, Zeichnungen und anderen Unterlagen, die dem Besteller überlassen werden, behalten wir uns Eigentums- und Urheberrechte vor; sie dürfen nicht für andere als die von uns angegebenen Zwecke verwendet oder Dritten zugänglich gemacht werden. Dies gilt insbesondere für schriftliche Unterlagen, die als "vertraulich" bezeichnet sind; vor ihrer Weitergabe an Dritte bedarf der Besteller unserer ausdrücklichen schriftlichen Zustimmung.
  - 2.3 Alle Angaben in Katalogen, Abbildungen, Zeichnungen und sonstigen Unterlagen sind unverbindlich.
  - 2.4 Für Inhalt und Umfang des Liefervertrages ist unsere schriftliche Auftragsbestätigung maßgebend. Die Übermittlung per Datenfernübertragung genügt der Schriftform.
- 3. Preise**
  - 3.1 Unsere Preise gelten ab Werk/Lager ausschließlich Verpackung und zuzüglich der zum Zeitpunkt der Rechnungsstellung jeweils gültigen gesetzlichen Mehrwertsteuer.
  - 3.2 Wir behalten uns das Recht vor, unsere Preise entsprechend zu ändern, wenn nach Abschluß des Vertrages Kostensenkungen oder Kostenerhöhungen, insbesondere aufgrund von Tarifabschlüssen oder Materialpreisänderungen eintreten. Diese werden wir dem Besteller auf Verlangen nachweisen.
- 4. Lieferung**
  - 4.1 Die Einhaltung von vereinbarten Fristen für Lieferungen setzt den rechtzeitigen Eingang sämtlicher vom Besteller zu liefernden Unterlagen, erforderlichen Genehmigungen und Freigaben, insbesondere von Plänen, sowie die Einhaltung der vereinbarten Zahlungsbedingungen und sonstigen Verpflichtungen durch den Besteller voraus. Werden diese Voraussetzungen nicht rechtzeitig erfüllt, so verlängern sich die Fristen angemessen; dies gilt nicht, wenn wir die Verzögerung zu vertreten haben.
  - 4.2 Höhere Gewalt, Arbeitskämpfe, Unruhen, behördliche Maßnahmen, Ausbleiben von Zulieferungen unserer Zulieferanten und sonstige unvorhersehbare, unabwendbare und schwerwiegende Ereignisse befreien die Vertragspartner für die Dauer der Störung und im Umfang ihrer Wirkung von den Leistungspflichten. Dies gilt auch, wenn diese Ereignisse zu einem Zeitpunkt eintreten, in dem sich der betroffene Vertragspartner in Verzug befindet. Die Vertragspartner sind verpflichtet, im Rahmen des Zumutbaren unverzüglich die erforderlichen Informationen zu geben und ihre Verpflichtungen den veränderten Verhältnissen nach Treu und Glauben anzupassen.
  - 4.3 Schadensersatzansprüche des Bestellers gegen uns wegen Verzögerung der Leistung sind in allen Fällen verzögert Lieferung, auch nach Ablauf einer uns etwa gesetzten Frist zur Lieferung, ausgeschlossen. Dies gilt nicht, soweit in Fällen des Vorsatzes oder der groben Fahrlässigkeit oder für die Verletzung von Leben, Körper und Gesundheit zwingend gehaftet wird; eine Änderung der Beweislast zum Nachteil des Bestellers ist hiermit nicht verbunden. Das gesetzliche Rücktrittsrecht des Bestellers bleibt unberührt. Vom Vertrag kann der Besteller im Rahmen der gesetzlichen Bestimmungen nur zurücktreten, soweit die Verzögerung der Lieferung durch uns zu vertreten ist.
  - 4.4 Teillieferungen sind zulässig. Verzögert sich eine Teillieferung, so kann der Besteller hieraus keine Rechte wegen der übrigen Teilemenge geltend machen, es sei denn, die Teilerfüllung hat für ihn kein Interesse.
  - 4.5 Unsere Lieferungen erfolgen ab Werk/Lager, sofern im Einzelfall nichts anderes vereinbart ist. Mit der Anzeige der Versandbereitschaft, spätestens, wenn die Ware das Werk/Lager verläßt, geht die Gefahr auf den Besteller über. Dies gilt auch, wenn wir den Transport durchführen. Eine Transportversicherung erfolgt nur nach besonderer Vereinbarung und auf Rechnung des Bestellers.
  - 4.6 Einwegverpackungen werden nicht zurückgenommen. Der Besteller hat diese auf eigene Kosten zu entsorgen.
- 5. Selbstbelieferung**

Wir sind zur Aufschubung und/oder Aufhebung unserer hiervon betroffenen Lieferverpflichtung berechtigt, wenn richtige oder rechtzeitige Selbstbelieferung seitens unseres Vorlieferanten ohne unser Verschulden ausbleibt.
- 6. Sachmängelhaftung**
  - 6.1 Der Besteller hat nach der Lieferung die Ware unverzüglich zu untersuchen und etwaige Mängel unverzüglich schriftlich zu rügen. Verdeckte Mängel sind unverzüglich nach Entdeckung schriftlich zu rügen.
  - 6.2 Bis zur Klärung der Reklamation darf beanstandete Ware nicht weiterverarbeitet werden. Uns ist Gelegenheit zu geben, gerügte Mängel an Ort und Stelle zu überprüfen. Im übrigen ist uns beanstandete Ware auf unseren Wunsch zu übersenden.
  - 6.3 Dem Besteller überlassene Muster der Ware sind Orientierungs- oder Ausfallmuster. Ihre Überlassung berechtigt uns nach wie vor zur Lieferung nach handelsüblichen Toleranzen.
  - 6.4 Bei Sachmängeln werden wir nach unserer Wahl den Mangel beseitigen oder eine mangelfreie Sache liefern, sofern der Sachmangel im Zeitpunkt des Gefahrübergangs vorlag. Schlägt die Nacherfüllung fehl, kann der Besteller – unbeschadet etwaiger Schadensersatzansprüche gemäß Ziffer 9 – die Vergütung mindern oder vom Vertrag zurücktreten. Ansprüche des Bestellers wegen der zum Zweck der Nacherfüllung erforderlichen Aufwendungen, insbesondere Transport-, Wege-, Arbeits- und Materialkosten, sind ausgeschlossen, soweit die Aufwendungen sich erhöhen, weil der Gegenstand der Lieferung nachträglich an einen anderen Ort als die Niederlassung des Bestellers verbracht worden ist, es sei denn, die Verbringung entspricht seinem bestimmungsgemäßen Gebrauch.
  - 6.5 Gesetzliche Rückgriffsansprüche des Bestellers gemäß §§ 478, 479 BGB bestehen nur insoweit, als der Besteller mit seinem Abnehmer keine über die gesetzlichen Mängelansprüche hinausgehenden Vereinbarungen getroffen hat. Rückgriffsansprüche des Bestellers gegen uns bestehen darüber hinaus nur bis zur Höhe des Kaufpreises.
  - 6.6 Mängelansprüche entstehen nicht, wenn der Fehler zurückzuführen ist auf Verletzung von Bedienungs-, Wartungs- und Einbauvorschriften, ungeeignete oder unsachgemäße Verwendung, fehlerhafte oder nachlässige Behandlung und natürlichen Verschleiß sowie vom Besteller oder von Dritten vorgenommene Eingriffe in den Liefergegenstand.
  - 6.7 Die Verjährung für Mängelansprüche beträgt 24 Monate, gerechnet ab Gefahrübergang.
  - 6.8 Auf Verlangen und auf unsere Kosten sind uns die fehlerhaften Teile unverzüglich zur Verfügung zu stellen.
- 7. Zahlungsbedingungen**
  - 7.1 Falls nicht anders vereinbart, sind unsere Rechnungen sofort nach Erhalt ohne Abzug zahlbar.
  - 7.2 Kommt der Besteller in Zahlungsverzug, so sind wir berechtigt, Verzugszinsen in Höhe von 8% über dem Basiszinssatz zu berechnen.
  - 7.3 Aufrechnungsrechte stehen dem Besteller nur zu, wenn seine Gegenansprüche rechtskräftig festgestellt oder von uns anerkannt sind. Außerdem ist er zur Ausübung eines Zurückbehaltungsrechts insoweit befugt, als sein Gegenanspruch auf dem gleichen Vertragsverhältnis beruht.
  - 7.4 Sind mehrere Rechnungen oder Forderungen offen, so sind wir trotz einer etwaigen abweichenden Bestimmung des Bestellers berechtigt, die Reihenfolge der Tilgung zu bestimmen.
  - 7.5 Werden uns nach Vertragsschluss Umstände bekannt, die bei Anlegung banküblicher Maßstäbe Zweifel an der Zahlungsfähigkeit begründen, oder ist der Besteller mit vereinbarten Zahlungszielen in Verzug, sind wir nach erfolglosem Ablauf einer angemessenen Nachfrist berechtigt, ausstehende Lieferungen nur gegen Vorkasse durchzuführen oder von der Stellung einer Sicherheit abhängig zu machen.
- 8. Eigentumsvorbehalt**
  - 8.1 Gelieferte Ware bleibt unser Eigentum bis zur Erfüllung aller gegenwärtigen Ansprüche aus Geschäftsverbindungen zwischen dem Besteller und uns (Vorbehaltsware). Für den Fall der Einleitung eines Insolvenzverfahrens über das Vermögen des Bestellers behalten wir uns den Rücktritt vor. Bei Pflichtverletzungen des Bestellers, insbesondere bei Zahlungsverzug, sind wir zum Rücktritt und zur Rücknahme berechtigt; der Besteller ist zur Herausgabe verpflichtet. Die Rücknahme bzw. Geltendmachung des Eigentumsvorbehalts erfordert keinen Rücktritt unsererseits; in diesen Handlungen oder einer Pfändung der Vorbehaltsware durch uns liegt kein Rücktritt vom Vertrag, es sei denn, wir hätten dies ausdrücklich erklärt.

- 8.2 Der Besteller ist zur getrennten Lagerung und Kennzeichnung der Vorbehaltsware verpflichtet. Der Besteller ist verpflichtet, die Vorbehaltsware pfleglich zu behandeln; insbesondere ist er verpflichtet, diese auf eigene Kosten gegen Feuer-, Wasser- und Diebstahlschäden zum Neuwert zu versichern. Sofern Wartungs- und Inspektionsarbeiten erforderlich sind, muß der Besteller diese auf eigene Kosten rechtzeitig durchführen.
  - 8.3 Der Besteller darf die Vorbehaltsware weder verpfänden, noch zur Sicherung übereignen. Bei Pfändungen, Beschlagnahmen oder sonstigen Verfügungen oder Eingriffen Dritter hat der Besteller uns unverzüglich zu benachrichtigen.
  - 8.4 Der Besteller ist berechtigt, die Vorbehaltsware im ordentlichen Geschäftsgang weiter zu verkaufen; er tritt uns jedoch bereits jetzt alle Forderungen in Höhe des Rechnungsendbetrages unserer Forderung ab, die ihm aus der Weiterveräußerung gegen seine Abnehmer oder Dritte erwachsen, und zwar unabhängig davon, ob die Vorbehaltsware ohne oder nach Verarbeitung weiter verkauft worden ist. Zur Einziehung dieser Forderung bleibt der Besteller auch nach der Abtretung ermächtigt. Unsere Befugnis, die Forderung selbst einzuziehen, bleibt hiervon unberührt. Wir verpflichten uns, die Forderung nicht einzuziehen, solange der Besteller seinen Zahlungsverpflichtungen aus den vereinnahmten Erlösen nachkommt, nicht in Zahlungsverzug gerät, kein Antrag auf Eröffnung eines Insolvenzverfahrens gestellt ist oder keine Zahlungseinstellung vorliegt. In allen diesen Fällen können wir verlangen, daß der Besteller uns die abgetretenen Forderungen und deren Schuldner bekannt gibt, alle zum Einzug erforderlichen Angaben macht, die dazu gehörigen Unterlagen aushändigt und den Schuldnern (Dritten) die Abtretung mitteilt.
  - 8.5 Eine Verarbeitung oder Umbildung der Vorbehaltsware nimmt der Besteller für uns vor, ohne daß uns daraus Verpflichtungen entstehen. Verbindet, vermischt, vermengt oder verarbeitet der Besteller unsere Vorbehaltsware, so erwerben wir das Miteigentum an der neuen Sache im Verhältnis des Wertes der Vorbehaltsware (Rechnungsendbetrag) zu den anderen verarbeiteten, vermengten, vermischten oder verbundenen Gegenständen zum Zeitpunkt der Verarbeitung, Vermengung, Vermischung oder Verbindung. Für die durch die Verarbeitung oder Verbindung entstehende Sache gilt im übrigen das gleiche wie für die unter Vorbehalt gelieferte Vorbehaltsware. Erfolgt die Vermischung oder Vermengung in der Weise, daß die Sache des Bestellers als Hauptsache anzusehen ist, so gilt als vereinbart, daß der Besteller uns anteilmäßig Miteigentum überträgt. Der Besteller verwahrt das so entstandene Alleineigentum oder Miteigentum für uns.
  - 8.6 Übersteigt der Wert der uns gegebenen Sicherheiten unsere Forderungen insgesamt um mehr als 20%, so sind wir auf Verlangen des Bestellers verpflichtet, die überschüssenden Sicherheiten nach unserer Wahl freizugeben.
  - 8.7 Sofern und soweit die Registrierung und/oder die Erfüllung anderer Erfordernisse Voraussetzung für die Wirksamkeit des Eigentumsvorbehalts ist, ist der Besteller verpflichtet, auf seine Kosten alle hierzu notwendigen Handlungen unverzüglich vorzunehmen und alle erforderlichen Mitteilungen zu machen. Falls und soweit die maßgebliche Rechtsordnung keine Vereinbarung eines Eigentumsvorbehalts zuläßt, wird der Besteller uns bei Inanspruchnahme von Warenkredit angemessene andere Sicherheiten stellen.
- 9. Sonstige Schadensersatzansprüche**
    - 9.1 Schadensersatzansprüche des Bestellers, gleich aus welchem Rechtsgrund, insbesondere wegen Verletzung von Pflichten aus dem Schuldverhältnis oder aus unerlaubter Handlung, sind ausgeschlossen.
    - 9.2 Dies gilt nicht, soweit gesetzlich zwingend gehaftet wird, z. B. nach dem Produkthaftungsgesetz, in Fällen des Vorsatzes, der groben Fahrlässigkeit, wegen der Verletzung des Lebens, des Körpers oder der Gesundheit, wegen der Verletzung wesentlicher Vertragspflichten. Der Schadensersatzanspruch für die Verletzung wesentlicher Vertragspflichten ist jedoch auf den vertragstypischen, vorhersehbaren Schaden begrenzt, soweit nicht Vorsatz oder grobe Fahrlässigkeit vorliegt oder wegen der Verletzung des Lebens, des Körpers oder der Gesundheit gehaftet wird. Eine Änderung der Beweislast zum Nachteil des Bestellers ist mit den vorstehenden Regelungen nicht verbunden.
    - 9.3 Soweit dem Besteller nach diesem Abschnitt 9 Schadensersatzansprüche zustehen, verjähren diese mit Ablauf der für Sachmängelansprüche geltenden Verjährungsfrist nach 6.7, soweit nicht zwingende gesetzliche Vorschriften entgegenstehen.
    - 9.4 Soweit die Schadensersatzhaftung uns gegenüber ausgeschlossen oder eingeschränkt ist, gilt dies auch im Hinblick auf die persönliche Schadensersatzhaftung unserer Mitarbeiter, Vertreter und Erfüllungsgehilfen.
  - 10. Rechte Dritter**
    - 10.1 Sofern ein Dritter wegen der Verletzung eines gewerblichen Schutzrechtes oder Urheberrechtes (Schutzrechte) durch von uns gelieferte, vertragsgemäß genutzte Produkte gegen den Besteller berechtigte Ansprüche erhebt, haften wir gegenüber dem Besteller wie folgt:
      - 10.1.1 Wir werden nach unserer Wahl auf unsere Kosten entweder ein Nutzungsrecht für das Produkt erwirken, das Produkt so ändern, daß das Schutzrecht nicht verletzt wird, oder das Produkt austauschen. Ist uns dies nicht zu angemessenen Bedingungen möglich, haben wir das Produkt gegen Erstattung des Kaufpreises zurückzunehmen.
      - 10.1.2 Unsere vorstehend genannten Verpflichtungen bestehen nur dann, wenn der Besteller uns über die vom Dritten geltend gemachten Ansprüche unverzüglich schriftlich verständigt, eine Verletzung nicht anerkennt und uns alle Abwehrmaßnahmen und Vergleichsverhandlungen vorbehalten bleiben. Stellt der Besteller die Nutzung des Produkts aus Schadensminderungs- oder sonstigen wichtigen Gründen ein, ist er verpflichtet, dem Dritten gegenüber darauf hinzuweisen, daß mit der Nutzungseinstellung kein Anerkenntnis einer Schutzrechtsverletzung verbunden ist.
    - 10.2 Ansprüche des Bestellers sind ausgeschlossen, soweit er die Schutzrechtsverletzung zu vertreten hat oder soweit die Schutzrechtsverletzungen durch spezielle Vorgaben des Bestellers, durch eine von uns nicht voraussehbare Anwendung oder dadurch verursacht wird, daß das Produkt vom Besteller verändert oder zusammen mit nicht von uns gelieferten Produkten eingesetzt wird.
    - 10.3 In den Fällen der Ziffer 10.2 stellt uns der Besteller von Ansprüchen Dritter frei.
    - 10.4 Weitergehende Ansprüche gegen uns sind ausgeschlossen; Ziffer 9 (Sonstige Schadensersatzansprüche) bleibt jedoch ebenso unberührt wie das Recht des Bestellers zum Rücktritt vom Vertrag.
    - 10.5 Bei Vorliegen sonstiger Rechtsmängel gelten die Bestimmungen nach Abschnitt 6 entsprechend.
  - 11. Fertigungsmittel, Werkzeuge, Formeinrichtungen**
    - 11.1 Soweit der Besteller uns Fertigungsmittel (z.B. Werkzeuge, Kokillen, Formen oder Gesenke) zur Verfügung stellt, sind uns diese kostenfrei zuzusenden. Für deren Untergang, Verschlechterung oder unvollständige Rücklieferung und daraus resultierende Schäden übernehmen wir eine Haftung nur für grobe Fahrlässigkeit oder Vorsatz. Dies gilt nicht soweit gesetzlich zwingend gehaftet wird.
    - 11.2 Wenn Fertigungsmittel von uns im Auftrag des Bestellers angefertigt oder beschafft werden, stellen wir hierfür anteilige Kosten gesondert in Rechnung; bei Gußteilen auch für Folgewerkzeuge. Bei Nichtausnutzung eines Werkzeuges übernimmt der Besteller die nicht gedeckten Kosten, auch der sonstigen typengebundenen Einrichtungen. Kosten für Modelle gehen stets in vollem Umfang zu Lasten des Bestellers. Die Fertigungsmittel bleiben unser Eigentum. Zur Herausgabe an den Besteller sind wir nicht verpflichtet. Dies gilt auch für Folgewerkzeuge.
    - 11.3 Unsere dem Besteller ausgehändigten Zeichnungen und Unterlagen sowie unsere Vorschläge für die vorteilhafte Gestaltung und zur Herstellung der Teile dürfen an Dritte nicht weitergegeben und können von uns jederzeit zurückverlangt werden.
  - 12. Erfüllungsort, Gerichtsstand, anwendbares Recht**
    - 12.1 Erfüllungsort der Zahlungsverpflichtung des Bestellers ist Neckarsulm, für unsere Verpflichtungen der Ort des Lieferwerkes/-lagers.
    - 12.2 Gerichtsstand ist Heilbronn. Wir sind auch berechtigt, den Besteller an seinem allgemeinen Gerichtsstand zu verklagen.
    - 12.3 Für alle Rechtsbeziehungen zwischen dem Besteller und uns gilt ausschließlich das materielle Recht der Bundesrepublik Deutschland unter Ausschluss des Kollisionsrechtes; das UN-Übereinkommen über Verträge über den Internationalen Warenkauf (CISG) findet keine Anwendung. Für die Auslegung von Lieferklauseln gelten die INCOTERMS in der jeweils gültigen Fassung.
  - 13. Teilunwirksamkeit**

Die rechtliche Unwirksamkeit einzelner Bestimmungen dieser Bedingungen berührt die Wirksamkeit der übrigen Bestimmungen nicht.
  - 14. Datenspeicherung**

Die für die Geschäftsabwicklung notwendigen Daten werden gespeichert und im Rahmen der Bestellabwicklung gegebenenfalls an Dritte weitergegeben. Alle personenbezogenen Daten werden selbstverständlich gemäß den Bestimmungen des Bundesdatenschutzgesetzes vertraulich behandelt.

# General Conditions of Sale and Delivery

## 1. Order Placement, Diverging Conditions

- 1.1 We will provide goods and services exclusively on the basis of the terms and conditions set forth below as well as any special conditions notified to Buyer.
- 1.2 Buyer's standard terms and conditions shall only apply subject to express confirmation by us in writing. The omission to raise objections and/or the provision of goods or services on our part shall not be deemed to constitute our acceptance of other terms and conditions.

## 2. Offer, Offer Documents

- 2.1 Our offer is subject to alteration without notice, unless otherwise specified in the acceptance of order.
- 2.2 We reserve ownership and copyrights to any illustrations, diagrams, drawings and other documents submitted to Buyer; they may not be used for any purpose other than that specified by us nor may they be disclosed to third parties. This shall apply, in particular, to written documents marked "confidential"; Buyer must obtain our express prior written approval before forwarding such documents to third parties.
- 2.3 Any data and information contained in catalogues, illustrations, diagrams, drawings and other documents shall not be binding
- 2.4 Our written acceptance of order shall be mandatory for defining the contents and scope of the supply contract. Forwarding by remote data transmission shall comply with the requisite of transmission in written form.

## 3. Prices

- 3.1 Our prices relate to delivery ex works/warehouse exclusive of packing and are to be understood plus the respective statutory value added tax valid at the time of invoicing.
- 3.2 We reserve the right to revise our prices accordingly if after conclusion of the contract, any cost decreases or increases should occur, particularly as a result of collective wage agreements or changes in the cost of materials. We will furnish proof of any such changes towards Buyer, on request.

## 4. Delivery

- 4.1 Compliance with agreed delivery dates shall be dependent upon timely receipt of all documents, required approvals, releases and clearances to be provided by Buyer, particularly plans, and also compliance with the agreed terms of payment and other obligations to be met by Buyer. Should these prerequisites not be fulfilled on time, the delivery times will be extended analogously; this will not apply if we are responsible for the delay.
- 4.2 Force Majeure, industrial disputes, unrest, official action, failure to deliver on the part of our suppliers and other unforeseeable, unavoidable and serious events shall release the parties from their obligations to perform for the duration of the disturbances mentioned and to the extent of their impact. This shall also apply if such events occur at a time when the affected party is in delay. The parties shall be obliged to make best efforts in order to promptly provide the required information as can be reasonably expected and to adjust their obligations in good faith to the changed circumstances.
- 4.3 Any claims for damages lodged by Buyer against us on the grounds of delayed performance shall be excluded in all cases of delayed delivery, even after the expiration of a period set to us for delivery. This shall not apply insofar as mandatory liability applies to cases of damage caused intentionally or by gross negligence or to bodily injury; this shall not imply a reversal of the burden of proof to the detriment of Buyer. Buyer's statutory right to rescind the contract shall remain unaffected. Buyer may only withdraw from the contract within the scope of legal provisions inasmuch as a delay in delivery is attributable to us.
- 4.4 Part deliveries shall be allowable. Should a part consignment arrive late, Buyer may not derive any claims from this situation in respect of the full order, unless the part delivery is of no use to him.
- 4.5 Our deliveries are made ex works/warehouse, unless agreed otherwise in individual cases. Risk will pass over to Buyer on receipt of the advice of readiness for despatch or, at the latest, when the goods leave the works/warehouse. This shall also apply if the transport is carried out by us. Transport insurance shall be subject to special agreement and paid for by Buyer.
- 4.6 One-way packing will not be taken back. Buyer shall dispose of it at his own expense.

## 5. Sub-suppliers' Failure to Perform

We shall be entitled to postpone and/or cancel our respective supply obligations if for reasons not attributable to us we do not receive, correctly and on schedule, the necessary supplies from our sub-suppliers.

## 6. Liability for Defects

- 6.1 Buyer must examine the goods immediately on receipt and notify us without delay, in writing, of any defects. Hidden defects must be notified in writing immediately after being discovered.
- 6.2 In the case of complaints about defects, the goods which are the subject of such complaints must not be processed until the matter is clarified. We shall be given the opportunity to examine any notified defects on site. Moreover, the goods complained about shall be sent to us at our request.
- 6.3 Any samples delivered to Buyer are reference or out-turn samples. Delivery of such samples shall not affect our right to supply the goods in accordance with standard tolerances.
- 6.4 In the case of material defects we shall, at our discretion, either remedy the defect or provide goods that are free from defects provided that the material defect was existent at the time of the passage of risk. Should the rectification of defects fail, Buyer may reduce the amount to be paid or withdraw from the contract, irrespective of any claims for damages that may apply pursuant to Section 9. Any claims on the part of Buyer in respect of expenses incurred in connection with the rectification of defects, particularly cost of transport, mileage, labour and materials shall be excluded inasmuch as such expenses are increased due to the situation that the object of the supply was subsequently transferred to a place other than Buyer's establishment unless such a transfer is in conformance with the intended use.
- 6.5 Any claims under a statutory right of recourse pursuant to §§ 478, 479 German Civil Code (BGB) shall only apply inasmuch as Buyer did not conclude agreements with his customer exceeding the statutory warranty claims. Above and beyond this, Buyer's claims under a right of recourse shall not exceed the amount of the purchase price.
- 6.6 Warranty claims shall not arise if the defect complained about is attributable to non-compliance with operating, maintenance and/or installation instructions, unsuitable or improper use, faulty or negligent treatment, natural wear, and interference with the goods by Buyer or third parties.
- 6.7 The period of limitation for warranty claims shall be 24 months following the transfer of risk.
- 6.8 Upon our demand, the defective parts shall be immediately made available to us, at our expense.

## 7. Terms of Payment

- 7.1 Unless agreed otherwise, our invoices are due for payment immediately on receipt, without deduction.
- 7.2 If Buyer defaults, we shall be entitled to charge interest on arrears at the rate of 8% above the base interest rate.
- 7.3 Buyer shall only be entitled to set off if his counterclaims are res judicata or have been recognised by us. Furthermore, he shall be entitled to exercise a right of retention provided that his counterclaim is based on the same contractual relationship.
- 7.4 If several invoices or accounts receivable are outstanding, we shall be entitled to determine the sequence of discharge, irrespective of any existing provision to the contrary on the part of Buyer.
- 7.5 If after the conclusion of a contract, we become aware of circumstances that, in consideration of customary banking practice, call into question Buyer's ability to pay or if Buyer is in arrears in respect of the period allowed for payment and fails to pay on expiration of a reasonable extension of time, we shall be entitled to insist on cash in advance for deliveries still outstanding or to make such deliveries dependent on the provision of securities.

## 8. Retention of Title

- 8.1 Goods delivered shall remain our property until all pending claims derived from business relations between Buyer and us have been satisfied ("reserved goods"). For the event that insolvency proceedings are instituted against Buyer's assets, we reserve the right of rescission. In the event that the Buyer should not meet his obligations and, in particular, if he falls into arrears in payment, we shall be entitled to rescind and to take back the reserved goods; Buyer shall be obliged to surrender the reserved goods. The taking back of the reserved goods and reservation of title shall

not require a rescission on our part; such actions or the seizure of the reserved goods by us do not constitute a rescission of the contract, unless expressly declared by us.

- 8.2 Buyer shall be obliged to store and mark the reserved goods separately. Buyer shall be obliged to take good care of the reserved goods; in particular, he shall insure the reserved goods at his own cost against damage by fire, water and theft, at their replacement value. If the reserved goods require maintenance and inspection, Buyer must take care of this at his own cost and in due time.
- 8.3 Buyer may neither pledge the reserved goods nor transfer them by way of security. Buyer shall inform us without delay in the case of seizure, confiscation or other orders or interference by third parties.
- 8.4 Buyer shall be entitled to sell on the reserved goods in his ordinary course of business. However, he shall herewith assign to us all receivables up to the amount of our final invoice to which he becomes entitled as a result of reselling to his own customers or third parties, irrespective of whether the reserved goods are resold before or after processing. Buyer remains entitled to collect such receivables even after assigning them. Our entitlement to collect the receivables ourselves remains unaffected by this. We undertake not to collect the receivables provided that Buyer meets his payment obligations when due, from the proceeds, that no application is filed to initiate insolvency proceedings and that payments are not suspended. In all these cases, we may demand that Buyer informs us of the receivables assigned and the identity of the debtors, provides all the details required to enable the receivables to be collected, presents the relevant documents and notifies the debtors (third parties) of the assignment.
- 8.5 Buyer may process or convert the reserved goods on our behalf, without generating any commitments on our part. If Buyer combines, mixes, blends or processes our reserved goods, we shall acquire co-ownership to the new product in the proportion of the value of the reserved goods (final invoice amount) to the other processed, blended, mixed or combined items at the moment when the processing, blending, mixing or combining takes place. The product created as a result of processing or combining shall be subject to the same conditions as the reserved goods delivered under retention of title. If the mixing or blending takes place in such a manner that Buyer's product is considered to be the main item, it is agreed that Buyer shall transfer proportionate co-ownership to us. Buyer shall hold in custody, on our behalf, the object of sole ownership or co-ownership obtained in this way.
- 8.6 If the value of the security provided to us exceeds the value of our receivables by more than 20%, we shall be obliged, on Buyer's demand, to release the excess amounts at our discretion.
- 8.7 If and inasmuch as the registration and/or fulfillment of other requirements is a pre-condition for the effectiveness of our retention of title, Buyer shall have to take all necessary actions at his own cost and to provide all information required to this end. If and inasmuch as an agreement on the retention of title is not permitted under the relevant legal system, Buyer shall provide us with alternative appropriate security on taking advantage of credit on goods.

## 9. Miscellaneous Claims for Damages

- 9.1 Any claims for damages asserted by Buyer shall be excluded, regardless of their legal basis, particularly due to breach of duties deriving from contractual obligations or from illicit actions.
- 9.2 This shall not apply insofar as liability is mandatory, e.g. in accordance with the German Product Liability Act; in cases of intent; gross negligence; danger to life and limb and non-compliance with key contractual obligations. However, claims for damages regarding non-compliance with key contractual obligations shall be restricted to typical contractual damage that is foreseeable inasmuch as such damage is not caused intentionally or by gross negligence or liability applies to the danger to life and limb. The aforementioned provisions shall not entail a reversal of the burden of proof to the detriment of Buyer.
- 9.3 Insofar as Buyer is entitled to claims for damages in accordance with this Section 9, such claims shall fall under the statute of limitations upon the expiration of the period of limitations that applies to material defects in accordance with 6.7 unless this conflicts with statutory provisions.
- 9.4 Insofar as our liability for the payment of damages is excluded or restricted, this shall also apply to personal liability for compensation on the part of our employees, representatives and vicarious agents.

## 10. Third-party Rights

- 10.1 Should a third party, due to an intellectual property right or copyright (jointly referred to as "IP rights") having been infringed, bring a justified claim against Buyer in respect of the goods supplied by us having been used for their contractual purpose, we shall be liable to Buyer as follows:
  - 10.1.1 at our own cost, we shall at our discretion either acquire the right to use the product, modify the product so that IP rights are no longer infringed, or replace the product. If none of these measures is feasible at reasonable conditions, we shall take back the product in return for reimbursement of the purchase price;
  - 10.1.2 the obligations stated above will only materialise if Buyer immediately notifies us in writing of the claims brought by third parties, Buyer has not acknowledged an infringement and we are granted the right to all defensive measures and settlement negotiations. If Buyer stops using the product to limit damage or for any other reason, he must indicate to the third party that his ceasing to use the product does not constitute the recognition of an infringement of IP rights.
- 10.2 Any claims on the part of Buyer shall be excluded to the extent to which Buyer is responsible for infringing IP rights or if such an infringement is attributable to specific instructions imposed by Buyer, to a use not foreseeable by us or to the product having been changed by Buyer or used in combination with products not supplied by us.
- 10.3 In the cases stated in sub-clause 10.2, Buyer will exempt us from third party claims.
- 10.4 Any claims against us except those mentioned above shall be excluded; Clause 9 (Miscellaneous Claims for Damages) however, shall remain unaffected as does the right of Buyer to withdraw from the Contract.
- 10.5 In the event of other defects of title the provisions in accordance with Clause 6 shall apply analogously.

## 11. Production Equipment, Tools, Moulds

- 11.1 If Buyer provides us with production equipment (e.g. tools, moulds, cavities or dies), these shall be sent to us free of charge. We shall only be responsible for their loss, deterioration or incomplete return and any consequential damage, in the case of gross negligence or wilful default. This does not apply if the law stipulates liability.
- 11.2 If production equipment is manufactured or procured by us on behalf of Buyer, we shall charge for it separately at cost; for castings and mouldings and also for progressive dies. In the case of non-utilisation of a tool, Buyer shall pay the costs which have not been covered and also those relating to other type-specific equipment. The cost of prototypes shall always be paid in full by Buyer. The production equipment remains our property. We are not obliged to surrender this equipment to Buyer. This also applies to progressive dies.
- 11.3 Our drawings and documents and also our proposals for optimised design and manufacture of the components which are submitted to Buyer, may not be forwarded to third parties and we may ask for return of such documents at any time.

## 12. Place of Performance, Jurisdiction, Applicable Law

- 12.1 Neckarsulm is deemed the place of performance for Buyer's payment obligations. The supply plant/warehouse location is the place of performance for our obligations.
- 12.2 The place of jurisdiction is Heilbronn, Germany. We are also entitled to bring actions against Buyer at his place of jurisdiction as determined by the general law.
- 12.3 All legal relationships between us and Buyer shall be exclusively governed by German substantive law. The UN Convention on Contracts for the International Sale of Goods (CISG) shall not be applicable. The interpretation of delivery clauses shall be governed by the latest valid version of INCOTERMS.

## 13. Partial Ineffectiveness

The legal ineffectiveness of individual provisions contained in these General Conditions shall not affect the validity of the remaining provisions.

## 14. Data Storage

The data required to process business transactions will be stored and potentially forwarded to third parties in connection with the execution of orders. All personal data shall, of course, be treated confidentially in accordance with the provisions of the German Federal Data Protection Act.

# Conditions Générales de Vente et de Livraison

## 1. Passation de commande, conditions dérogatoires

- 1.1 Nos livraisons et prestations de services sont régies exclusivement par les présentes Conditions et les Conditions Particulières qui ont été communiquées à l'acheteur.
- 1.2 Les Conditions Générales d'achat de l'acheteur ne peuvent s'appliquer sans accord préalable et écrit de notre part, l'absence d'opposition de notre part ou l'exécution de livraisons ou de prestations n'impliquant en aucun cas une acceptation desdites Conditions.

## 2. Offre, documentation de l'offre

- 2.1 Nos offres ne constituent aucun engagement de notre part, sauf dispositions particulières mentionnées dans la confirmation de commande.
- 2.2 Nous sommes titulaires des droits d'auteur et de propriété intellectuelle sur les illustrations, dessins ou tous autres documents qui seront remis à l'acheteur ; cette documentation ne pourra être utilisée qu'aux fins exclusives spécifiées par notre Société et ne pourra être communiquée à des tiers. La présente clause s'applique tout particulièrement aux documents écrits portant la mention « confidentiel » ; l'acheteur ne pourra les communiquer à des tiers qu'après autorisation écrite de notre part.
- 2.3 Les indications figurant dans les illustrations, les dessins, les catalogues et autres documents sont fournies à titre indicatif.
- 2.4 La teneur et l'étendue du contrat de livraison sont déterminées par notre confirmation écrite de la commande. La communication des données par transmission à distance suffit à satisfaire à l'obligation de la forme écrite.

## 3. Prix

- 3.1 Nos prix s'entendent sortie d'usine/d'entrepôt, emballage non compris. La taxe à la valeur ajoutée légalement en vigueur au moment de la facturation sera facturée en sus.
- 3.2 Nos prix sont valables sous réserve de modifications pouvant intervenir postérieurement à la conclusion du contrat ou à la passation de la commande et résultant d'augmentations ou de réductions des coûts, dues en particulier à la conclusion de conventions collectives, ou de variations dans les prix des matières. Sur demande de l'acheteur, un justificatif de ces modifications lui sera communiqué.

## 4. Livraison

- 4.1 Le respect des délais de livraison convenus est subordonné à la réception en temps opportun de tous les documents, autorisations et validations obligatoires qui doivent être fournis par l'acheteur, en particulier les plans. Le respect des délais de livraison est également soumis au respect des modalités de paiement convenues et à toutes les autres obligations à la charge de l'acheteur. En cas de non-respect de ces conditions préalables, les délais de livraison seront prorogés en conséquence. La présente clause ne s'appliquera pas si le retard occasionné est imputable à notre Société.
- 4.2 Les cas de force majeure, mouvements sociaux (grèves et autres), troubles sociaux, mesures administratives, défaut de livraison par nos sous-traitants, ainsi que tout autre événement grave, imprévisible et inéluctable, libéreront les parties au contrat de leurs obligations contractuelles pendant la période de leur durée et dans la mesure de leurs effets. La présente clause s'appliquera également si les événements mentionnés ci-dessus surviennent alors que la partie affectée est en retard dans l'exécution de ses obligations. Les parties au contrat s'engagent, dans la mesure du possible, à informer immédiatement l'autre partie de la survenance de telles circonstances et à adapter en toute bonne foi leurs obligations aux changements de situation en résultant.
- 4.3 Toute prétention de l'acheteur à des dommages et intérêts à notre encontre pour retard dans l'exécution de la prestation est exclue dans tous les cas de livraison retardée, même après expiration d'un éventuel délai qui nous aurait été fixé pour la livraison. Cette règle ne s'appliquera pas si la responsabilité est obligatoirement engagée pour cause d'intention délictueuse, de négligence grave ou d'atteinte à la vie, à l'intégrité du corps ou de la santé des personnes. La charge de la preuve n'en sera pas modifiée au détriment de l'acheteur. Le droit légal de désistement de l'acheteur n'en sera pas affecté. L'acheteur ne pourra se désister du contrat, dans le cadre des dispositions légales, que dans le cas où le retard de la livraison nous serait imputable.
- 4.4 Les livraisons partielles sont autorisées. En cas de retard dans une livraison partielle, l'acheteur ne pourra se prévaloir d'aucun droit portant sur le reste des quantités à livrer, sauf si la livraison partielle est pour lui dépourvue d'intérêt particulier.
- 4.5 Nos livraisons sont effectuées sortie d'usine/d'entrepôt, sauf accord particulier intervenant dans des cas spécifiques. Les risques sont transférés à l'acheteur dès l'avis indiquant que la marchandise est prête à l'expédition, au plus tard, lorsque la marchandise quitte l'usine/l'entrepôt. Les dispositions de la présente clause s'appliquent également si le transport est effectué par nos soins. Une assurance transport peut être souscrite uniquement après accord formel et à la charge de l'acheteur.
- 4.6 Les emballages perdus ne seront pas repris. L'acheteur est tenu d'assurer l'élimination de ces emballages à ses frais.

## 5. Réserve d'approvisionnement par nos fournisseurs

Nous sommes autorisés à différer et/ou à annuler notre obligation de livraison telle que mentionnée aux présentes lorsque nos propres fournisseurs ne nous livrent pas en temps voulu ou ne nous livrent pas correctement, sans que nous puissions en être tenus pour responsables.

## 6. Garantie des vices

- 6.1 L'acheteur s'oblige à vérifier immédiatement la marchandise après la livraison et à envoyer une réclamation écrite dans les plus brefs délais signalant les vices éventuellement constatés. Les vices cachés seront signalés par une lettre de réclamation immédiatement après leur découverte.
- 6.2 Aussi longtemps que le problème ne sera pas réglé, l'acheteur s'interdira de procéder à la transformation de la marchandise incriminée. Il devra nous donner la possibilité d'examiner la marchandise sur place. Par ailleurs, sur demande de notre part, l'acheteur devra nous renvoyer la marchandise objet de la réclamation.
- 6.3 Les échantillons de la marchandise remis à l'acheteur sont des échantillons fournis à titre d'information et de référence. Leur délivrance nous autorise toujours à livrer en tenant compte des tolérances admises habituellement dans le commerce.
- 6.4 En cas de défauts matériels détectés sur la marchandise, le choix nous reviendra de réparer ledit défaut ou de livrer une marchandise de remplacement en parfait état, si tant est que le défaut matériel ait été présent au moment du transfert des risques. Si la réparation échoue, l'acheteur pourra réduire le prix ou se désister du contrat, sans préjudice des droits éventuels aux dommages et intérêts cités au paragraphe 9. Nous prenons en charge les frais nécessaires à l'élimination du défaut, notamment les frais de transport, de déplacement, de main d'œuvre et de matériel, si tant est que lesdits frais ne soient pas augmentés par le fait que la marchandise a été transportée ultérieurement dans un autre endroit que le lieu d'établissement de l'acheteur, à l'exception des cas où ledit déplacement correspond à l'usage auquel la marchandise est destinée.
- 6.5 L'acheteur ne pourra se prévaloir de droits légaux au recours suivant les articles 478 et 479 du Code Civil allemand que s'il n'a pas conclu avec son client d'accords allant au-delà des droits légaux nés de la constatation de défauts matériels. D'autre part, les droits au recours de l'acheteur à notre encontre seront limités au montant du prix d'achat.
- 6.6 Les prétentions de l'acheteur pour cause de défauts matériels seront nulles et non avenues si le défaut résulte d'un manquement aux consignes de manœuvre, de maintenance et de montage, de l'usage inapproprié ou incorrect de la marchandise, d'un traitement impropre ou négligent et de l'usure naturelle, ou encore d'interventions opérées par l'acheteur ou par des tiers sur la marchandise livrée.
- 6.7 La prescription des revendications pour vices est de 24 mois, à dater du transfert des risques.
- 6.8 Les pièces défectueuses seront mises immédiatement à notre disposition sur notre demande et à nos frais.

## 7. Modalités de paiement

- 7.1 Sauf accord particulier, nos factures sont payables immédiatement à leur réception, sans déduction aucune.
- 7.2 En cas de retard de paiement de l'acheteur, nous nous réservons le droit d'exiger le paiement d'intérêts de retard d'un montant de 8 % supérieur au taux d'intérêt de base.
- 7.3 L'acheteur n'aura droit à la compensation que dans la mesure où ses contre-prétentions auront acquis force de choses jugées ou si nous les avons reconnues. D'autre part, il ne sera autorisé à l'exercice du droit de rétention que dans la mesure où sa contre-prétention repose sur la même relation contractuelle.
- 7.4 Dans l'hypothèse où plusieurs factures ou créances demeurent impayées, nous nous réservons le droit de définir la chronologie de l'apurement des dettes, sans tenir compte d'une éventuelle disposition différente du client.
- 7.5 Si, après la conclusion du contrat, des circonstances mettant en doute la solvabilité de l'acheteur (éta- bilité selon des critères bancaires habituels) étaient portées à notre connaissance ou si l'acheteur venait à prendre du retard dans les échéances convenues pour le paiement, nous serons en droit, après expiration sans résultat d'un délai supplémentaire raisonnable, d'exiger le paiement anticipé des livraisons en attente ou d'en subordonner l'exécution à la constitution d'une sûreté.

## 8. Réserve de propriété

- 8.1 La marchandise livrée demeure notre propriété jusqu'à satisfaction complète de tous les droits existants découlant des relations commerciales entre l'acheteur et notre Société (marchandise sous réserve de propriété). L'introduction d'une procédure de dépôt de bilan sur le patrimoine de l'acheteur nous autorise au désistement du contrat. En cas de violation des obligations contractuelles de l'acheteur, en particulier en cas de retard de paiement, nous serons autorisés au désistement du contrat et à la reprise de la marchandise sous réserve de propriété ; l'acheteur sera dans l'obligation de restituer la marchandise.

- Le fait que nous reprenions la marchandise ou le fait de faire valoir la réserve de propriété ne nécessite pas un désistement du contrat de notre part. Ces faits ou une saisie de la marchandise sous réserve par notre Société ne constituent pas un désistement du contrat, sauf si nous l'avons expressément signifié.
- 8.2 L'acheteur s'engage à stocker séparément et à identifier la marchandise sous réserve de propriété. Il s'oblige également à prendre soin de cette marchandise. En particulier, il est tenu d'assurer à ses frais la marchandise, pour sa valeur à l'état neuf, contre l'incendie, les dégâts des eaux et le vol. Dans la mesure où des travaux de maintenance et d'entretien seraient nécessaires, l'acheteur s'engage à les effectuer en temps voulu et à ses frais.
- 8.3 L'acheteur n'est pas autorisé à nantir la marchandise sous réserve de propriété, ni à la transférer à titre de sûreté. L'acheteur devra nous informer immédiatement en cas de saisie, de confiscation ou de toute autre disposition ou intervention émanant de tiers.
- 8.4 L'acheteur est autorisé à revendre la marchandise sous réserve de propriété dans le cadre d'opérations commerciales régulières, mais il nous cède d'ores et déjà toutes les créances résultant de la revente de la marchandise en question à ses clients ou à des tiers à hauteur du montant total de la somme due et ce, indépendamment du fait que la marchandise sous réserve de propriété ait été revendue sans ou après transformation. L'acheteur est autorisé à recouvrer cette créance même après la cession, notwithstanding notre pouvoir de recouvrer nous-mêmes ladite créance. Nous nous engageons à ne pas recouvrer la créance pour autant que l'acheteur respecte ses obligations de paiement sur les produits financiers réalisés, qu'il n'est pas en retard de paiement, qu'il n'existe pas de demande d'ouverture d'une procédure de dépôt de bilan ou qu'il n'est pas en état de cessation des paiements. Dans tous les cas cités ci-dessus, nous serons en droit d'exiger que l'acheteur nous fasse connaître les cessions de créances et leurs débiteurs, qu'il nous donne toutes les indications nécessaires à leur recouvrement, qu'il nous fournisse tous les documents correspondants et qu'il informe les débiteurs (tiers) de la cession des créances. L'acheteur procède pour notre compte à l'usinage ou à la transformation de la marchandise sous réserve de propriété sans qu'il en résulte pour nous une obligation quelconque. Si l'acheteur procède à des allages, des mélanges, des incorporations ou des transformations de notre marchandise sous réserve de propriété, nous acquérons de ce fait une copropriété sur la chose nouvelle en résultant, au prorata de la valeur initiale de cette marchandise (montant final de la facture) par rapport aux autres éléments transformés, incorporés, mélangés ou alliés au moment de la réalisation des opérations correspondantes. L'objet résultant de la transformation ou de l'alliage est soumis aux mêmes clauses que la marchandise livrée sous réserve de propriété. Si le mélange ou l'incorporation s'effectue dans une proportion telle que la chose de l'acheteur puisse être considérée comme la chose principale, il est réputé convenu par les présentes que l'acheteur nous en cède la copropriété au prorata. L'acheteur sera le dépositaire pour nous de la propriété exclusive ou de la copropriété ainsi engendrée.
- 8.6 Si la valeur des sûretés qui nous ont été consenties excède nos créances de plus de vingt pour cent (20 %), nous nous engageons, sur demande de l'acheteur, à libérer les sûretés excédentaires selon notre choix.
- 8.7 Dès lors et si tant est que l'enregistrement et/ou la satisfaction d'autres exigences constituent une condition préalable à la validité de la réserve de propriété, l'acheteur sera tenu de procéder immédiatement et à ses frais à tous les actes nécessaires et de faire les communiqués nécessaires. Dans l'hypothèse où le système juridique en vigueur n'autoriserait pas de clause contractuelle de réserve de propriété, l'acheteur faisant usage d'un crédit commercial s'engage à nous fournir d'autres garanties appropriées.

## 9. Autres droits aux dommages et intérêts

- 9.1 Tout droit à indemnisation de l'acheteur est exclu, quel qu'en soit le motif juridique, en particulier pour atteinte aux obligations inhérentes au rapport juridique entre le créancier et le débiteur ou pour acte illicite.
- 9.2 La présente clause ne s'applique pas dès lors que la responsabilité est obligatoire de par la loi, par exemple aux termes de la Loi relative à la garantie implicite du produit, en cas de faute intentionnelle, de négligence grave, d'atteinte à la vie, à l'intégrité du corps ou de la santé, et en cas de manquement à des obligations contractuelles majeures. Le droit aux dommages et intérêts en cas de manquement à des obligations contractuelles majeures sera toutefois limité au dommage prévisible, caractéristique du contrat, si tant est qu'il n'y ait pas eu intention délictueuse ou négligence grave, ou que la responsabilité soit obligatoirement engagée pour atteinte à la vie ou à l'intégrité du corps ou de la santé. Les dispositions susvisées n'emportent pas modification de la charge de la preuve au détriment du client.
- 9.3 Si l'acheteur peut prétendre aux dommages et intérêts aux termes du présent paragraphe 9, ces droits seront prescrits à l'expiration du délai de prescription cité au paragraphe 6.7, en vigueur pour les prétentions résultant du vice de la marchandise, si tant est que des dispositions impératives de la loi ne s'y opposent pas.
- 9.4 Toute exclusion ou limitation de notre responsabilité en matière d'indemnisation s'applique également à la responsabilité personnelle de nos employés, de nos représentants et de nos agents d'exécution.

## 10. Droits des tiers

- 10.1 Dès lors qu'un tiers fait valoir à l'encontre de l'acheteur des droits justifiés pour atteinte à ses droits de propriété industrielle ou droits d'auteur (droits de protection) par des produits que nous avons livrés et qui sont utilisés aux termes du contrat, nous sommes responsables vis-à-vis de l'acheteur dans les conditions suivantes :
- 10.1.1 Le choix nous reviendra, soit d'acquiescer à nos frais un droit d'utilisation pour le produit, soit de modifier le produit de telle sorte qu'il ne porte pas atteinte audit droit de propriété, soit d'échanger le produit. Si ces opérations ne sont pas réalisables à des conditions raisonnables, nous nous engageons à reprendre le produit contre remboursement du prix d'achat.
- 10.1.2 Nos obligations mentionnées ci-dessus ne seront valides que si l'acheteur nous informe immédiatement par écrit des prétentions alléguées par la tierce personne, s'il ne reconnaît pas d'atteinte auxdits droits et si nous toutes mesures de défense et de négociations de conciliation nous sont réservées. Si l'acheteur cesse d'utiliser le produit incriminé dans le but de réduire le préjudice ou pour toute autre raison, il sera tenu d'informer le tiers qu'il ne pourra y avoir reconnaissance d'atteinte au droit de propriété du fait de la cessation de l'utilisation.
- 10.2 Tout droit de l'acheteur sera exclu si la violation des droits de propriété lui est imputable ou si ladite violation est causée par des indications spéciales données par l'acheteur, par une utilisation non prévisible de notre part ou par le fait que l'acheteur utilise le produit après l'avoir modifié ou en association avec des produits qui ne font pas partie de nos livraisons.
- 10.3 Dans les cas cités à l'alinéa 10.2. ci-dessus, l'acheteur ne pourra faire valoir à notre encontre aucun droit de tiers.
- 10.4 Tout autre droit additionnel à faire valoir à notre encontre est exclu ; l'article 9 (Autres droits aux om- mages et intérêts) n'en sera toutefois pas affecté, de même que le droit de l'acheteur à se désister du contrat.
11. **Moyens de fabrication, outillage/outils, équipements de moulage**
- 11.1 Dès lors que l'acheteur met à notre disposition des moyens de fabrication (ex. outils, moulages en coquille, moules ou matrices), ceux-ci nous seront envoyés gratuitement. Notre responsabilité en ce qui concerne leur disparition, leur dégradation ou leur réexpédition incomplète et les dommages en résultant ne pourra être engagée qu'en cas de négligence grave ou de faute intentionnelle. La présente clause ne s'appliquera pas si la responsabilité est obligatoire de par la loi.
- 11.2 Lorsque l'acheteur nous chargera de fabriquer ou d'acheter des moyens (outils) de fabrication, une part des coûts en résultant lui seront facturés séparément. Il en ira de même pour les pièces coulées et pour les outillages complémentaires. Dans le cas où un outil ne serait pas utilisé, l'acheteur prendra à sa charge les coûts non couverts et les coûts des divers équipements spécifiques. Les coûts des modèles seront toujours intégralement à la charge de l'acheteur. Les moyens de fabrication resteront notre propriété. Nous ne serons pas tenus de les restituer à l'acheteur. Il en ira de même des outillages complémentaires.
- 11.3 La transmission à des tiers des dessins (schémas) et des documents que nous remettons à l'acheteur, ainsi que de nos propositions visant à une meilleure conception et de celles concernant la fabrication des pièces n'est pas autorisée et nous serons en droit d'exiger leur restitution à tout moment.

## 12. Lieu d'exécution, juridiction compétente, droit applicable

- 12.1 Le lieu d'exécution des obligations de paiement de l'acheteur est Neckarsulm. Le lieu d'exécution de nos propres obligations est le site de l'usine / de l'entrepôt de livraison.
- 12.2 Tribunal compétent : Heilbronn. Nous sommes également autorisés à assigner l'acheteur devant les tribunaux auxquels il est rattaché en général.
- 12.3 Toutes les relations de droit entre l'acheteur et notre Société sont soumises exclusivement au droit matériel de la République fédérale d'Allemagne, sans recours au droit relatif aux conflits de lois ; la Convention des Nations Unies en matière de contrats pour le commerce international des biens (CISG) n'est pas applicable. La version en vigueur des INCOTERMS sera utilisée pour l'interprétation des clauses relatives à la livraison.

## 13. Nullité partielle

13. La nullité juridique de certaines des clauses des présentes Conditions de Vente et de Livraison n'affectera pas les autres clauses qui demeureront pleinement valides et applicables.

## 14. Enregistrement des données

14. Les données nécessaires au suivi des affaires sont enregistrées et, dans le cadre du traitement des commandes, éventuellement transmises à des tiers. Toutes les données personnelles sont, bien entendu, traitées sous le sceau de la confidentialité, conformément aux dispositions de la Loi allemande Informatique et Libertés.

# Condiciones de venta y entrega

1. **Adjudicación del pedido, condiciones especiales**
  - 1.1 Los suministros y la prestación de servicios se efectúan exclusivamente conforme a las condiciones relacionadas a continuación, y conforme a las condiciones especiales comunicadas al comprador.
  - 1.2 Las condiciones generales expresadas por el comprador serán válidas sólo en caso de confirmación expresa por escrito. Ni la omisión de oposición ni la ejecución del suministro o la prestación de servicios constituyen una aceptación de condiciones comerciales de terceros.
2. **Oferta y documentación referente a la oferta**
  - 2.1 En tanto no se exprese lo contrario en la confirmación de pedido, nuestra oferta es sin compromiso.
  - 2.2 Nos reservamos derechos de propiedad y de autor respecto a ilustraciones, dibujos y demás documentos entregados al comprador, que no deberán emplearse para fines diferentes de los indicados por el proveedor, ni podrán ser entregados ni hechos accesibles a terceros. Lo anterior vale sólo para toda documentación escrita, marcada como "confidencial". Antes de entregar dicha documentación a terceros, el comprador deberá obtener nuestra autorización expresa, por escrito.
  - 2.3 Los datos en ilustraciones, dibujos, catálogos y demás documentos son sin compromiso.
  - 2.4 Para el contenido y el alcance del contrato de suministro es determinante nuestra confirmación del pedido por escrito. Para la comunicación por teletransmisión de datos bastará la forma escrita.
3. **Precios**
  - 3.1 Nuestros precios se entienden franco fábrica/almacén, sin el embalaje, más el impuesto sobre el valor añadido (IVA) vigente en cada caso en el momento de la facturación.
  - 3.2 Nos reservamos el derecho de modificar los precios si, después de concluido el contrato, se producen disminuciones o incrementos de los costes, debidos especialmente a convenios colectivos o modificaciones en los precios de los materiales. Dichas modificaciones podrán ser acreditadas ante el comprador, si así lo solicita.
4. **Entrega**
  - 4.1 El cumplimiento de los plazos acordados para las entregas presupone el recibo a tiempo oportuno de toda la documentación a proporcionar por el comprador, los permisos y autorizaciones necesarios, sobre todo en lo que concierne a planos, así como la observancia por parte del comprador de las condiciones de pago acordadas y demás obligaciones que le correspondan. Si dichas condiciones no son cumplidas a su debido tiempo, se prolongarán de forma adecuada los plazos del proveedor; lo anterior no es aplicable si la demora es atribuible al proveedor.
  - 4.2 Casos de fuerza mayor, huelgas u otros conflictos laborales, disturbios, medidas tomadas por las autoridades, carencia de suministros a recibir de nuestros subproveedores y demás sucesos imprevisibles, inevitables y graves exoneran a las partes contratantes de sus obligaciones de entrega por el plazo y en la medida en que tales perturbaciones influyan en el proceso. Lo anterior vale también si dichos sucesos se producen en un momento en que la parte contratante afectada se encuentre en demora. Dentro del marco de lo exigible, las partes contratantes se comprometen a proporcionar sin demora las informaciones necesarias y a adaptar sus obligaciones, de buena fe, a las nuevas circunstancias.
  - 4.3 Quedan excluidos los derechos de indemnización por daños y perjuicios del comprador frente a nosotros por demora de la prestación en todos los casos de demora en la entrega, también después de la expiración de un plazo que nos haya sido impuesto eventualmente para la entrega. Esto no será válido en casos de responsabilidad forzosa por conducta dolosa o negligencia grave o en lo que concierne a daños personales que afecten a la integridad física y la salud; ello no supone una modificación del mérito probatorio en perjuicio del comprador. El derecho legal de rescisión del contrato por parte del comprador no se ve afectado. El comprador sólo podrá rescindir el contrato en el marco de las disposiciones legales en caso que la demora en la entrega nos sea imputable.
  - 4.4 Se permiten las entregas parciales. En caso de demora de una entrega parcial, el comprador no podrá hacer valer derechos respecto a la cantidad restante, a menos que el cumplimiento parcial carezca de interés para él.
  - 4.5 A menos que, en ciertos casos, se haya convenido otra cosa, los suministros se efectúan franco fábrica/almacén. En el momento en que se comunica al comprador que la mercancía está lista para el envío, o a más tardar cuando la mercancía salga de la fábrica/del almacén, el riesgo pasa al comprador. Lo anterior rige también cuando el proveedor se encarga de efectuar el transporte. Un seguro de transporte se suscribe sólo por convenio especial, y por cuenta del comprador.
  - 4.6 No se aceptará la devolución de embalajes de transporte y demás embalajes no retornables. El comprador está obligado a proveer la eliminación de los embalajes por cuenta propia.
5. **Abastecimiento propio**

En caso de falta de abastecimiento propio correcto o en tiempo oportuno por parte del presuministrador debido a causas que no sean imputables al proveedor, éste estará autorizado a aplazar y/o a anular la obligación de suministro correspondiente.
6. **Garantía / responsabilidad debida a defectos materiales**
  - 6.1 El comprador deberá examinar la mercancía inmediatamente al recibirla, reclamando sin dilación por escrito cualquier defecto detectado. Los defectos ocultos deberán ser comunicados sin dilación alguna tan pronto se descubran.
  - 6.2 La mercancía defectuosa no deberá ser utilizada en tanto no se aclare la reclamación. Deberá concederse al proveedor oportunidad para examinar sobre el terreno los defectos reclamados. Asimismo, si el proveedor así lo solicita, deberá devuelta la mercancía objeto del reclamo.
  - 6.3 Las muestras de la mercancía entregadas al comprador son muestras de orientación o muestras de prueba. En todo caso, con su entrega el proveedor quedará autorizado, ahora como antes, a efectuar el suministro conforme a las tolerancias usuales en el mercado.
  - 6.4 En caso de defectos materiales eliminaremos el defecto o suministraremos una mercancía libre de defectos, a nuestra elección, siempre y cuando el defecto material existiese en el momento de la transferencia de riesgos. Si el cumplimiento posterior fracasara, el comprador podrá – sin perjuicio de eventuales derechos de indemnización por daños y perjuicios según el numeral 9 – reducir el pago o rescindir el contrato. Están excluidos derechos de indemnización del comprador relacionados con gastos necesarios debido al cumplimiento posterior, en particular gastos de transporte, desplazamientos, mano de obra y material, en tanto los costes aumenten debido a que el objeto del suministro ha sido llevado posteriormente a un lugar distinto al de la sede del comprador, a no ser que el traslado responda a su uso previsto.
  - 6.5 Sólo existen derechos legales de regreso del comprador según la legislación alemana, art. 478 y 479 del código civil alemán, en tanto el comprador no haya establecido con su cliente ningún acuerdo que rebase los límites de los derechos de reclamación por defectos fijados por la ley. Además, el comprador sólo tiene derechos de regreso frente a nosotros hasta el importe correspondiente al precio de compra.
  - 6.6 No se generarán derechos del comprador por defectos materiales si el defecto se debe al incumplimiento de prescripciones para el manejo, mantenimiento y montaje, a utilización inadecuada o indebida, al uso erróneo o negligente y a desgaste natural, así como a manipulaciones realizadas por el comprador o por terceros en la mercancía.
  - 6.7 Los derechos de reclamación por defectos caducan a los 24 meses, a contar desde el momento del traspaso del riesgo.
  - 6.8 A petición nuestra y a nuestro cargo se pondrán a nuestra disposición sin dilación las piezas defectuosas.
7. **Condiciones de pago**
  - 7.1 A menos que se haya convenido otra cosa, nuestras facturas serán pagadas sin descuento a la recepción de las mismas.
  - 7.2 Si el comprador se retrasa en el pago, estaremos autorizados a facturar intereses de demora por valor del 8% sobre el tipo básico de interés.
  - 7.3 El comprador sólo podrá hacer valer derechos compensatorios cuando sus contrapretensiones hayan adquirido firmeza legal o hayan sido reconocidas por el proveedor. Podrá, además, ejercitar su derecho de retención en tanto su contrapretensión resulte de la misma relación contractual.
  - 7.4 Si hay varias facturas o créditos pendientes, el proveedor tendrá derecho a determinar el orden de la amortización, a pesar de una estipulación discrepante por parte del cliente.
  - 7.5 Si después de la conclusión del contrato llegan a nuestro conocimiento circunstancias que pongan en duda la solvencia del comprador sobre la base de criterios aplicados usualmente por el sector bancario, o si el comprador se demora en el pago conforme a los plazos convenidos, tras expirar una prórroga razonable podremos hacer depender la ejecución de suministros pendientes de un pago por adelantado o de la prestación de garantías.
8. **Reserva de dominio**
  - 8.1 La mercancía suministrada quedará propiedad del proveedor hasta que se hayan cumplido todas las pretensiones actuales resultantes de la relación comercial existente entre el comprador y nuestra empresa (mercancía bajo reserva de dominio). En caso de iniciación de un proceso de insolvencia relativo al patrimonio del comprador, nos reservamos el derecho de rescisión. En caso de incumplimiento del contrato por parte del comprador, y en especial en caso de retraso en el pago, el proveedor tendrá derecho a rescindir el contrato y a retirar la mercancía; el comprador está obligado a su entrega. La retirada de la mercancía o respectivamente la reivindicación de la reserva de dominio hecha por el proveedor no exige rescisión del contrato por nuestra parte. Estos actos o una pignoración por nuestra parte de la mercancía sujeta a reserva de dominio no significa rescisión del contrato por nuestra parte, a no ser que lo hayamos declarado así expresamente.
  - 8.2 El comprador está obligado a marcar y a almacenar por separado la mercancía bajo reserva. Se obliga, además, a tratar dicha mercancía con el debido cuidado. En especial, queda obligado a asegurarla a su cargo contra incendios, daños causados por el agua y contra robo por el valor de nuevo. En tanto sean

- 8.3 necesarios trabajos de mantenimiento e inspección, el comprador deberá efectuarlos oportunamente, por su propia cuenta y a su cargo.
- 8.3 El comprador no podrá pignorar ni transferir a título de garantía la mercancía bajo reserva de dominio. El comprador deberá comunicar al proveedor, sin dilación alguna, cualquier caso de embargo, prendaciones o demás actos de disposición o intervenciones de terceros.
- 8.4 El comprador podrá revender la mercancía bajo reserva de dominio dentro del marco de las prácticas comerciales reglamentarias. No obstante, desde este momento cederá a favor del proveedor todos los cobros pendientes por el valor del importe final de la factura equivalente a nuestro crédito, resultante de la enajenación frente a adquirentes o terceros, independientemente de si la mercancía bajo reserva de dominio sea vendida antes o después de haber sido transformada. El comprador quedará facultado para recaudar esta deuda incluso después de la cesión, sin perjuicio de nuestro derecho a cobrar nosotros mismos la deuda. Nos obligamos a no cobrar la deuda en tanto el comprador satisfaga sus obligaciones de pago resultantes de los ingresos, no se retrase en el pago, no se haya solicitado la apertura de un proceso de insolvencia o no haya sido declarada una suspensión de pagos. En todos estos casos podremos exigir que el comprador nos informe de las cesiones de créditos con indicación de los deudores, nos comunique todos los datos necesarios para el cobro, nos entregue todos los documentos relacionados con los mismos e informe a los deudores (terceros) de la cesión.
- 8.5 El comprador manipulará o transformará para nosotros la mercancía bajo reserva de dominio, sin que por ello emane ninguna obligación para nosotros. Si el comprador combina, mezcla, incorpora o transforma nuestras mercancías bajo reserva de dominio, adquiriremos la copropiedad del nuevo objeto, en relación al valor de la mercancía bajo reserva (importe final de la factura) respecto a los demás objetos combinados, mezclados, incorporados o transformados, en el momento en que se haya efectuado la transformación, la incorporación, la mezcla o la combinación. Sobre el objeto logrado mediante la transformación o incorporación rige, además, lo mismo que para la mercancía suministrada bajo reserva. En caso que la mezcla o incorporación sea efectuada de forma que el objeto del comprador se considere como objeto principal, se acuerda desde ahora que el comprador nos transferirá la copropiedad de forma proporcional. El comprador se encargará de custodiar para nosotros la propiedad exclusiva o la copropiedad.
- 8.6 En caso que el valor de las garantías entregadas exceda del valor de nuestros créditos en total en más de un 20%, a solicitud del comprador quedaremos obligados a liberar, a nuestra elección, el exceso de las garantías.
- 8.7 En la medida que el registro y/o el cumplimiento de otras exigencias sea requisito para la efectividad de la reserva de dominio, el comprador se obligará a emprender y a efectuar inmediatamente y por su propia cuenta todas las acciones y comunicaciones necesarias. En caso que la legislación vigente no permita el acuerdo de reserva de dominio, el comprador proporcionará al proveedor otras garantías adecuadas al utilizar créditos comerciales.
9. **Otros derechos de indemnización por daños y perjuicios**
  - 9.1 Quedan excluidas las pretensiones de indemnización por daños y perjuicios del comprador, sea cual fuere su causa justificativa, y en especial por infracción de obligaciones emanadas del derecho de crédito o de acción ilícita.
  - 9.2 Lo anterior no vale en caso de responsabilidad forzosa, por ejemplo en relación con la ley de responsabilidad debida a productos defectuosos, en casos de dolo o negligencia grave, de lesiones físicas y perjuicios para la salud o por incumplimiento de obligaciones importantes establecidas por el contrato. El derecho a indemnización por daños y perjuicios derivado de infracciones importantes del contrato se limita, sin embargo, a daños típicos del contrato y previsible, en tanto no se nos pueda atribuir ningún incumplimiento doloso o gravemente negligente del contrato o exista la responsabilidad por daños para la integridad física y la salud. Las anteriores reglamentaciones no suponen modificación del mérito probatorio en perjuicio del comprador.
  - 9.3 En tanto correspondan al comprador derechos de indemnización conforme al presente numeral 9, los mismos caducarán al expirar el plazo de validez para derechos de indemnización por defectos materiales estipulado en 6.7, siempre y cuando ello no se oponga a disposiciones legales de obligado cumplimiento. La exclusión o la limitación de la responsabilidad por daños y perjuicios respecto al proveedor vale también en lo relativo a responsabilidad personal por daños y perjuicios imputable a nuestros empleados, representantes y auxiliares ejecutivos.
10. **Derechos de terceros**
  - 10.1 En caso que una tercera persona formule contra el comprador reclamaciones justificadas debido a violación de un derecho de propiedad industrial o de un derecho intelectual (derechos protegidos) ocasionada por los productos que hemos suministrado y que hayan sido utilizados conforme a las estipulaciones del contrato, responderemos frente al comprador de la forma relacionada a continuación:
    - 10.1.1 Podremos elegir entre obtener, por nuestra cuenta, un derecho de uso para el producto, o bien modificarlo de forma que no ocasione violación del derecho protegido, o bien sustituir el producto. Si ello fuera imposible en condiciones razonables, readmitiremos el producto contra reembolso del precio de compra.
    - 10.1.2 Las obligaciones arriba mencionadas del proveedor sólo existen cuando el comprador nos haya notificado por escrito y sin dilación alguna las reclamaciones formuladas por un tercero, no haya admitido la violación y nos queden reservadas todas las medidas de defensa y los actos transaccionales. En caso que el comprador, por motivos referentes a disminuir daños, o por otros motivos importantes, renuncie a la utilización del producto, quedará obligado a indicar frente al tercero que la renuncia a la utilización no supone ningún reconocimiento de una violación de un derecho protegido.
  - 10.2 Quedan excluidas las pretensiones del comprador en tanto le sea imputable la violación del derecho protegido o en tanto las violaciones de dicho derecho hayan sido ocasionadas o por indicaciones específicas del comprador o por una aplicación no previsible por nosotros, o que hayan sido ocasionadas por el hecho de que el comprador haya modificado el producto o lo haya utilizado junto con otros productos diferentes de los que le hemos suministrado.
  - 10.3 En lo referente a los casos enunciados en el numeral 10.2, el comprador se obliga a eximirnos de las reclamaciones de terceros.
  - 10.4 Quedan excluidas todas las demás pretensiones contra nosotros; asimismo queda intacto el numeral 9 (Otros derechos de indemnización por daños y perjuicios), al igual que el derecho del comprador a rescisión del contrato.
  - 10.5 En caso de existir cualesquiera otros defectos de índole jurídica, rige lo dispuesto en el numeral 6.
11. **Elementos de producción, herramientas, moldes**
  - 11.1 En caso que el comprador nos suministre elementos de producción (tales como herramientas, coquillas, moldes o matrices), dichos elementos nos deberán ser enviados sin coste alguno para nosotros. No asumiremos ninguna responsabilidad por pérdida, desgaste, deterioro o devolución incompleta y los daños resultantes de la misma. Asumiremos responsabilidad sólo en caso de negligencia grave o dolo. Lo anterior no rige en caso de responsabilidad forzosa prescrita por la ley.
  - 11.2 En caso de fabricación o adquisición de elementos de producción por encargo del comprador, los costes se facturarán aparte y de forma proporcional; en caso de piezas de fundición, también para útiles sucesionales. Si uno de dichos útiles no fuera utilizado, el comprador asumirá los gastos no cubiertos, incluso de los demás dispositivos a ello vinculados. En todo caso, los costes de los modelos o prototipos correrán, en su totalidad, de cuenta del comprador. El proveedor conservará plena propiedad de los elementos de fabricación, sin que exista ninguna obligación de entregarlos al comprador. Lo anterior se aplica también a los útiles sucesionales.
  - 11.3 Queda prohibido entregar a terceros los dibujos y la documentación entregada al comprador, así como las propuestas hechas por el proveedor para el desarrollo adecuada y la fabricación de las piezas; el proveedor tendrá derecho a exigir la devolución de la documentación en todo momento.
12. **Lugar de cumplimiento, jurisdicción, derecho aplicable**
  - 12.1 El lugar de cumplimiento para la obligación de pago contraída por el comprador es Neckarsulm; para las obligaciones contraídas por nosotros, el lugar de cumplimiento es el lugar donde está ubicada nuestra fábrica/almacén de suministro.
  - 12.2 Lugar de jurisdicción es Heilbronn. Sin embargo, el proveedor podrá recurrir también a los Tribunales del domicilio social del comprador.
  - 12.3 Para todas las relaciones jurídicas entre el comprador y nosotros será de aplicación el derecho material de la República Federal de Alemania, con exclusión del derecho de colisión; no encuentra aplicación el acuerdo de las Naciones Unidas sobre Contratos referentes a la Compra Internacional de Mercancías (CISG). Para la interpretación de las cláusulas sobre entrega rigen los INCOTERMS vigentes en cada momento.
  - 12.4 Los términos y condiciones aquí descritos han sido preparados y proporcionados en lengua española solamente para la conveniencia de las partes. La versión en lengua alemana de estos es definitiva, en caso de existir alguna inconsistencia en los diferentes significados entre la versión en lengua española y la versión en lengua alemana, la versión en lengua alemana prevalecerá sobre la versión española excluyéndola.
13. **Nulidad parcial**

La nulidad legal de una o más disposiciones de estas condiciones no afecta la validez de las disposiciones restantes.
14. **Almacenamiento de datos**

Los datos necesarios para la realización de la operación serán almacenados y comunicados a terceros en el marco de la tramitación del pedido, en caso necesario. Todos los datos referidos a personas recibirán naturalmente un trato confidencial de conformidad con lo dictado por las leyes concernientes a la protección de datos personales.

# Условия продажи и поставки

## 1. Предоставление заказа: особые условия

1.1 Мы осуществляем поставки и предоставляем свои услуги исключительно на нижеследующих условиях и возможных особых условиях, с которыми заказчик будет ознакомлен.

1.2 Общие условия заказчика действуют только в случае однозначного письменного подтверждения. Ни отсутствие возражения с нашей стороны, ни выполнение поставок или предоставление услуг не являются признанием сторонних условий заключения коммерческих сделок.

## 2. Предложение: тендерные документы

2.1 Наше предложение является свободным от обязательств, если противное не вытекает из подтверждения заказа.

2.2 Мы сохраняем за собой право собственности и авторские права на рисунки, чертежи и других документы, предоставляемые заказчику. Заказчик не имеет права использовать их в любых целях, кроме указанных нами, и предоставлять доступ к ним третьим лицам. Это особенно касается письменных документов с пометкой «секретно». Для передачи таких документов третьим лицам заказчику требуется наше однозначное письменное согласие.

2.3 Все данные, содержащиеся в каталогах, иллюстрациях, чертежах и прочих документах, являющиеся свободными от обязательств.

2.4 В отношении содержания и объема договора поставки определяющим является наше письменное подтверждение заказа. При этом письменный договор действителен даже в том случае, если он был передан при помощи средств телекоммуникации.

## 3. Цены

3.1 Цена товара определяется стоимостью товара, установленной заводом или складом, стоимостью упаковки и действующим на момент выставления счета налогом на добавленную стоимость (НДС), установленным законом.

3.2 Мы сохраняем за собой право на изменение цен в связи со снижением или увеличением издержек после заключения договора, в частности, в связи с вступлением в силу тарифных соглашений или изменением цен на материалы. Соответствующие доказательства будут предоставлены по требованию заказчика.

## 4. Поставка

4.1 Соблюдение договорных сроков поставок предполагает своевременное поступление всех предоставляемых заказчиком документов, необходимых разрешений и подтверждений, в частности, подтверждений расчетов, а также соблюдение заказчиком договорных условий платежа и прочих обязательств. При невыполнении данных условий сроки поставки будут продлены соответствующим образом. Данное положение не действует в случаях, когда задержка происходит по нашей вине.

4.2 Форс-мажорные обстоятельства, забастовки, беспорядки, административные меры, отсутствие поставки товара субпоставщиками и прочие непредвиденные, неотвратимые и весомые обстоятельства освобождают стороны договора от выполнения своих обязательств на срок действия препятствующих обстоятельств события и в объеме их действия. Данное положение не действительно, если такие обстоятельства наступают в тот момент времени, когда сторона договора, пострадавшая от их действия, уже просрочила выполнение своих обязательств. Стороны договора обязаны по возможности незамедлительно предоставить необходимую информацию и согласовать свои обязательства с учетом изменившихся обстоятельств в соответствии с торговыми традициями.

4.3 Требования заказчика о возмещении ущерба в связи с задержкой выполнения поставки, в том числе по истечению назначенного нам срока поставки, не рассматриваются. Данное положение не действительно в случае умышленного нанесения вреда или преступной небрежности. За причинение ущерба жизни и здоровью и нанесение телесных повреждений предусматривается обязательная ответственность, не влекущая за собой изменение бремени доказывания не в пользу заказчика. Установленное законом право заказчика на отказ от договора сохраняется. В рамках существующего законодательства заказчик может отказаться от договора только в том случае, если задержка поставки произошла по нашей вине.

4.4 Допускается осуществление частичных поставок. При задержке частичной поставки заказчик не может предъявлять права в отношении остальной части поставки за исключением тех случаев, когда частичная поставка не представляет для него интереса.

4.5 Поставки осуществляются с завода или склада поставщика, если иное не было оговорено отдельно. Риск утраты или повреждения товара переходит на заказчика с момента уведомления о готовности к отгрузке и не позднее момента вывоза товара за пределы завода или склада. Данное положение действительно и в том случае, если транспортировку осуществляем мы. Транспортировочное страхование осуществляется только на основании отдельного соглашения за счет заказчика.

4.6 Разовая тара назад не принимается. Заказчик обязан утилизировать ее за собственный счет.

## 5. Поставка товаров субпоставщиками

Мы имеем право на отсрочку и/или отмену выполнения обязательств по поставкам в случае несвоевременной или неправильной поставки товара субпоставщиками без нашей вины.

## 6. Ответственность за дефекты, обнаруженные в товаре

6.1 После получения товара заказчик обязан незамедлительно осмотреть товар на предмет наличия дефектов и заявить о них в письменном виде. Заказчик должен подать письменное заявление о скрытых дефектах непосредственно после их обнаружения.

6.2 До принятия решения относительно предъявленной рекламации рекламационный товар не разрешается подвергать дальнейшей обработке. Нам должна быть предоставлена возможность проверить рекламационный товар на месте. Тем не менее, заказчик обязан передать нам рекламационный товар по требованию.

6.3 Образцы товара предоставляются заказчику для его информирования и ознакомления с товаром. Их предоставление не отнимает у нас право на поставку в соответствии с принципами терпимости, принятыми в торговых отношениях.

6.4 В случае обнаружения дефектов товара мы, по своему усмотрению, либо устраним дефект, либо заменим его товаром, не имеющим дефектов, если повреждение товара произошло до момента перехода рисков. Если устраним дефекты или заменить товар не возможно, заказчик имеет право – несмотря на пункт 9, описывающий возможные претензии на возмещение ущерба – уменьшить оплату за товар или отказаться от договора. Требования на возмещение издержек, связанных с устранением дефекта или заменой товара, в частности, транспортные, дорожные расходы, стоимость рабочей силы и сырья и материалов, исключены, если повышение издержек связано с перевозкой товара в иное место, чем местонахождение заказчика, за исключением тех случаев, когда такая перевозка связана с применением товара по назначению.

6.5 Заказчик имеет законное право предъявить регрессный иск на основании статей 478 и 479 4 ГК только в том случае, если заказчик не заключил со своим покупателем соглашений, выходящих за рамки законных претензий по качеству. Размер регрессных требований заказчика к нам не может превышать покупной цены товара.

6.6 Претензии по качеству не могут предъявляться в том случае, если дефект вызван нарушением рекомендаций по эксплуатации, техническому обслуживанию и монтажу, неподходящим или некавалифицированным применением, неправильным или небрежным обращением и естественным износом, а также вмешательством заказчика или третьих лиц в предмет поставки.

6.7 Срок предъявления претензий по качеству составляет 24 месяца начиная с даты перехода рисков.

6.8 Дефектные детали должны быть возвращены нам по требованию. При этом заказчик не несет расходов.

## 7. Условия оплаты

7.1 При отсутствии особой договоренности наши счета подлежат полной оплате при получении товара.

7.2 При задержании оплаты заказчиком мы имеем право начислить пени за просрочку в размере 8 % сверх базовой процентной ставки.

7.3 Право на взаимный зачет встречных требований заказчик имеет только тогда, когда его встречные требования установлены в законном порядке или признаны нами. Кроме того, данное право действительно только в том случае, если встречное требование заказчика основывается том же договорном отношении.

7.4 При наличии нескольких непоплаченных счетов или долговых обязательств мы, несмотря на возможное отличное от нашего желание заказчика, имеем право определять последовательность оплаты.

7.5 Если после заключения договора нам станут известны обстоятельства, вызывающие (на основе общепринятых банковских критериев) сомнения в платежеспособности заказчика, или если заказчик не произведет платежей в течение договорных сроков, после безрезультатного истечения уместного дополнительного срока мы имеем право производить невыполненные поставки или выполнять гарантийные обязательства только после предварительной оплаты.

## 8. Оговорка о сохранении права собственности на товар до полной оплаты его стоимости

8.1 Поставленный товар остается нашей собственностью до выполнения всех действующих требований и деловых отношениях между заказчиком и нами (товар с оговоркой о сохранении права собственности на товар до полной оплаты его стоимости). В случае возбуждения дела о неплатежеспособности заказчика мы сохраняем за собой право на отказ от договора. В случае нарушений обязательств заказчика, в частности, при просрочке платежа, мы имеем право на отказ от договора и возврат товара; при этом заказчик обязан выдать товар. Возврат товара или сохранение права собственности на товар до полной оплаты его стоимости не требует с нашей стороны отказа от договора. Данные действия и наложение ареста на товар, в отношении которого применено положение о сохранении права собственности до полной оплаты, не означают отказа от договора, если противное не было однозначно объявлено нами.

8.2 Заказчик обязан отдельно хранить и обозначать товар, являющийся собственностью продавца до полной оплаты его стоимости. Заказчик обязан аккуратно обращаться с таким товаром; в частности, он обязан застраховать его за свой собственный счет от ущерба в результате пожара, наводнения и кражи на сумму восстановительной стоимости товара. Технический осмотр и обслуживание товара должно производиться своевременно за счет заказчика.

8.3 Заказчик не имеет права ни отдавать в залог, ни передавать другому лицу в качестве гарантии право собственности на товар, являющийся собственностью продавца до полной оплаты его стоимости. В случае ареста, конфискации или прочих распродаж или вмешательства третьих лиц заказчик должен незамедлительно поставить нас в известность.

8.4 Заказчик имеет право продавать дальше в надлежащем порядке товар, являющийся собственностью продавца до полной оплаты его стоимости; однако при этом он уступает нас все требования (в размере конечной суммы нашего требования), которые возникают из перепродажи по отношению к его покупателям или третьим лицам, независимо от того, продан ли такой товар без переработки или после нее. После уступки заказчик сохраняет право на взыскание этого требования. Это не затрагивает наше право самим взыскивать это требование. Мы обязуемся не взыскивать это требование до тех пор, пока заказчик выполняет свои обязательства по платежам из полученных доходов, не просрочивает платежи, не подает заявление о неплатежеспособности или не наблюдается прекращение платежей. Во всех вышеперечисленных случаях мы имеем право требовать предоставления сведений обо всех требованиях и должниках, а также других сведений, необходимых для взыскания, а также передачи соответствующих документов и информирования должников (третьих лиц) об уступке права требования.

8.5 Заказчик осуществляет по нашему требованию переработку или обработку товара, являющегося нашей собственностью до полной оплаты стоимости, что не влечет за собой дополнительных обязательств с нашей стороны. При соединении, смешении, переконпоновке или переработке товара, являющегося нашей собственностью до полной оплаты стоимости, мы приобретаем право долевой собственности на новое имущество в пропорции, равной отношению стоимости товара, являющегося нашей собственностью до полной оплаты стоимости (конечная сумма счета), к стоимости других переработанных, смешанных или соединенных товаров на момент переработки, смешивания или соединения. В отношении имущества, возникшего в результате переработки или соединения, в остальном действует то же положение, что и в отношении товара, поставленного с оговоркой о сохранении продавцом права собственности на товар до полной оплаты его стоимости. Если смешивание происходит таким образом, что имущество заказчика можно рассматривать как основное, то передача нам права долевой собственности считается согласованной. Заказчик хранит для нас возникшую таким образом единоличную или долевую собственность.

8.6 Если стоимость предоставленной нам гарантии превышает стоимость наших требований в общем на более чем 20 %, то мы можем по требованию заказчика уменьшить чрезмерную сумму гарантии. При этом право принятия такого решения остается за нами.

8.7 Если условием действительности оговорки о сохранении продавцом права собственности на товар до полной оплаты его стоимости является регистрация и/или выполнение иных требований, то заказчик обязан за свой счет незамедлительно предпринять все необходимые для этого действия и сделать все необходимые сообщения. Если совокупность важных правовых норм не допускает договоренности о сохранении за продавцом права собственности на товар до полной оплаты его стоимости, заказчик обязан предоставить нам другие уместные гарантии при получении товарного кредита.

## 9. Прочие требования о возмещении ущерба

9.1 Требования заказчика о возмещении ущерба, не зависимо от их правового основания, в частности, в связи с нарушением обязательств, вытекающих из правовых отношений между кредитором и должником или другим недозволенным действием, исключаются.

9.2 Данное положение не действительно, если за такие действия законом устанавливается обязательная ответственность, например, в соответствии с законом о качестве продукции, в случае умышленного нанесения вреда или преступной небрежности, за причинение ущерба жизни и здоровью, нанесение телесных повреждений, за нарушение важных договорных обязательств. Требование о возмещении ущерба за нарушение важных договорных обязательств ограничивается, однако, обычным для договоров предвидимым ущербом, кроме тех случаев, когда имеет место умышленное нанесение вреда или преступная небрежность, или установлена ответственность за причинение ущерба жизни и здоровью, а также нанесение телесных повреждений. Изменение бремени доказывания не в пользу заказчика с вышеперечисленными условиями не связано.

9.3 Заказчик теряет право на предъявление требований на основании настоящего раздела 9, по истечению действующего в отношении претензий по качеству срока давности, указанному в разделе 6.7, если это не противоречит положениям действующего законодательства.

9.4 Насколько наша ответственность по возмещению ущерба исключена или ограничена, настолько данное положение это относится и к личной ответственности наших сотрудников, представителей и доверенных лиц.

## 10. Права третьих лиц

10.1 Если третье лицо выставляет заказчику справедливую претензию в связи с нарушением его прав на промышленную собственность или авторских прав (права на защиту результатов умственного труда) поставленным нами и используемым в соответствии с договором товаром, то мы несем следующую ответственность перед заказчиком.

10.1.1 Мы по собственному выбору за свой счет либо приобретем право использования товара, либо изменим товар таким образом, что право на промышленную собственность не будет нарушено, либо заменим товар. Если это не будет возможно на разумных условиях, мы обязаны забрать продукт назад с возмещением продажной цены.

10.1.2 Вышеуказанные обязательства действительны только в том случае, если заказчик незамедлительно письменно уведомляет нас о предъявленных к нему третьим лицом требованиям, не признает нарушения и сохраняет за нами право на принятие всех мер по защите прав и проведение переговоров с целью достижения мирового соглашения. Если заказчик приостанавливает использование продукта с целью ограничения ущерба или по другим важным причинам, он обязан указать третьему лицу на то, что приостановка использования не связана с признанием нарушения его прав на промышленную собственность.

10.2 Требования заказчика исключены, если нарушение прав на промышленную собственность произошло по его вине или если эти нарушения вызваны выполнением заказчиком государственного задания, непредвиденным нами использованием товара, изменением товара заказчиком или использованием его совместно с товарами, которые не были предоставлены нами.

10.3 В случаях, указанных в пункте 10.2, заказчик освобождает нас от требований со стороны третьих лиц.

10.4 Более широкие требования к нам исключаются. Тем не менее, данное положение не влияет ни на пункт 9 («Прочие требования о возмещении ущерба»), ни на право заказчика на отказ от договора.

10.5 При наличии прочих правовых расхождений действуют положения, указанные в разделе 6.

## 11. Технологическая оснастка, инструменты, формовочный инструмент

11.1 Если заказчик предоставляет в наше распоряжение технологическую оснастку (например, инструменты, кокилы, формы или штампы), то они должны поставяться бесплатно. Мы не берем на себя ответственность за их поломку, ухудшение или неполный возврат и вытекающий из этого ущерб (за исключением случаев преступной небрежности или умышленного нанесения вреда). Данное положение не действует, если законом устанавливается обязательная ответственность.

11.2 Когда технологическая оснастка изготавливается или приобретается нами по поручению заказчика, то мы включаем в счет соответствующие издержки, в случае отливки – и на инструмент второго поколения. При неполном использовании инструмента заказчик берет на себя непокрытые издержки, в том числе и на прочие типизированные устройства. Издержки на модели всегда покрываются в полном объеме за счет заказчика. Технологическая оснастка остается нашей собственностью. Мы не обязаны выдавать ее заказчику. Это относится также к инструментам второго поколения.

11.3 Заказчик не имеет права передавать третьим лицам выданные чертежи и документы, а также сообщать о наших предложениях о выгодном конструировании и изготовлении деталей. Данные чертежи и документы могут быть затребованы нами назад в любое время.

## 12. Место исполнения, разрешения возникающих споров, применимое право

12.1 Местом исполнения платежного обязательства заказчика является Неккарзальм, для наших обязательств – местонахождение завода или склада поставщика.

12.2 Все возникающие по данному договору споры будут рассматриваться в г. Хайльбронн. Мы имеем также право предъявить иск к заказчику и по месту его подданности.

12.3 Все правоотношения между заказчиком и нами регулируются исключительно имущественным правом Федеративной Республики Германии за исключением коллизионного права; конвенция ООН о контрактах о международной торговле товарами (CISG) не действует. Для толкования условий поставки используются формы торговых условий INCOTERMS в действующей редакции.

12.4 Частичная недействительность отдельных положений договора не затрагивает действительность остальных положений.

## 14. Запись данных

Данные, необходимые для осуществления сделки, будут записываться и при необходимости передаваться третьим лицам в рамках выполнения заказа. В соответствии с положениями федерального закона о защите информации будет соблюдаться конфиденциальность личных данных.

## Условия продажи и поставки фирмы «MS Motor Service International GmbH», состояние на 01/2003

<sup>1</sup> CISG = Convention on Contracts for the International Sale of Goods = Конвенция о контрактах о международной торговле товарами

## شروط البيع والتوريد

- ١- **إسناد الطلبية، شروط مختلفة**
- 1-١ إن كان لا تقوم بالتوريدات والخدمات إلا حسب الشروط التالية والشروط الخاصة التي يكون المشتري على دراية بها في حالة وجودها.
- ٢-١ الشروط العامة للمالبة بالنسبة للمشتري لا تسري إلا في حالة التأكيد الصريح بصيغة مكتوبة. كما أن عدم إيداع أعضا أو تنفيذ أعمال التوريد والخدمات لا يمثل إقراراً بمشروط العمل الخارجية.
- ٢- **العرض، مستندات العرض**
- 1-٢ يظل عرضنا غير ملزم، طالما لم يُذكر شيء آخر من تأكيد الطلبية.
- ٢-٢ بالنسبة للصور والرسومات والمستندات الأخرى التي نتاح للمشتري، فإننا نحفظ حقوق الملكية وحقوق الطبع والنشر، ولا يجوز استخدامها لغير الأغراض التي نحددها، كما لا يجوز إطلاع أطراف أخرى عليها. ويسري ذلك بصفة خاصة على المستندات المكتوبة التي نصفها بأنها "سرية"، حيث أن المشتري يجب أن يحصل منا على موافقة صريحة ومكتوبة قبل إطلاع أطراف أخرى عليها.
- ٣-٢ جميع البيانات الواردة في الكatalogات والصور والرسومات والمستندات الأخرى تعتبر غير ملزمة.
- ٤-٢ تأكيدها المكتوب للطلبية يعتبر ضروريا لمحتوى وحجم عقد التوريد. وتكفي الصيغة المكتوبة للإرسال من خلال نقل البيانات عن بعد.
- ٣- **الأسعار**
- 1-٣ أسعارنا تسري من المصنع/المخزن بما في ذلك العبوة ويضاف إليها ضرائب القيمة المضافة التي تسري وقت إصدار الفاتورة.
- ٢-٣ نحفظ لأنفسنا بالحق في تغيير أسعارنا بالشكل الذي نراه مناسبا في حالة حدوث انخفاضات أو ارتفاعات في التكاليف، وخصوصاً بسبب وضع خصومات للرسوم والتعريفات أو بسبب تغير أسعار المواد الخام بعد إبرام الاتفاق. وقد نحيط المشتري بذلك بناء على رغبته.

- ٤- **التوريد**

- 1-٤ الالتزام بالمواعيد الزمنية المتفق عليها للتوريدات مروهون باستلام جميع المستندات المطلوبة من المشتري، والترخيص والتصاريح المطلوبة، وخصوصاً المخططات والتزام المشتري بشروط الدفع المتفق عليها وغيرها من التعديلات الأخرى. في حالة عدم الوفاء بيده الاشتراطات في المواعيد المحددة، يتم تمديد المدد الزمنية بناءً عليه، ولا يسري ذلك إذا كنا نحن السبب في التأخير.

- ٢-٤ الكوارث الطبيعية واضرابات العمال والقتال والإجراعات التقييدية وحوادث ما يؤدي إلى إلغاء التوريدات من موردينا وغيرها من الأحداث الجسيمة والمفاجئة والتي لا أحد لها بها من شأنها إعناء طرف التعاقد من الوفاء بالتزاماته خلال فترة الأعتلال والحجم الذي تتسبب فيه مقارنة بحجم الأعمال المزمع بها. ويسري ذلك أيضاً في حالة وقوع هذه الأحداث في أوقات تأخر طرف التعاقد المعني. ويتعهد طرفا التعاقد بتقديم المعلومات المطلوبة بدون تأخير في الإطار الزمني المناسب وأن يعملا على مواءمة التزامتهم بناءً على المستحقات التي طرأت بكل نزاهة وأمانة.

- ٣-٤ وستُعيد مطالبات المشتري لنا بالتعويض بسبب تأخر أداء الخدمات في حالة تأخر التوريد، حتى بعد انقضاء الفترة الزمنية التي نحددها. ولا يسري ذلك طالما كان هناك ضمان ملزم في حالات المدم والإهمال الجسيم أو على الإصابات الجسدية أو الأضرار الصحية، ولا يرتبط ذلك بتغيير الأداة بما يلحق الضرر بالمشتري من جراء ذلك. ولا يؤثر ذلك على حق المشتري القانوني في التراجع. ولا يمكن للمشتري التراجع في إطار البنود القانونية إلا إذا تسببا في تأخير التوريد.

- ٤-٤ يُسمح بالتوريد على دفعات في حالة تأخر دفعة توريد، لا يجوز للمشتري المطالبة بحقوق عن بقية الدفعات الأخرى، إلا إذا كان تسليم الدفعة يمثل أهمية خاصة بالقيمة له.
- ٥-٤ تتم عمليات التوريد من المصنع/المخزن طالما لم يتم الاتفاق على خلاف ذلك. بالإبلاغ عن الاستعداد للشحن، وإعلى أقصى تقدير، عند خروج البضاعة من المصنع/المخزن، يتحمل المشتري مسؤولية الأخطار التي تتعرض لها البضائع، ويسري ذلك أيضاً إذا قمنا بعملية النقل. ولا يتم تأمين النقل إلا بعد اتفاق خاص وعلى نفقة المشتري.
- ٦-٤ العيوب التي تستخدم لمرة واحدة لا يتم استردادها، وعلى المشتري التخلص منها على نفقته الخاصة.

- ٥- **التسليم المباشر**

- ١-٥ يبقى لنا تأجيل وإل أو إلغاء عهد التوريد محل هذا التعاقد إذا قام المورد الأول الذي نتعامل معه بتعجيل التسليم المباشر الصحيح أو في الوقت الصحيح بدون أي تدخل منا.

- ٦- **ضمان العيوب**

- 1-٦ يجب على المشتري أن يقوم بفحص البضاعة فور استلامها وأن يقوم بالإبلاغ عن العيوب التي قد يجدها على الفور. بالنسبة للعيوب غير الظاهرة، فيجب الإبلاغ عنها فور اكتشافها.
- ٢-٦ حتى وقت معالجة الشكوى لا يجوز التعامل مع البضاعة المعيبة. كما يجب إعلنانا الفرصة للشحن عن العيوب محل الشكوى على الطبيعة.

- ٣-٦ كما يتعين إرسال البضاعة إلينا إذا حدثنا وبشكل تلقائي.
- ٣-٦ نماذج البضاعة المُعمّدة للمشتري تعتبر نماذج للاستشارة. ولا للتعرف على البضائع. ومن خلال إعطائنا للمشتري فإننا نتعامل بناءً على التقديرات التجارية عند التوريد.

- ٤-٦ في حالة اكتشاف عيوب، فإننا نقرر حسب اختيارنا إما إزالة العيوب أو توريد منتج آخر خا من العيوب طالما كان ذلك في نطاق موعد نقل المخاطر. إذا لم يتم إصلاح هذه العيوب، فإنه يمكن للمشتري دون استناد بمطالبات التعويض بموجب البندين ٩ أن يقوم بتخفيض التعويض ويتراجع عن التعاقد. ستُعيد مطالبات المشتري بخصوص النفايات اللازمة لغرض إصلاح العيوب وخصوصاً تكاليف النقل والشحن والعمالة والخامات طالما وقعت النفايات بسبب إحضار البضاعة لاحقاً في موضع آخر غير التوكيل الخاص بالمشتري، إلا إذا كان إحضار البضاعة على هذه الصورة في صالح استخدامها طبقاً للتعليمات.

- ٥-٦ مطالبات المشتري القانونية بخصوص الرجوع بموجب المادتين ٤٧٨ و ٤٧٩ من القانون المدني الألماني لا تسري إلا إذا لم يتم المشتري بإبرام أي اتفاقات أخرى مع عييله تتخطى المطالبات القانونية بشأن العيوب. كما أن مطالبات المشتري لنا بشأن العيوب لا تتخطى قيمة سعر شراء البضاعة.

- ٦-٦ لا تسري المطالبات الخاصة بالعيوب إذا كان سبب الخطأ راجعاً إلى عدم الالتزام بتعليمات الاستعمال والصيانة والتوكيب أو بسبب الاستخدام غير المناسب أو غير السليم، أو بسبب التعامل الخاطئ أو الإهمال في التعامل مع البضاعة أو العوامل الطبيعية للتآكل أو قيام المشتري أو أي طرف آخر بالتدخل في البضاعة.

- ٧-٦ تبلغ مدة المطالبات الخاصة بالعيوب ٢٤ شهراً تبدأ من تاريخ نقل المخاطر.

- ٨-٦ وبناءً على طلبنا وعلى نفقتنا يجب إرسال الأجزاء المعيبة إلينا على الفور.

- ١- **شروط الدفع**

- 1-٧ يتم تسديد الفواتير الخاصة ببضائعنا فور استلامها دون خصومات ما لم يُذكر خلافاً لذلك.

- ٢-٧ في حالة تأخر المشتري في الدفع، فيحق لنا تحصيل فوائد عن التأخير بقيمة ٢,٨ من إجمالي مبلغ الفاتورة.

- ٣-٧ لا يحق للمشتري تحصيل أية مبالغ إلا في حالة إثباته ما يثبت حقه في ذلك وإقرارنا بذلك. بالإضافة إلى ذلك، فإنه يحق له التحفظ استناداً إلى ممارسة حقوقه التي تكفل له القيام بذلك.

- ٤-٧ في حالة وجود أكثر من فاتورة أو طلب مفتوح، فإننا رغم اختلاف الشروط الخاصة بالمشتري يحق لنا تحديد تسلسلة إجراءات التي من شأنها تسوية المبالغ المستحقة.

- ٥-٧ إذا حدث بعد إبرام العقد أن حدثت ظروف تثير الشكوك حول القدرة على الدفع بناءً على المعايير المألوقة لدى البنوك، أو في حالة تأخر المشتري عن دفع المبالغ المستحقة، فيحق لنا بعد انقضاء مهلة زمنية معقولة لعدم الوفاء بالمبالغ المستحقة تحصيل المبالغ المستحقة لنا من حساب العميل أو اتخاذ الإجراءات المناسبة التي تضمن لنا حقوقنا.

- ٨- **التحفظ على الممتلكات**

- 1-٨ البضاعة الموردة تظل ملكة لنا حتى استيفاء جميع المطالبات الحالية من واقع شروط الصفقة بينما وبين المشتري (بضاعة محجوزة). في حالة اتخاذ إجراءات الإحصار بخصوص ممتلكات المشتري، فإننا نحفظ لأنفسنا بحق الرجوع عن إتمام الصفقة. في حالة قيام المشتري بمخالفة التزاماته، وخصوصاً في حالة تأخر الدفع، فإننا يحق لنا الرجوع عن الصفقة واسترداد البضائع، ويتعهد المشتري بالإعلان عن ذلك. استرداد البضائع أو تنفيذ حق التحفظ على الممتلكات لا يتسوجب رجوعاً عن الصفقة من طرفنا، ففي هذه الحالات أو في حالة مصادررة البضاعة المحجوزة من طرفنا، فإن هذا لا يمثل رجوعاً عن الاتفاق، إلا إذا صرحنا بذلك بشكل لا لبس فيه.

ويتعهد المشتري بتخزين البضاعة المحجوزة وتمييزها بشكل منفصل. كما يلتزم المشتري بالتعامل مع البضاعة المحجوزة بعناية، كما يلتزم بشكل خاص بالتأمين عليها وهي في حالة جديدة وعلى نفقته الخاصة ضد مخاطر الحريق والماء والسرقة. يتعين على المشتري تنفيذ أعمال الصيانة والفحص في الأوقات الصحيحة على نفقته الخاصة طالما كان ذلك مطلباً.

لا يجوز للمشتري رهن البضاعة المحجوزة أو نقل ملكيتها لطرف آخر على سبيل التأمين. في حالات رهن البضاعة أو مصادرتها أو التصرف فيها بشكل آخر أو ادعاء طرف آخر بملكاتها، فعلى المشتري إبلاغنا بذلك فوراً.

يجب للمشتري إعادة بيع البضاعة المحجوزة في عملية تجارية سليمة، غير أنه يتعين عليه في هذه الحالة أن يتنازل لنا عن جميع المطالبات بمقدار المبالغ النهائية المستحقة بموجب الفواتير التي أصدرها له، وذلك بصرف النظر عن التزاماته تجاه عبائنا أو أي طرف آخر، على أن يتم ذلك بصرف النظر عما إذا كتكت البضاعة المحجوزة قد أعيد بيعها بدون أو بعد إعادة معالجتها. ولتضمن هذه المطالبة بظل المشتري مخولاً وله الحق حتى بعد التنازل، ولا يؤثر ذلك على حقا المكتوب على نسخة المطالبة بأنفسنا. تتعهد بالا بأن تقوم بتضمين المطالبة طالما أن المشتري ملتزم بدفع المبالغ المستحقة بموجب التعاقد، ولا يتأخر عن سدادها، وطالما أنه لم يقدم طلباً بتطبيق إجراءات الإحصار أو لم يطلب إعادة جدولة مواعيد دفع المبالغ المستحقة. وفي جميع الأحوال يمكن لنا أن نطلب من المشتري أن يعلن عن تنازله عن المطالبات لنا أو للدائن، وأن يقدم جميع البيانات والمستندات المتعلقة بهذا الشأن وأن يقوم بتسليمها لنا وأن يقوم بإبلاغ الدائنين (الأطراف الأخرى) بهذا التنازل. ويقوم المشتري بمعالجة البضائع المحجوزة والتعامل معها نيابة دون أن نتحج من ذلك التزامات علينا. إذا قام المشتري بتوصيل أو خلط أو توليف أو معالجة ببضائنا المحجوزة، فإننا سوف نطالب بالمشاركة في ملكية البضاعة الجديدة بنسبة تعادل قيمة البضاعة المحجوزة (المبلغ النهائي للفقارة) بالنسبة للبضائع الأخرى التي تمت عملية المعالجة أو التوليف أو الخلط أو الخلط أو التوليف (المبلغ النهائي للفقارة) وبالنسبة لتلك البضائع التي نتجت عن عمليات المعالجة أو التوصيل يسري نفس الشيء بالنسبة للبضاعة المحجوزة الموردة في ظل التعاقد. إذا تمت عمليات الخلط أو التوليف بطريقة معينة أدت لنا أن يصبح المنتج الذي صنعه المشتري هو الشيء الرئيسي، فإنه بموجب الاتفاق يلتزم المشتري بأن يحصل لنا حصصاً لنا المشتركة في ملكيته بنسبة القيمة المعنية. ويحفظ المشتري لنفسه بالحق في التفرّد بالملكية وحده أو إشراكنا في الملكية.

إذا تجاوزت قيمة التقييمات التي قدمناها القيمة الإجمالية للمطالبات بنسبة تزيد على ٧,١٠٪، فإننا بناءً على طلب المشتري نتعهد بإقانة التأمينات الزائدة حسب اختيارنا.

طالما أن تسجيل أو تلبية المطالبات يعد شرطاً لدخول التحفظ على الملكية كجزء من التعاقد، فإن المشتري يتعهد باتخاذ جميع التدابير اللازمة لتلك على نفقته الخاصة وأن يقوم بعمل جميع الإبلاغات والإخطارات المطلوبة. إذا لم يكن القانون الساري يسمح بإبرام اتفاق بشأن التحفظ على الملكية، فإن المشتري يقدم لنا التأمينات الأخرى اللازمة عند استغلال قرض البضاعة.

#### المطالبات الأخرى للتعويض عن الأضرار

ستُعيد المطالبات التي يقدمها المشتري بشأن التعويض عن الأضرار مهما كان سنداها القانوني - وخصوصاً بسبب مخالفة الالتزامات من واقع نسبة الدين أو من واقع التعامل التجاري غير السموح.

ويسري ذلك طالما كان القانون يتوجب تسوية تقديم ضمان، على سبيل المثال حسب قانون الضمان على المنتجات في حالات التعمد والإهمال الجسيم وبسبب تهديد الحياة أو التسبب في إلحاق إصابات جسدية أو أضرار صحية أو بسبب مخالفة الالتزامات الجوهرية بموجب التعاقد. غير أن المطالبة بالتعويض عن الأضرار نتيجة لمخالفة الالتزامات الجوهرية بموجب التعاقد تنحصر على الضرر الموصوف في التعاقد أو الضرر المتوقع، طالما لم يثبت ما يدل على التعمد أو الإهمال الجسيم أو بسبب تهديد الحياة أو الإصابات الجسدية أو الأضرار الصحية. كما أن تعبير أدلة الإثبات بما يضر بمصلحة المشتري لا يرتبط بالضوابط سالفة الذكر.

طالما أن المشتري يستحق المطالبات للتعويض عن الأضرار بموجب هذه الفقرة ٩ فإن هذه المطالبات تسقط بانقضاء المهلة الزمنية السارية لمطالبات التعويض عن الأضرار بموجب البندين ٧٠,٦ وطالما لا توجد تعليمات قانونية مألوفة. وطالما أن ضمان تعويض الأضرار مستبعد أو مفيد بالنسبة لنا، فإن هذا يسري أيضاً فيما يتعلق بالضمان الشخصي لتعويض الأضرار بالنسبة لموظفينا ومندوبينا ووكلائنا.

#### حقوق الأطراف الأخرى

طالما أن هناك طرف آخر يقوم بتقديم مطالبات مستحقة قانونياً ضد المشتري بسبب مخالفة قانون الحماية التجارية أو حقوق الملكية الفكرية (قوانين الحماية) من خلال منتجات مستخدمة بموجب التعاقد وموردة من قبلنا، فإننا نضمن الاتي تجاه المشتري:

أ) نقوم حسب اختيارنا بتعجيل قانون استعمال المنتج على نفقتنا الخاصة، وتغيير المنتج بما يمنع مخالفة حقوق الحماية أو إدخال تعديلات على المنتج. إذا لم نتكمن من تحقيق ذلك بالشروط المعقولة، فإن علينا أن نسترد المنتج نظير رد سعر الشراء.

ب) التزاماتنا سالفة الذكر لا تسري إلا إذا قام المشتري بإخطارنا كتابية على الفور بشأن المطالبات المقدمة من قبل الطرف الآخر، أو إذا لم يتم اكتشاف المخافة وتحفظ لأنفسنا باتخاذ جميع الإجراءات الدفاعية والتفاقات التسوية. إذا قام المشتري بإيقاف استخدام المنتج لأسباب تتعلق بتقليل الأضرار أو أية أسباب أخرى ذات أهمية، فإنه يتعهد بأن يبين الطرف الآخر إلى أن إيقاف الاستخدام لا يرتبط بأي إقرار لمخالفة قانون الحماية.

ستُعيد أية مطالبات للمشتري طالما هو هو المتسبب في مخالفة قوانين الحماية، أو طالما أن مخالفت قانون الحماية قد وقعت نتيجة لتعليمات خاصة صادرة من المشتري أو بفعل استخدام لم نصرح به، أو بسبب قيام المشتري بإدخال تعديلات على المنتج أو في حالة قيام المشتري باستخدام المنتج مع منتجات أخرى من ماركات أخرى.

في حالات البندين ٢٠,١٠ يقوم المشتري بأنفسنا من مطالبات الطرف الآخر.

ستُعيد أية مطالبات أخرى ضدنا، غير أن بند ٩ (مطالبات تعويض الأضرار) لا تتأثر بذلك، كما لا يتأثر أيضاً بذلك حق المشتري في الرجوع عن العقد.

في حالة ظهور أية مخالفت قانونية أخرى، فسوف تسري البنود بموجب فقرة ٦ بما يتناسب مع الحالة.

#### وسائل الإنتاج، الأنوات، تجهيزات التشكيل

طالما أن المشتري يوفر لنا وسائل إنتاج (مثل الأدوات والأشكال والقوالب بمختلف أنواعها)، فيجب إرسالها إلينا بدون أية رسوم أو نفقات. ولا تتحمل أية مسؤولية عن تعطلها أو تلفها أو عدم اكتمال حالتها عند إعادة تسليمها ولا الأضرار التي تنتج عن ذلك، ولا يسري ذلك على حالات التعمد أو الإهمال. ولا يسري ذلك طالما كانت هناك قوانين تستوجب المسؤولية.

في حالة قيامنا بتصنيع أو شراء وسائل إنتاج باسم المشتري، فإننا سوف نضيف التكاليف الناتجة عن ذلك في الفاتورة بشكل منفصل، كما يضاف إلى ذلك الأجزاء كبيرة الحجم والعند والأدوات اللازمة. في حالة عدم استخدام أداة يحمل المشتري النفايات غير المدفوعة، وحتى التجهيزات المرتبطة بذلك. النفايات المستحقة عن المولدات يتحملها المشتري بالكامل. وسائل الإنتاج تظل ملكية خاصة لنا. ولا نلتزم بإبلاغ المشتري بذلك. ويسري ذلك أيضاً على أدوات الضبط.

رسوماتنا وتصميماتنا التي سئلمانا للمشتري وكذلك نماذج المشتري يمكنها بعض الأجزاء لا يجوز تمريرها لطرف آخر، ويمكن أن نقوم في أي وقت باستردادها.

#### موقع التوريد، المحكمة المختصة، القانون الساري

موقع التوريد الخاص بتعهد المشتري بالدفع هو مدينة نيكارسلوه، وبالنسبة لنا فإن موقع التوريد هو مصنع التوريد/المخزن التوريد. المحكمة المختصة هي محكمة هيلبرون. ويحق لنا أيضاً تقديم شكوى ضد المشتري في محكمة العمومية.

بالنسبة لجميع العلاقات القانونية بين المشتري وبيننا تسري فقط الحقوق المادية لولاية ألمانيا الاتحادية ولجنة قانون التصاممت، ولا تسري اتفاقية UN بشأن إبرام العقود بشأن البيع العالمي للبضائع (CISG). فيما يتعلق بصياغة شروط التوريد تسري قوانين INCOTERMS بتنسخها المعمول بها حالياً.

#### عدم سريان بعض البنود

عدم سريان بعض بنود هذا التعاقد لا يؤثر على بقية البنود الأخرى.

#### حفظ البيانات

يتم حفظ البيانات اللازمة لإبرام الصفقة، كما يمكن أيضاً تمريرها لأطراف أخرى في إطار اتفاقية الشراء. وبالنسبة للبيانات الشخصية، فيتم التعامل معها بالسرية المطلوبة وفقاً لقانون الحماية لولاية ألمانيا الاتحادية.
