*Since 1955*

## *Preface*

*Sertplas has been founded in 1955 as a small plastic injection shop. Today, we have 11.500 m<sup>2</sup> covered area on a land of 40 acres with 270 employees.*

*We are active in the field of automotive replacement spare-parts (mainly truck & trailer). We would like to attract your attention to the fact that, lamps, cables, connectors, lighting installation network, tubes and brake couplings, electronic products like converters and regulators, presented in this catalogue, are all manufactured in our plants. Yearly production rate of only the complete lamps is more than 1.5 million units.*

*Sertplas has ISO 9001 certification from SGS, the list of products having E-mark according to ECE regulations is enlarging everyday. Through this quality approach we aim to gain the customers' full satisfaction with our close attendance.*

*Uppermost attention to the changes and necessities of the market, enables us to export 95% of our production. We are proud of serving as production and trading company in the field of Commercial Vehicles, many aftermarket customers throughout Europe, Africa, Middle East and some local OEM factories.*

*We are designing and manufacturing in our CNC tool shop, plastic or metal injection and metal punching tooling. We would be pleased to quote for your special requirements upon product drawings or your own product samples.*
